PRODUCT

Quve-330 Smart WiFi Wall Socket

About this item:

★Indicator Light: Power and Wi-Fi indicator lights on the face plate help you to know more clearly about the socket operation and make less confusion.

★Voice Control: smart wall sockets are compatible with Amazon Alexa and Google Home. Just control it via your voice to turn power on/off. easy to install.

★USB Charger: One USB changer can control the power on/off via smart phone, no additional button on the plate. If the phone is charging while you are sleeping, do a easy step to turn the power off at the time you set via smart phone.

★Schedules/ Counterdown: You can turn power on/off on your own timetable, or set a countdown to turn power on/off from 1 min to 60 mins via 'smart life' app. Remotely check if the power is off or not, more safe and power-saving.

★Divided Outlet Control: Control both the left/right outlets and USB separately, it means you can control multiple separate electronic devices right from your smart phone

★NOTE: Only Support 2.4G WiFi,Not 5G★
