SAFETY WARNINGS

Please be sure to observe the following warnings, as batteries contain flammable substances which may cause heating, rupture or ignition.
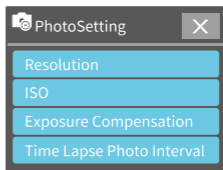

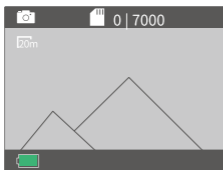

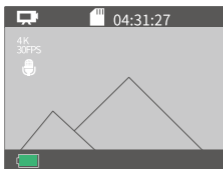

* Keep batteries out of reach of small children.
* DO NOT dispose of the action camera or the battery in fire.
* DO NOT use or charge a battery if it shows any sign of swelling, pierced, or damaged. Misuse or mischarge may lead to smoke or even explosion.
* DO NOT expose the battery to any heat source, direct sunlight or high temperature.
* Please don't leave battery pack and charger on the wood material or carpet and unattended.
* Make sure the charging voltage should not exceed 5V and the charging current should not exceed 1A.
* Only use the ORIGINAL power adapter provided to charge the battery.
* Remove the battery from the charger once charging is completed.
* Charge & store the battery in an open and dry area away from furniture or anything flammable.
* The Li-ion battery in the action camera should be serviced or recycled by an authorized service provider, and must be recycled or disposed of separately from household waste.
* Dispose of the battery according to your local environmental laws and regulations.
