US Patent Pending

# Bloom On.

**Everbloom is an innovative and contemporary style garden bed system with eco-friendly material for sustainable urban gardening and farming.**

The galvanized steel brackets are powder-coated to provide strength for indoor and outdoor conditions. The composite boards are made of genuine wood and plastic powder, lasting for up to 10 years in outdoor systems. The elegant black and brown / grey color is fitting to all types of gardening projects.

Assembly is quick and easy with our Groove Lock structure; No complex tools required. A rubber mallet is the only added tool you may need to construct an EverBloom bed.

Thanks to our joiner and board designs, Everbloom raised garden bed systems can be extended to virtually any length and size. Additionally, we have created add-on utility trellis kits and swivel caster wheels for ultimate versatility. Everbloom offers the most durable and adaptable garden bed system on the market, while presenting an elegant choice of contemporary style for premium garden lovers.

- Easy Assembly in 15 Minutes to Last 10 Years!
- Fully Customizable and Versatile!

# Raised Garden Beds

Built in 10 minutes, lasts for 10 years!

Providing extra height and visual interest, our premium quality garden beds are perfect for growing vegetables, flowers and herbs. The composite wood plastic boards and heavy-duty steel post brackets ensure a strong and durable structure that can last in outdoor conditions for up to a decade.

## Essential Raised Garden Bed

The 7" height suits most kitchen vegetables as well as small to mid sized flowers. Ideal for urban gardening in backyard and patio settings, as well as a sandbox.

Model #	R073638
Dimensions	36" L x 38" W x 7" H
Load Capacity	Approximately 4.8 cu. ft of soil

## Deep-Root Raised Garden Bed

For plants with deeper roots, the 14" height is also more convenient, making it ideal for urban gardening in the backyard or patio.

Model #	R143638
Dimensions	36" L x 38" W x 14" H
Load Capacity	Approximately 9.6 cu. ft of soil

## Terraced Raised Garden Bed

Ideal for displaying a combination of plants with different root depths, it can also be set upside-down to accommodate sloped terrain.

Model #	R0714D36
Dimensions	74" L x 36" W x 7" H & 14" H
Load Capacity	Approximately 15 cu. ft of soil

## Wallside Raised Garden Bed

Designed for gardening along walls or decks, it can also act as an area border for the rest of your garden. Ideal for deeply rooted shrubs, vines and vegetables.

Model #	R144524
Dimensions	45" L x 24" W x 14" H
Load Capacity	Approximately 7 cu. ft of soil

# Raised Garden Bed Extension

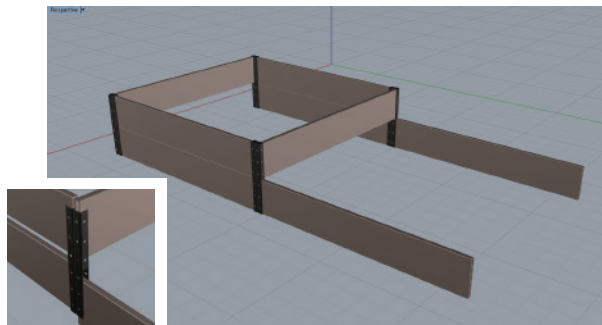

Unlimited possibilities for a premium garden bed!

Our unique connecting bracket and modular design allows gardeners to expand and extend any of our raised garden beds to create the garden of your dreams. Each kit creates a terraced double bed extension with fewer boards, yet retains all the necessary strength and stability. Add more kits for the beautiful, durable premium garden bed system you've always wanted... with only a rubber mallet needed for assembly.

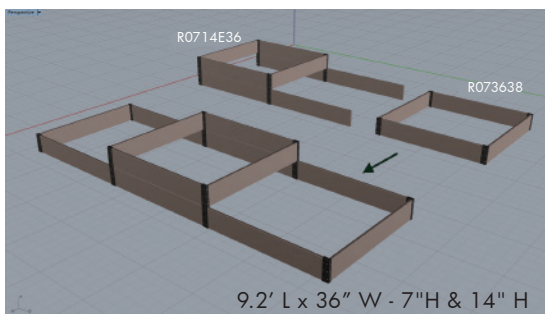

## Terraced Double Bed Extension

This extension can be used with all our raised garden beds, and in unlimited sets to create any length to your satisfaction. And the terraced Hi-Lo beds will meet all gardeners dream of planting different rooted veggies and flowers. After all, no tool is needed in the whole assembling process.

Model #	R0714E36
Dimensions	74" L x 36" W x 7" & 14" H
For Used With	R073638 / R143638 / R0714D36

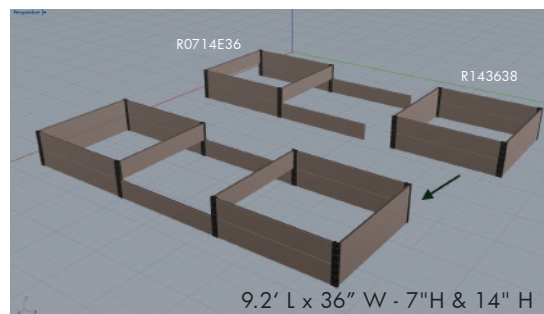

### Combination 1 Model#: R0714E36 + R073638

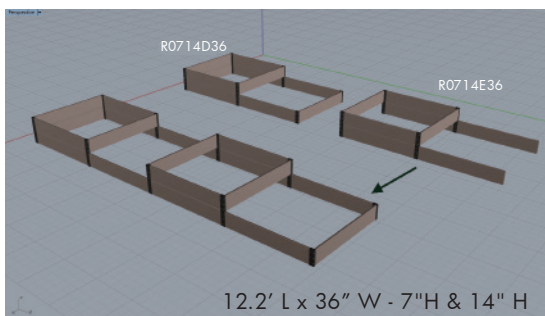

Connect the extension kit with the Essential Bed for a Lo-Hi-Lo terraced triple bed. Add more extension kits for additional length.

