## New Q2 remote controller with active braking function

Simple design for everyone to get started quickly with it

- Switch between Beginner mode and burst mode:  
Turn off remote controller > press and hold the function key > Turn on the remote controller

Red LED flashing: Burst mode on, 100% speed

Red LED on: Beginner mode on, 60% speed

- Install battery:  
Remove the battery cover > Install two AA batteries correctly > Install the cover

### • Charge Q33 mini car

Insert the red plug into "CHARGE" hole correctly

Attention! Plugging the connector in wrong way will cause serious consequences

Plug the USB port to mobile phone charger or Computer USB (5V)

## **20 days warranty**

Any quality issues happened within 20 days from the order date, replace only,  
Just send your malfunctioning product to us, a brand-new item will you get from us.

### **Product specification**

Brand: Diatone

Model No.: Q33 Karting

Scale: 1/76

Color: Yellow blue green pink red grey

Remote Control: Q2

Frequency: 2.4G

Channel: 2CH

Remote Distance: 50m

Transmitter Required Battery: 5×AA battery(not included)

Slope Climbing Angle: 30 degree

Battery for the Car: 3.7V 140mAh Lipo battery(included)

Charging Time: About 30 minutes

Battery Playing Time: Approx.60 minutes

Car Size: 56×40×24mm

Remote Controller Size:154\*124\*54mm

Package Included:

1× RC Car

1× Q2 Remote Controller

1× Extra White Body Shells

1× USB Charger

1× Souvenir

1× Instruction Manual
