

OUTLAND MODELS

Assembly instructions for:

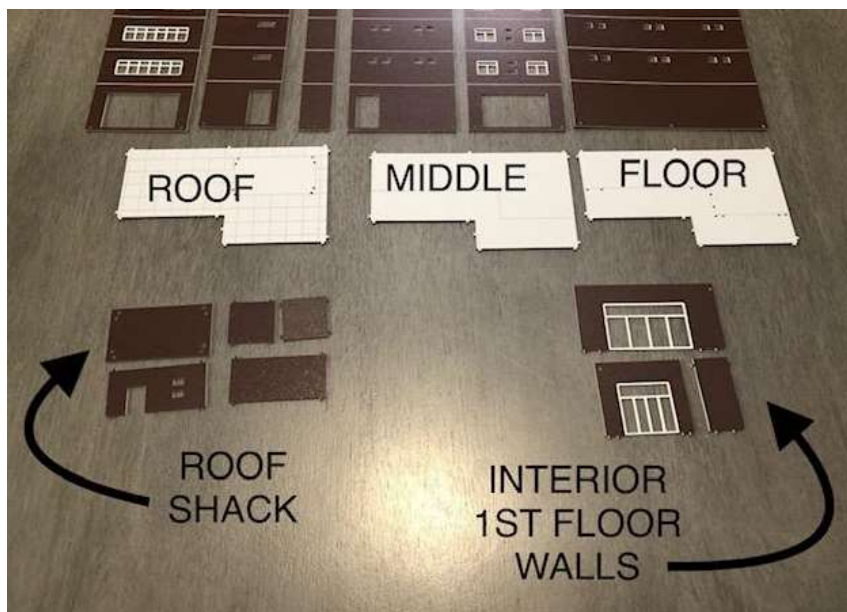

Modern Tall Business Building Office HO OO Scale Outland Models Train Railway

17 pieces

**** Please note, there are several different optional assemblies of this particular model. Please read instructions thoroughly prior to starting assembly to determine which option you would like to choose. ****

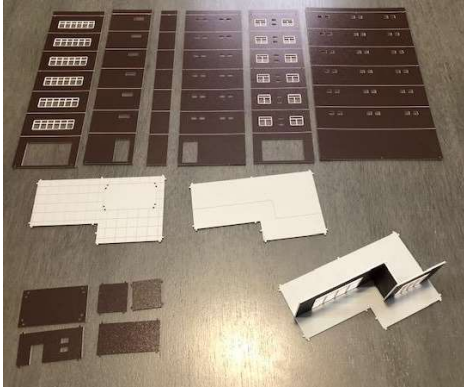

- 1. For this instruction we will focus on building the model as pictured above with the the three interior walls on the ground floor, and the shack on the roof. You may choose to swap the two if you would like. Refer back to picture for parts identification.**

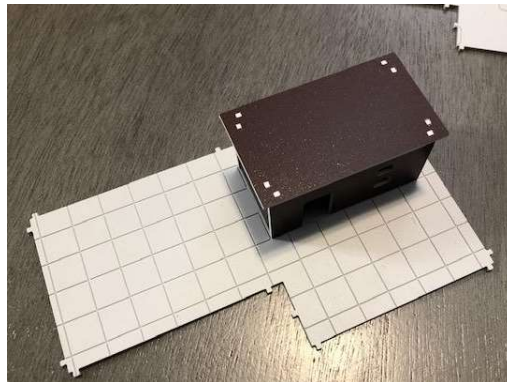

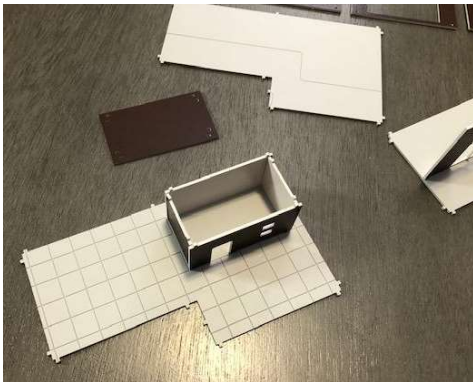

OUTLAND MODELS

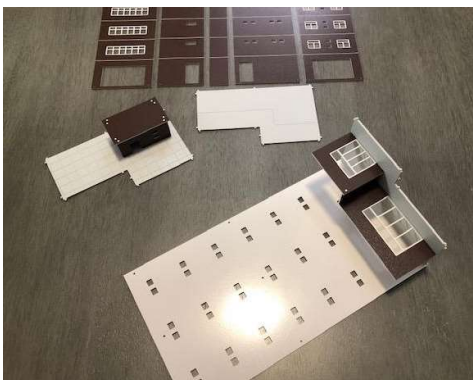

2. Start by clicking the interior walls to the floor panel.

3. Next, we will assemble the roof shack and set aside for later. Ensure grid lines are face up, snap the walls into the larger roof panel. Now snap the smaller roof panel onto the walls.

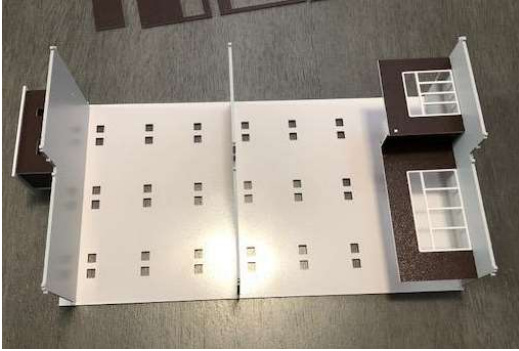

4. Now snap the ground floor sub assembly into the bottom of the largest wall panel.

OUTLAND MODELS

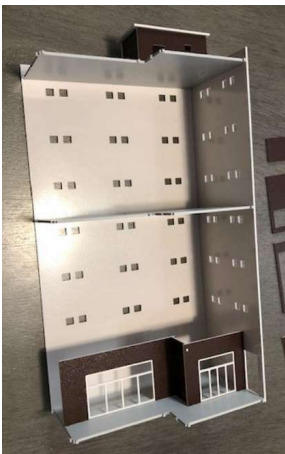

5. Next, snap the center support floor, and roof sub assembly into the same wall we just snapped the ground floor onto.

6. If you have chosen the alternate assembly method, you would complete the opposite of step 5 by swapping the top and bottom floors as shown below.

7. Now snap the wall with two columns of windows and one door to the right side of the building.

OUTLAND MODELS

8. Next snap the thinnest wall without windows to the middle section.

9. Now snap the wall with one column of windows and one door to the left side of the building.

OUTLAND MODELS

10. ****Note - optional assembly**** The two front panels are the same in respect to size and mounting holes. You may choose to swap the front two panels left for right depending on the look you would prefer for your building. Once you decide, snap both front panels into place.

11. **Congratulations, your new model is complete! Please remember to check out all of our latest products on our website outlandmodels.com**
