Connect to APP

Download and install the app Smart Life

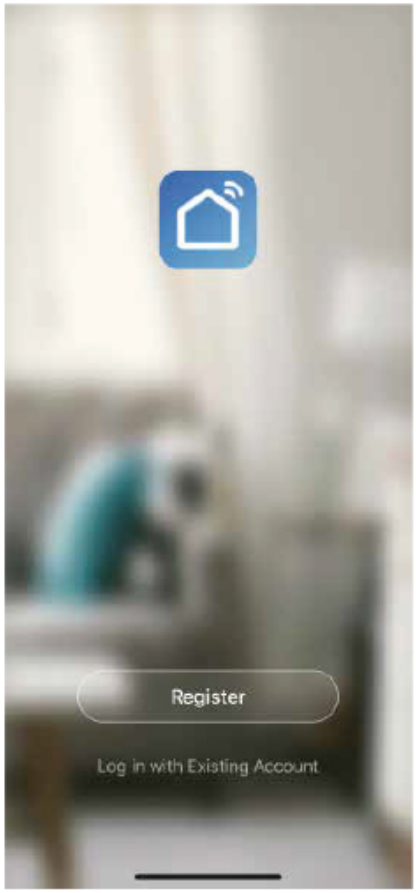
Scan the QR code below with your mobile phone or search for "Smart Life" in the App Store to download and install the app.

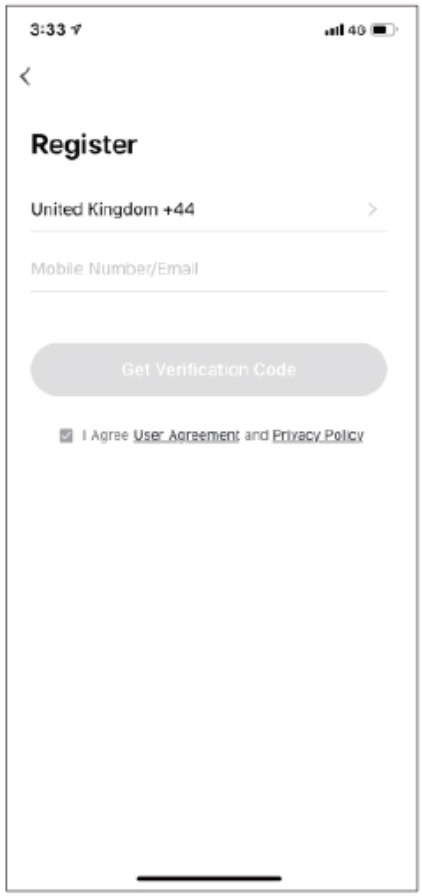
Register / Log In

Registration: Before using for the first time, please use the following tips to register your account.

(Email or phone number)

If you already have an account, enter your account and password to log in directly.





Add Device – Normal Mode (Flash mode)

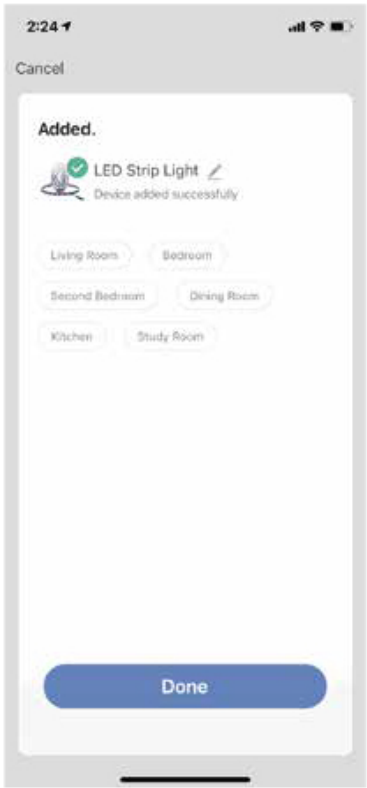
Click "+" on the top right of the main page to go to the next page and then select "Lighting" –"Strip–Lights" as shown below.

In normal mode (Flash mode), make sure that the red light of the device flashes quickly and then enter your 2.4G WIFI Password.

