Pronto NEO

Easy to use, hand-fed card printer.

Incredibly easy to use with drop-in dye film and hand-fed card loading, the Pronto NEO includes the HoloKote® visual security system and can print colour, monochrome or rewritable cards. Its plug-and-play setup and compact footprint are ideal for portability and lower volume card printing.

Features

Printer highlights

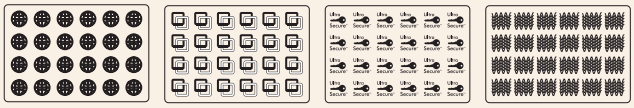
Printing speed	Card capacities	Limited Warranty	Visual security	Operating systems
1 / 35s	1	2 YEAR	x4	Windows | OS X
Prints 1 full colour card per 35 seconds	Hand-fed		4 x Standard HoloKote® watermark	Windows and Mac OS compatible

HoloKote® – built-in visual security

HoloKote® technology was pioneered by Magicard to apply a secure watermark to each card during the printing process. The Pronto NEO comes complete with 4 standard designs which are selectable from the printer driver.

In addition you can opt to add in an extra layer of security in the form of a HoloPatch® which has a highly reflective gold 'super diffuser' seal. When the HoloKote® watermark is printed on to the seal, the watermark becomes clearly visible under all lighting conditions. HoloKote® with HoloPatch® has a similar appearance to hologram seals. It provides a distance visible security mark allowing a security guard or colleague to easily verify badge authenticity from a distance of six feet or more.

HoloKotes® for Pronto NEO



MAGICARD NEO

ProntoNEO

The NEO range - Secure ID cards for every budget, industry and application

Cards have become a part of everyday life. Used for gaining access to buildings and facilities, verifying that individuals are who they say they are or simply being used to purchase goods or services, cards have become the ubiquitous global standard for identity.
