

## BEER TOWERS

### R TOWER

The "R Tower" Provides a subtle split off branching your tower outward. Professionally crafted with a 304 Stainless Steel, but not just on the outside. We also utilize a 304 Stainless Steel Tube for the circulation of your beverages. This ensures that your beverage is of quality with each and every pour; leaving you with an untainted beverage. In addition it has a subtle warm LED light option to be able to make your favorite beverages name glow.
