FW600 Software upgrade steps

NEEWER®

1 1. Firstly, Prepare a USB disk and OTG adapter cable (the U-disk format must be "FAT32").

2 Connect the USB disk to the computer. Store these two softwares: (BSYS6PV.bin)(BSYS6PF.bin) in the root directory of the U disk. Make sure two softwares are (BSYS6PV.bin)snd (BSYS6PF.bin), as shown in the figure below.
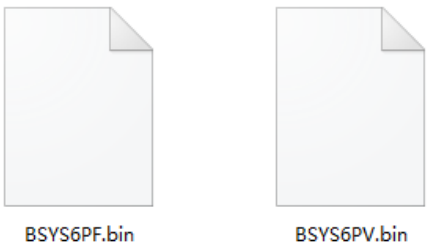

BSYS6PF.bin   BSYS6PV.bin

3 Power on the FW600, and then plug the U disk in.

⚠ Never power off or unplug the USB flash disk during the upgrade process. Otherwise, it won't work.

4 Upgrade steps:

1 Select system settings   **2** Select upgrade

3 Click OK and wait until the processing bar has finished loading, and then power off and restart.

After the upgrade is completed, please reboot the FW600, select: system settings → system status, and "S6P1.8 200619" is displayed at the lower right corner to indicate that the upgrade is successful.

FW600软件升级步骤

NEEWER®

1 准备一个U盘和OTG转接线（U盘格式一定要是"FAT32"）。

2 将U盘接入电脑，然后把《BSYS6PV.bin》和《BSYS6PF.bin》两个软件复制（拷贝）在U盘目录里。

BSYS6PF.bin   BSYS6PV.bin

3 将NEEWER《FW600》开机后再插上U盘。

⚠ 升级过程请勿断电或拔出U盘，否则开不了机。

4 升级系统步骤

1 选择系统设置   **2** 选择升级   **3** 点击确定

升级完成重新开机后，选择系统设置→系统状态，右下角显示S6P1.8 200619为升级成功。
