

App Installation Guide R650 Ultra

Control with the "Coredy Robot" app

1. Download Coredy App

Scan the QR code as below to download the latest version of App, or download from App Store (iOS devices) or Google Play (Android devices).

2. Before you start, make sure that:

- Your smartphone or tablet is connected to a 2.4G Wi-Fi network (Only supports 2.4G network).
- Your smartphone or tablet is running iOS 11.0 (or later) or Android 5.0 (or later).
- The Function Buttons \bigcirc + \bigcirc status indicator on the device is rapidly flashing blue.
- Robot is attached to the Charging Dock to ensure it has enough power during setup.

3. Network Configuration

Create a User Account

1) Open the Coredy Robot app to create a user account. 2) Click "Agree".

3) Click "Sign Up" to create your Coredy account.

4) Enter the verification code.

5) Set your password and click "Done".

Add Device

1) Click "Add Device" or tap "+" in the upper right corner.

2) Add your Coredy R650 Ultra to your Coredy account.

Wi-Fi Connection

3) Select the network you want the robot to use. You need to select an exact Wi-Fi as you use as usual. Enter your Wi-Fi password, and click "Next".