### Combination 2 Model#: R0714E36 + R143638

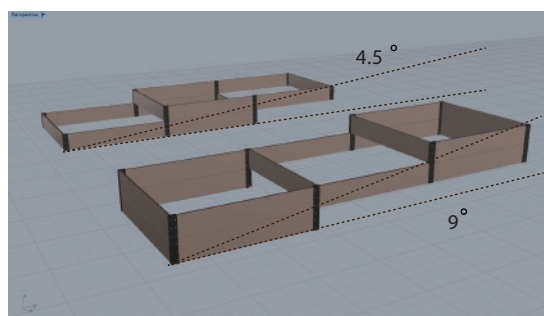

Connect the extension kit with the Deep Root Bed for a Hi-Lo-Hi terraced triple bed. Add more extension kits for additional length.

### Combination 3 Model#: R0714E36 + R0714D36

Connect the extension kit with the Terraced Double Bed for a Hi-Lo-Hi-Lo quadruple bed. Add more extension kits for additional length.

### Combination 4 - build on a slope

Connect the extension kit with the Essential Bed or Deep Root Bed to accommodate ground from 4.5° to 9° of slope.

# Elevated Garden Beds

More comfortable gardening, anywhere!

Back and knee pain is gone for good! Premium quality elevated garden beds are perfect for growing vegetables, flowers and herbs. The composite veneer boards and heavy-duty steel brackets ensure a strong and durable frame that can last up to 10 years. Two colors are available for this series.

## Urban Mobile Garden

Perfect for vegetables, flowers and herbs, our Urban Mobile Garden with bottom boards included makes gardening comfortable and easy, almost anywhere. No bending over or kneeling necessary, indoors or out.

Model #	E334519W / E334519WG
Dimensions	45" L x 19" W x 36" H
Load Capacity	Approximately 4.5 cu. ft of soil
2" Caster Wheels	Included

## Deckside Planter Box

This planter box is ideal on decks, porches, balconies... anywhere you want to garden. Add a Trellis Kit for climbing plants. Even sturdy enough to convert to an outdoor bench when preferred.

Model #	E144519 / E144519G
Dimensions	45" L x 19" W x 14" H
Load Capacity	Approximately 4.5 cu. ft of soil
Can be used with 2" Caster Wheels	Not Included

## Elevated Planter Box

Perfect for the corner of any deck, porch, balcony or indoor/outdoor space, it can also be converted to a corner table when not used as a planter.

Model #	E281719 / E281719G
Dimensions	19" L x 17" W x 28" H
Load Capacity	Approximately 2.5 cu. ft of soil
Can be used with 2" Caster Wheels	Not Included

## Planter Box Cornerstone

For growing larger plants, vines, shrubs and small trees, it provides a deeper soil bed to support root systems. Easy to move with optional 2" Caster Wheels, while bottom boards keep floors clean. An ideal decoration for entrances, deck sides or corners.

Model #	E211719 / E211719G
Dimensions	19" L x 17" W x 21" H
Load Capacity	Approximately 3.5 cu. ft of soil
Can be used with 2" Caster Wheels	Not Included

# Elevated Trough Planter

Decorate every corner of your home!

This series of trough planter is designed for gardening flowers, veggies and herbs in a narrow area. Its sleek 3'x1' size and clean bottom make for the perfectly versatile indoor and outdoor planter. An elegant decoration that allows practical flexibilities for today's gardener. Also ideal for using as a space divider, with multi sets of different heights set inline. Caster wheels can be assembled for additional mobility. Two colors are available for this series.

## Trough Planter

Sufficient planting depth for almost all plants. Also ideal for using as a space divider, with other of our trough planters and deep trough planters.

Model #	E143612 / E43612G
Dimensions	36" L x 12" W x 14" H
Load Capacity	Approximately 3 cu. ft of soil
Can be used with 2" Caster Wheels	Not Included

## Deep Trough Planter

This deep trough bed allows for adjustable planting depths from 7-1/2" to 16-1/2". An elegant decoration that is also allows practical flexibilities for today's gardener.

Model #	E213612 / E213612G
Dimensions	36" L x 12" W x 21" H
Load Capacity	Approximately 4 cu. ft of soil
Can be used with 2" Caster Wheels	Not Included

## Elevated Trough Planter

Elevated height reduces the fatigue when taking care of the plants, while also stands elegantly to present its full charm. Also a great room divider in combination with other trough planters.

Model #	E283612 / E283612G
Dimensions	19" L x 17" W x 21" H
Load Capacity	Approximately 3 cu. ft of soil
Can be used with 2" Caster Wheels	Not Included

## Accessories

Mix and match for versatility!

Premium quality accessories provide extra functions to your garden beds and planter boxes. The heavy-duty steel brackets and galvanized and powder coated steel ensure a strong and durable frame that can last more than 5 years.

### 2 in. Swivel Caster Wheels 4 pack

This set of 4 caster wheels makes your EverBloom elevated garden bed mobile and easy to maneuver around your space. High quality PU wheels move quietly and sturdily, while protecting your hard flooring from scratching.
