2.5 Wiring harness definition

Red: VCC

Orange: electric lock

Black: earth

Green: Hall signal

Blue: signal transmission

Yellow: signal reception

3 How to ride the scooter

Please wear helmet, kneecap, elbow-pad when you learn to ride the scooter.

1 Press the POWER button for 2 seconds.

2 Put one foot on the pedal, Push off the ground with your strong leg.

3 Balance both feet on your scooter when you have enough momentum

4 Press the THROTTLE button slightly on your right hand to start and rotate the handle to turn

6 Press the brake lever to brake, and gently press the rear fender to assist the brake.

5 Press the THROTTLE button to speed up. Do not ride too fast.

7 When the scooter stops or run at a slow speed, you can get off.

4 Battery Instruction

The instruction shows how to charge and maintain the battery, some safety notices and the specification. Please use the battery properly according to this instruction to prolong the battery life and its performance.

4.1 Battery Parameters

Name	Parameter	Name	Parameter	Name	Parameter
Type	Li-ion battery	Working Temperature	0°C-35°C	Store Time (-10°C-40°C)	3 months (full charge)
Charging Time	8-10 hours	Charging Temperature	0°C-35°C	Initial Volume	20Ah
Voltage	48V	Max Charging Voltage	54.6V	Max Charging Current	1.5A

4.2 Battery Safety

Do not continue to use the battery when the following conditions occur:

- The battery of the electric scooter should be used only with local law. Only for professionals to disassemble and maintain the battery.
- Odor or excessive heat; leak any substance; do not touch anything leaking from the battery.
- Do not let children and animals touch the battery. Must unplug the charger before installing the battery or riding. In the case of charging, it is very dangerous to do anything related to electric vehicles.
- If you want the electric scooter to run most efficiently, the battery must be charged and used within the temperature range indicated in the battery specifications.
- Lithium batteries are considered dangerous and require local law to allow transportation.
- The battery contains dangerous substances. Please do not open the battery . Do not insert anything into the battery.
- It is forbidden to charge a lithium battery that has been over-discharged. A battery that has been over-discharged has a safety hazard and can only be scrapped.

Tip: When the internal temperature of the battery exceeds 45 °C, the battery is protected.

- ⚠ Do not charge the battery at high temperature (45 ° C) or Charge the battery in a high temperature (40 ° C) environment.
- ⚠ Only use the original charging equipment to charge the electric scooter.

4.3 Charging step

- Open the charging port cover, Make sure the charging port is clean and dry.
- Connect the charger with the battery and the other end with power(100V-240V;50/60Hz), make sure the charging indicator is on.
- When the indicator light on the charger changes, indicating that the charging process is normal, otherwise check if the line connection is good.
- When the indicator on the charger has color change, it indicates that the battery has been filled to 99%, Please stop charging; long time over charge will affect the battery life.

Tips:

Remove the battery to open the silicone charging port, plug the charger DC plug into the battery charging port; plug the power cord into the charger, then connect the other port to the socket (100V-240V; 50/60Hz), and confirm the charger indicator is on normally

Cover the charging port with the anti-dust cap in case some metal may touch the charging port and bring short-circuit after charging finished.

5 Specification

Product

Liquid weigh	40Kg
Size	148cm x 32 cm x 60
Wheel diameter	cm 11inch
Endurance	60km
Speed	55km/h
Load capacity	120Kg
Lithium battery	48V 20AH
Engine power	2400W

6 Maintenance

Maintenance considerations :

- Make sure the electric scooter charger and charging line are disconnected and ensure that the electric scooter is off.
- Wipe the shell with a soft cloth to clean the electric scooter. Please don't put more lubricating oil on bearing when you do the maintenance for it.

⚠ Warning

- It is forbidden to clean electric scooters by using water cannon or soaking in liquid. This will cause permanent damage of the electronic devices in the host.

Storage

- Please charge your electric scooter before storage, for preventing the battery from discharging too long time. Please ensure charge at least once every three months.
- If the storage environment temperature is lower than 0 °C, please don't charge electric scooter. Please put it in inside environment temperature (above 10 °C) and then charge, storage temperature is - 10 °C to 35 °C.
- Please keep the electric scooter in a suitable place indoor, dry and appropriate temperature. You can mask the electric scooter to prevent from the dust.

⚠ Warning

- In order to protect the user's safety, the user can not take apart the electric scooter, otherwise, the user will give up the maintenance warranty rights of the product automatically.

7 Troubleshooting

Please contact the sales office or the dealer with no hesitate for repair when the electric scooter fails to ride normally.

Description of adverse phenomena	Solution
unable starting up	Check to see if the battery is powered
can not charge	1.Check whether the plugboard has electricity; 2.Check the charger whether connect AC plug (the light whether is on); 3.Check the plug of the charger and the charging port of the whole scooter have been inserted correctly.
No horn、no blue tooth signal	Check the bluetooth switch whether turn on.

8 Packing List

Electric scooter packing list :

E-scooter: 1PC

Charger: 1PC

Manual: 1PC

Screws & Wrench: 1set

Please contact us with no hesitate if there is any breakage or missing when you open package. We will replace it for you as soon as possible.

Have a nice day!

9 Product Quality Certificate

This product is qualified by passing QC inspection and allowed to be sold on the market.

The warranty card (It takes effect upon manufacturer's seal and passing with serial number) regular sales invoice is effective maintenance certificate. Please keep the warranty card properly.
