# Safety Data Sheet(SDS)

## According to GHS

Product name:TPU FilamentPrepared by GB/T16483 and GB/T 17951Revision date:2021.5.15SDS Number: SLFDM2105011Initial date:2017.2.15Version: 5.1Section 1 - Identification of the substance/preparation and of the company/undertaking

Product identifier

Product name: TPU filament

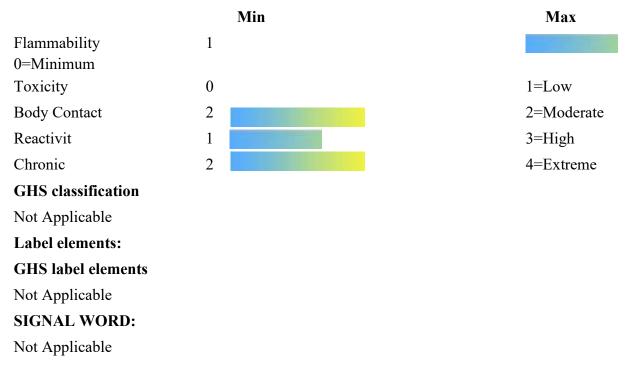

Relevant identified uses of the substance or mixture and uses advised against

Details of the supplier of the safety data sheet

Manufacture/Supplier :Zhuhai SUNLU Industrial Co., Ltd.Address:Room 501C, Building 2 No.35 Jinzhou Road, Tianjiawan Town, High-tech<br/>District, Zhuhai Guangdong China.Tel:(086) 0756 3385639E-mail :jk@sunlugw.comFax :(086)0756 3385639

Further information obtainable from: Zhuhai SUNLU Industrial Co., Ltd

#### Section 2 - Hazards Identification

Duan and hy CD/

#### Section 3 – Composition/Information on Ingredients

Ingredient Name	CAS No.	Content (%)
C6H1004	124-04-09	50%
C4H7NO	110-78-1	30%
C4H1002	19132-06-0	20%

### Section 4 - First Aid Measures

### INGESTION

- Immediately give a glass of water.
- First aid is not generally required. If in doubt, contact a Poisons Information Centre or a doctor. **EYE**

If this product comes in contact with eyes:

- Wash out immediately with water.
- If irritation continues, seek medical attention.
- Removal of contact lenses after an eye injury should only be undertaken by skilled personnel.

### SKIN

If skin or hair contact occurs:

- Flush skin and hair with running water (and soap if available).
- Seek medical attention in event of irritation.

### Inhalation

- If fumes, aerosols or combustion products are inhaled remove from contaminated area.
- Other measures are usually unnecessary.

## Indication of any immediate medical attention and special treatment needed

• Treat symptomatically.

## Section 5 - Firefighting Measures EXTINGUISHING MEDIA

- Foam.
- Dry chemical powder.
- BCF (where regulations permit).
- Carbon dioxide.

## FIRE FIGHTING

- Alert Fire Brigade and tell them location and nature of hazard.
- Wear breathing apparatus plus protective gloves.

- Prevent, by any means available, spillage from entering drains or water courses.
- Use water delivered as a fine spray to control fire and cool adjacent area.

## FIRE/EXPLOSION HAZARD

- Combustible solid which burns but propagates flame with difficulty.
- Organic powders when finely divided over a range of concentrations regardless of particulate size or shape and suspended in air or some other oxidizing medium may form explosive dust-air mixtures and result in a fire or dust explosion (including secondary explosions).

### FIRE INCOMPATIBILITY

• Avoid contamination with oxidising agents i.e. nitrates, oxidising acids, chlorine bleaches, pool chlorine etc.as ignition may result

•

## Section 6 – Accidental Release Measures

## **MINOR SPILLS**

• Generally not applicable

## **MAJOR SPILLS**

• Generally not applicable

Personal Protective Equipment advice is contained in Section 8 of the SDS.

## Section 7 - Handling and Storage

## PROCEDURE FOR HANDLING

- Limit all unnecessary personal contact.
- Wear protective clothing when risk of exposure occurs.
- Use in a well-ventilated area.
- Avoid contact with incompatible materials.
- Store in original containers.
- Keep containers securely sealed.
- Store in a cool, dry, well-ventilated area.

## SUITABLE CONTAINER

- Polyethylene or polypropylene container.
- Check all containers are clearly labelled and free from leaks.
- Packing as recommended by manufacturer.

