

## JJ-G310 INSTRUCTIONS

### Multi-function holder

Integrated design of mobile phone clip and camera carrier plate, which can be turned into a mobile phone clip when launched, convenient and practical for mobile phone shooting.

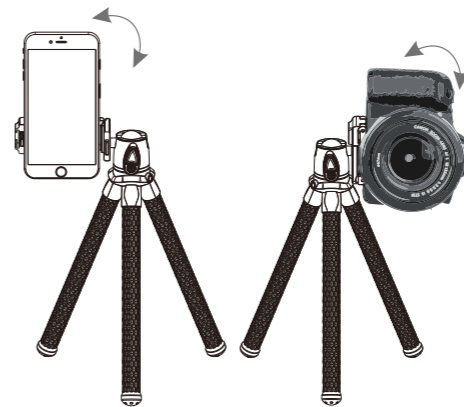

### Camera Support

The camera carrier plate uses 1/4" screws for quick docking with the camera.

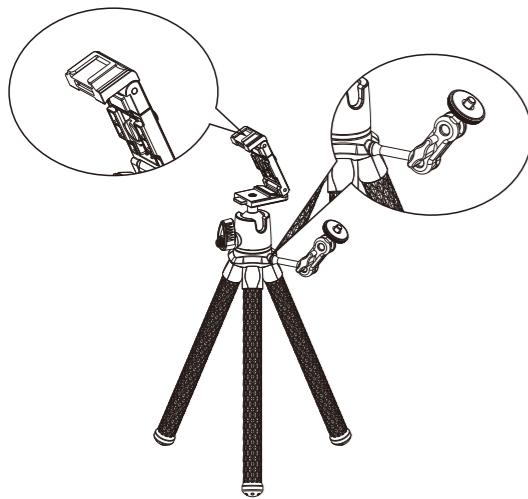

### Support horizontal and vertical shooting

Integrated spherical head design, when unscrew the ball locking knob, it can adjust the horizontal, vertical and other shooting angles; when adjusted to the appropriate position, and tighten the ball locking knob, it can meet the different shooting style.

## Hot shoe slot and 1/4 outer interface

The mobile phone holder has a hot shoe interface, and the three-cutter position has a 1/4 interface, which is convenient for external photographic camera auxiliary equipment.