Note:

- [turn on–off–on–off–on] displayed by APP is WRONG. If it doesn't flash quickly, Please press and hold the "Mode" button on the connector or the "ON" button of the remote controller for 5s.

  NOTE: When long press the "ON" button, please make sure point the remote controller at the infrared receiver.
- WIFI name and password should not include special characters such as: @ # ¥ % …… & *



Note:

- If adding the device fails several times in normal mode, then please try AP mode.

Add Device – AP Mode (Slow Flash Mode)

Click "+" on the top right of the main page to go to the next page and then select "Lighting"–"Strip–Lights" as shown below.

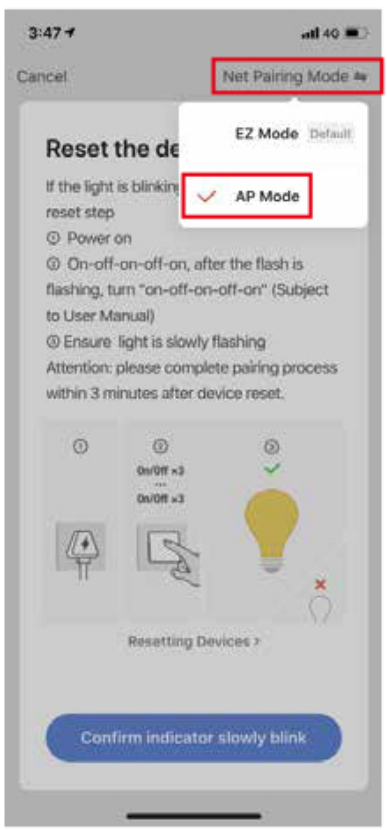
In Normal mode, click "Net Pairing Mode"–"AP Mode" to continue the "AP Mode" page.

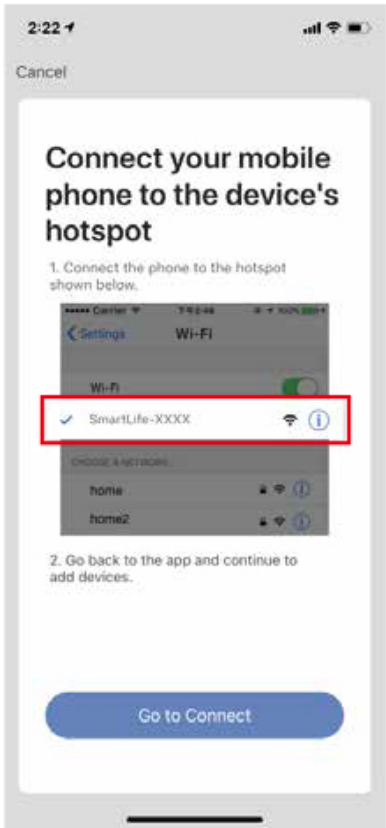
In AP mode, make sure the device's red light is blinking slowly, and then enter your 2.4G WIFI Password, connect to the hotspot named "SmartLife–XXXX" then back to smart life APP.

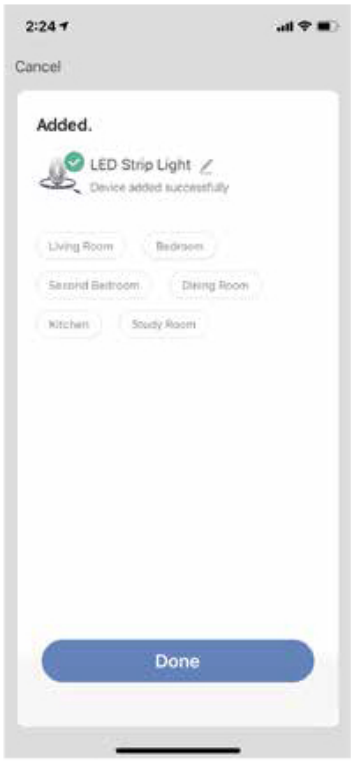
Note:

- [turn on–off–on–off–on] displayed by APP is WRONG. If it doesn't flash slowly, please press and hold the "Mode" button on the connector or the "ON" button of the remote controller for 5s.