## STORAGE INCOMPATIBILITY

Avoid contamination of water, foodstuffs, feed or seed.

• Avoid reaction with oxidising agents

## Section 8 - Exposure Controls, Personal Protection EXPOSURE CONTROLS

## Appropriate engineering controls

Engineering controls are used to remove a hazard or place a barrier between the worker and the hazard. Well-designed engineering controls can be highly effective in protecting workers and will typically be independent of worker interactions to provide this high level of protection.

The basic types of engineering controls are:

Process controls which involve changing the way a job activity or process is done to reduce the risk. Enclosure and/or isolation of emission source which keeps a selected hazard "physically" away from the worker and ventilation that strategically "adds" and "removes" air in the work environment.

#### **Personal protection**

#### Eye and face protection

- Safety glasses with side shields.
- Chemical goggles.

• Contact lenses may pose a special hazard; soft contact lenses may absorb and concentrate irritants. A written policy document, describing the wearing of lenses or restrictions on use, should be created for each workplace or task.

#### **Skin protection**

See Hand protection below

#### Hands/feet protection

The selection of suitable gloves does not only depend on the material, but also on further marks of quality which vary from manufacturer to manufacturer. Where the chemical is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

The exact break through time for substances has to be obtained from the manufacturer of the protective gloves and has to be observed when making a final choice.

Suitability and durability of glove type is dependent on usage.

#### **Body protection**

See Other protection below

**Other protection** 

- Overalls.
- P.V.C. apron.
- Barrier cream.

Section 9 - Physical and Chemical	
Properties Information on basic	
physical and chemical properties	
Odour	Odorlessness
Form	Solid
Melting Range (°C)	No data
Boiling Range (°C)	No data
Flash Point (°C)	No data
Decomposition Temp (°C)	No data
Autoignition Temp (°C)	No data
Upper Explosive Limit (%)	No data
Lower Explosive Limit (%)	No data
Volatile Component (%vol)	No data
Solubility in water (g/L)	Insoluble in water
p H (1% solution)	No data
p H (as supplied)	No data
Print Temp (°C)	205-230
Bed Temp(°C)	No Heat(or 40-60)
<b>Density</b> (g/cm <sup>3</sup> )	1.2
Heat Distortion Temp(℃,0.45MPa)	No data
Melt Flow Index (g/10min)	22
Tensile Strength (MPa)	20
Elongation at Break (%)	300
Flexural Strength (MPa)	No data
Flexural Modulus (MPa)	No data
IZOD Impact Strength (kJ/m <sup>2</sup> )	No data

## Section 9 - Physical and Chemical

4.4

Section 10 - Stability

## and Reactivity

## Reactivity

See section 7

### Chemical stability

- Unstable in the presence of incompatible materials.
- Product is considered stable.
- Hazardous polymerization will not occur.

Section 11 - To	xicological Information
	toxicological affects
Acute Toxicity	
LD/LC50 value	es relevant for classification
No data.	
Primary irritar	ıt effect
On the skin	
No data.	
On the eyes	
No data.	
Inhaled	
No data.	
Sensitization:	No data.
Section 11 - To	xicological Information
Information on	toxicological affects
<b>Acute Toxicity</b>	
LD/LC50 value	es relevant for classification
No data.	
Primary irritar	ıt effect
On the skin	
No data.	
On the eyes	
No data.	
Inhaled	
No data.	
Sensitization:	No data.

### Section 12 - Ecological Information

Ingredient	Persistence:Water/Soil	Persistence: Air	
Bioaccumulation	Mobility		
C6H1004	LOW		
LOW	LOW	LOW	
C4H7NO Data available	No Data available No Data available	No Data available No	)

C4H1002	No Data available
Data available	No Data available

#### Section 13 - Disposal Considerations

Legislation addressing waste disposal requirements may differ by country, state and/ or territory. Each

user must refer to laws operating in their area. In some areas, certain wastes must be tracked. A Hierarchy of Controls seems to be common - the user should investigate:

- Reduction
- Reuse
- Recycling
- Disposal (if all else fails)

This material may be recycled if unused, or if it has not been contaminated so as to make it unsuitable for its intended use.

Section 14 - Transport Information Labels Required Marine Pollutant: NO NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS: ADR, IATA, IMDG,ADN

Section 15 - Regulatory Information REGULATIONS

The product needs to follow local regulations.

Section 15 - Regulatory Information REGULATIONS

The product needs to follow local regulations.

#### **Section 16 - Other Information**

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.
