How to Install Your Cartridge

Screw 510 connector to cartridge.

Put the cartridge into the Retro battery until you feel the magnetic touch. Now the cartridge is successfully installed.

Attention

1. Check the legal smoking age in your jurisdiction.
2. Keep your Retro and its components away from reach of children, pregnant women and pets.

3. Do not disassemble or tamper with your Retro. Any inappropriate, incorrect, or irresponsible use will void any warranty and may result in injury.
4. Please do not keep the oil inside the cartridge if the device is not going to be used for a long time.
5. Please refill the cartridge when the oil is nearly used out to avoid dry-burning of the cartridge.
6. In order to prolong the service life of your product, please keep it away from excessive temperature and humid environment.