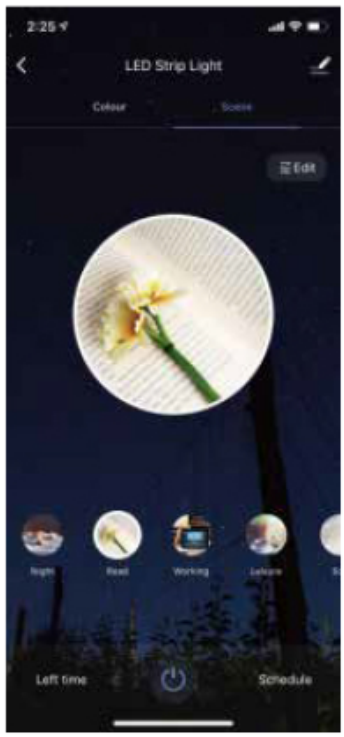
  NOTE: When long press the "ON" button, please make sure point the remote controller at the infrared receiver.

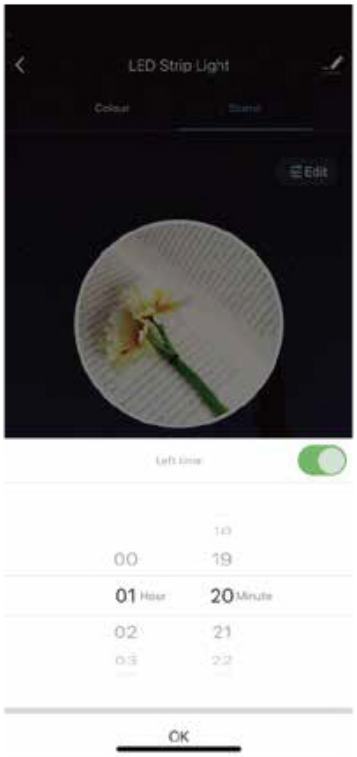






Device Control / Scene/ Timer / Countdown

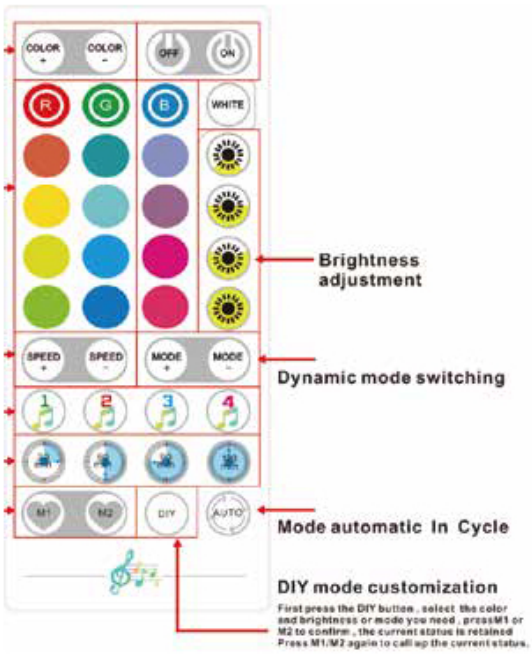




LED Strip Light with Music Function

Note:

The volume of the mobile phone is relatively low, it is BETTER to use Bluetooth audio.

