- Go to TreatLife> ✎ >More for instructions to link Alexa/Google Assistant.

Note: Please log in with your TreatLife account.

Key Steps to Link the Alexa Skill

- Click the Alexa icon, sign in to your Amazon account, and open the "Alexa Skills" link from the "Echo & Alexa"menu.
- Search for the "Smart Life", and tap "Enable".
- Enter your "TreatLife" APP Account and Password, then tap "Link Now" to enable the Skill.

APP Setting

Resume Power State:
- Configure the device to resume its last power state (on or off) when power is restored to the device.

Troubleshooting

Can't connect to the APP.
- Make sure the red indicator light is blinking when you are attempting to connect to APP. Default Mode Paring: Red Indicator light Blinking Rapidly.
- If your router is 2.4Ghz & 5Ghz dual–band, the 2.4Ghz band may not be turned on. Please
- configure the router settings to turn on the 2.4Ghz band.
  Make sure you entered the correct Wi–Fi password.

Can't connect to the Alexa/Google assistant.
- Check whether the Alexa / Google Assistant APP is correctly configured with the TreatLife APP account.
- Check whether the device name is duplicated.
- The device name of TreatLife APP must be the same as the device name in Alexa / Google APP.
- Please refer to the manual instruction or "Me––FAQ & Feedback––All–Third–party control issues" in the APP to reconnect to the Alexa / Google Assistant.

Plug stops working after previously working
- Remove the plug from the outlet and reinsert it. Also, try moving the plug to a different outlet that is closer to your wireless router.
- If the plug still doesn't work, please contact our support team.

The timing function does not work properly.
- Check whether the device is offline.The device can't perform the timing function when offline.
- Remove the plug from the APP, then reset the plug and re–pair with the APP.
- Check whether there are any conflicts in the settings such as Schedule/ Countdown / Circulate / Random / Inching.
- You can also check "Me–> FAQ & Feedback" information in the APP.

FCC Caution:
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions： (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful

interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures：

–Reorient or relocate the receiving antenna.
–Increase the separation between the equipment and receiver. –Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