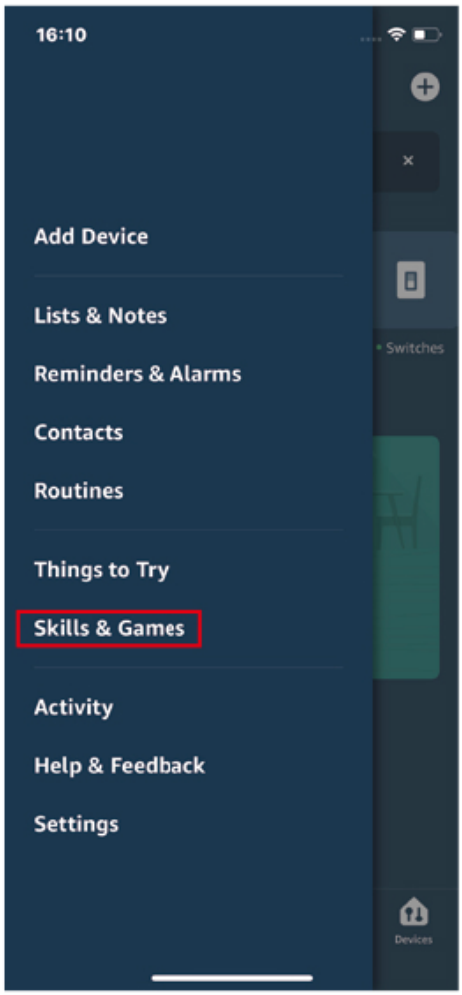


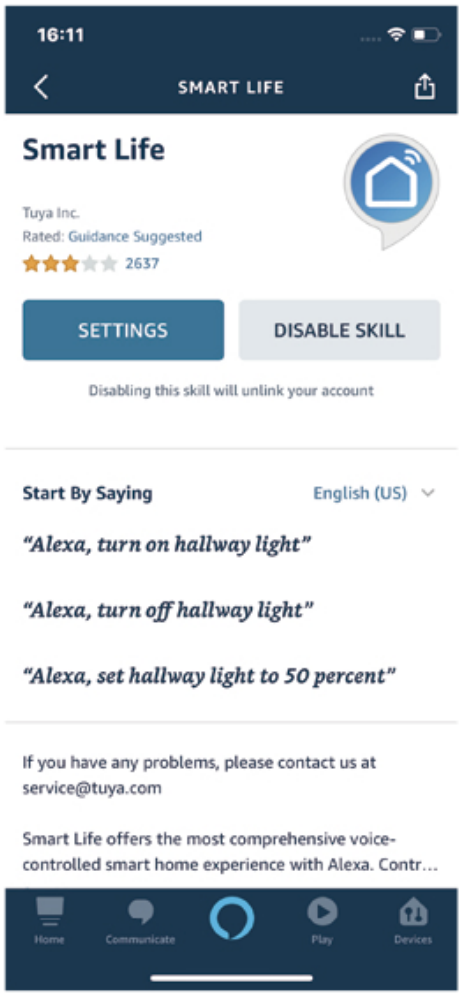
Connect Your Device to Alexa

If you have activated skill: Smart Life, you can directly say "alexa, discover device"

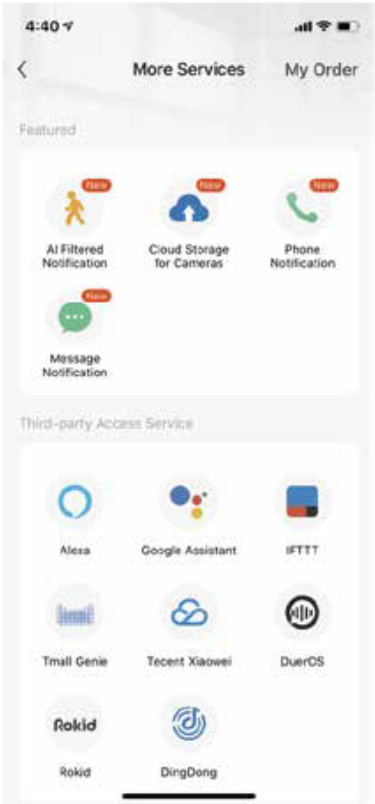
Note:

If you change the device name on smart life app, alexa needs to rediscover the device.

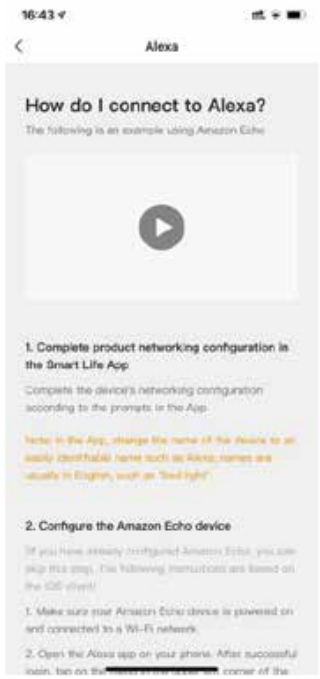




If not. Please check the instructions in app below.



If you already have an amazon alexa account, please just sign in with Amazon. If not, please view connection methods



Connect Your Device to Google Home
