Your Trusted Partner

01

Who We Are

SolarParts at a Glance

The world's leading provider
off-grid PV system solutions;

- ☀️ Founded in 2011
- ☀️ 2 locations: China and BELGIUM
- ☀️ 150+ employees
- ☀️ Strong R&D team: 30+ staff

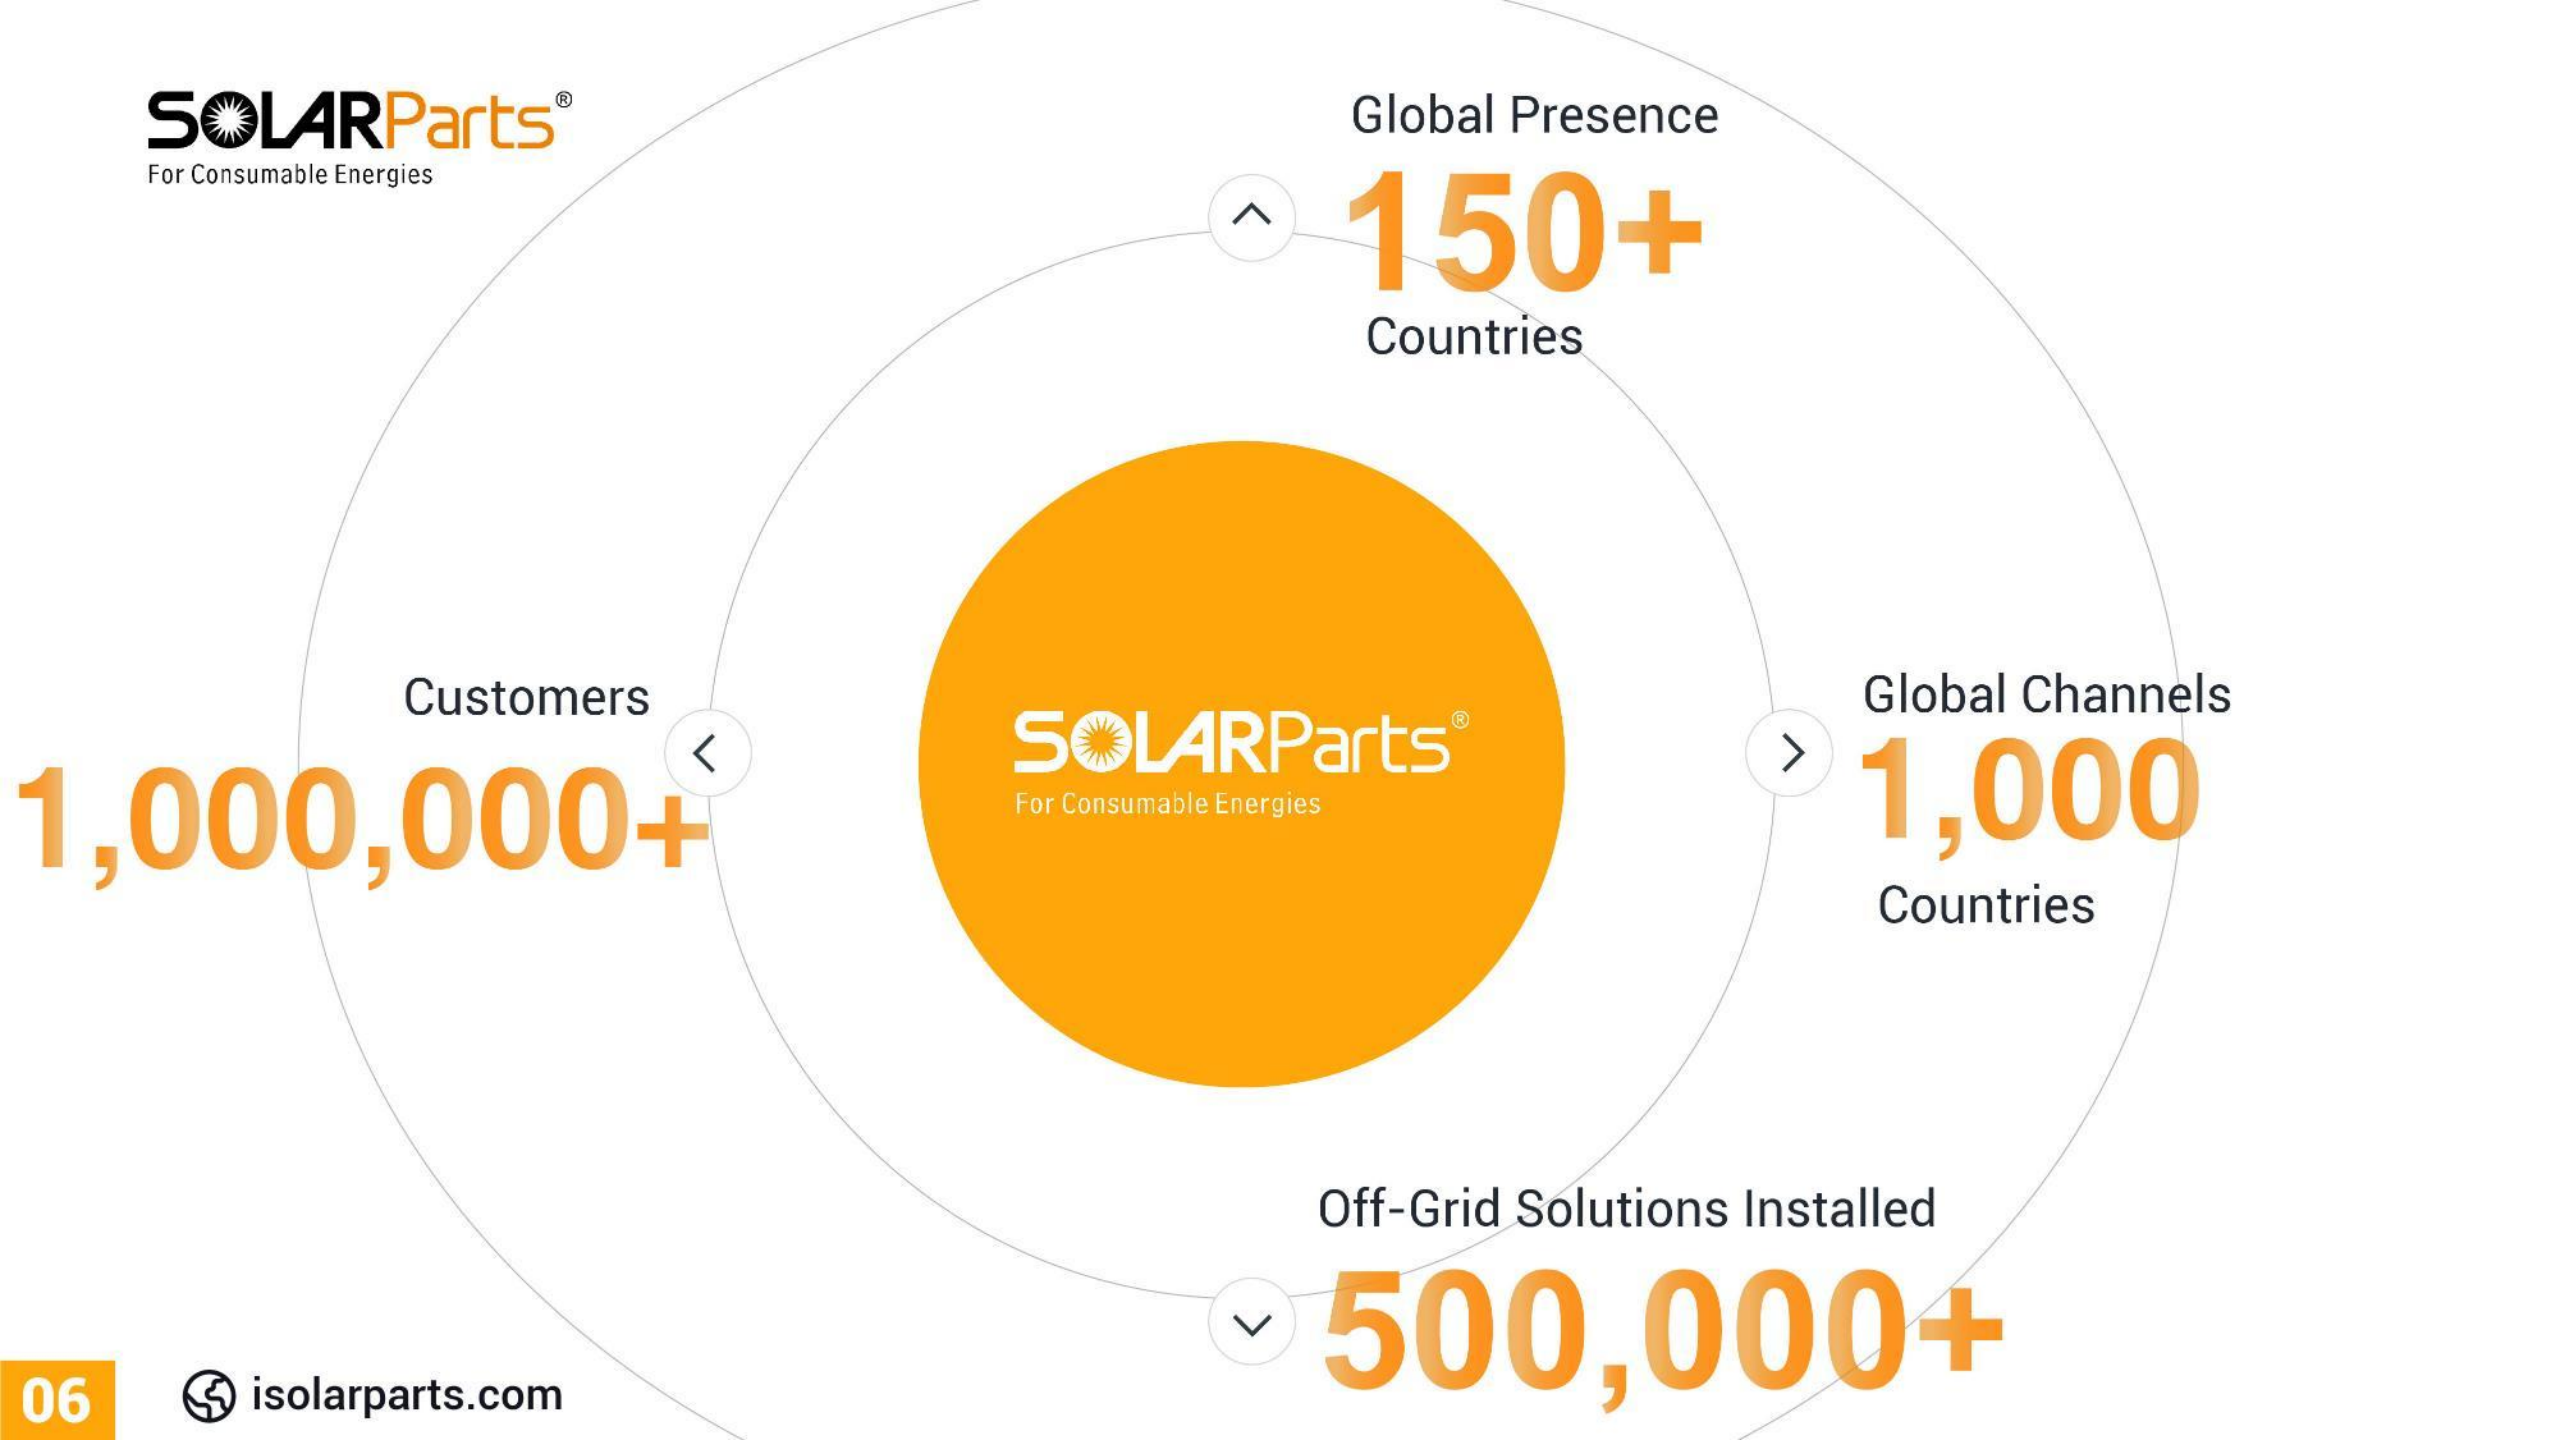

Dedicated to the

**PHOTOVOLTAIC
Industry**

Our Mission

Absorbing Sunshine Focusing Energy returning
the earth to a clean place

Global Presence

150+

Countries

Global Channels

1,000

Countries

Off-Grid Solutions Installed

500,000+

Customers

1,000,000+

SOLARParts[®]
For Consumable Energies

Solarparts Recognition

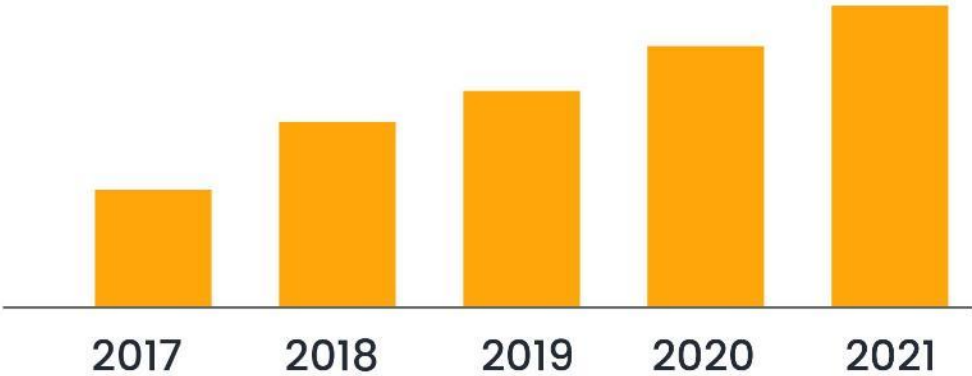

Awards high-tech enterprise.

Products and Industry Certification

Global Off-Grid PV System Solution Leader & Innovator

Our revenue keeps growing at an average of over 30% annual growth rate.

Multiple growth engines: the best off-grid PV solutions, emerging workplace scheduling solutions, proven products and services, high-performing elite team

TOP 3
China
Consumable Solar
Panels Provider

02

What We Do

SolarParts at a Glance

Solarparts produce and delivers PV and Solar products and services for department, RV, Marine, house, outdoor, electronic industries worldwide.

- (3) Keruft_Mini E Series

Balcony Solar Systems

150W~900W

95% light transmittance
Over 23% conversionrate
Light-weight
Long durability

✓ Customizable

What is a balcony power plant?

A balcony power plant is a photovoltaic module for the production of your own electricity. Equipped with a Schuko plug and micro-inverter, you simply connect the balcony power plant to your socket and generate your own electricity.

150W~900W

*1/2 lighter than tradition-
all glass solar panels
Three-dimensional
design can be applied to
eapplied to various sce-
narios*

✓ Customizable

Is it easy to install?

The system is very easy to install. No need to call a professional. Simply connect the solar panels in series and parallel to the micro-inverter. Then connect it to your home outlet and you're ready to go. Plug and Play!

150W~900W

Foldable design

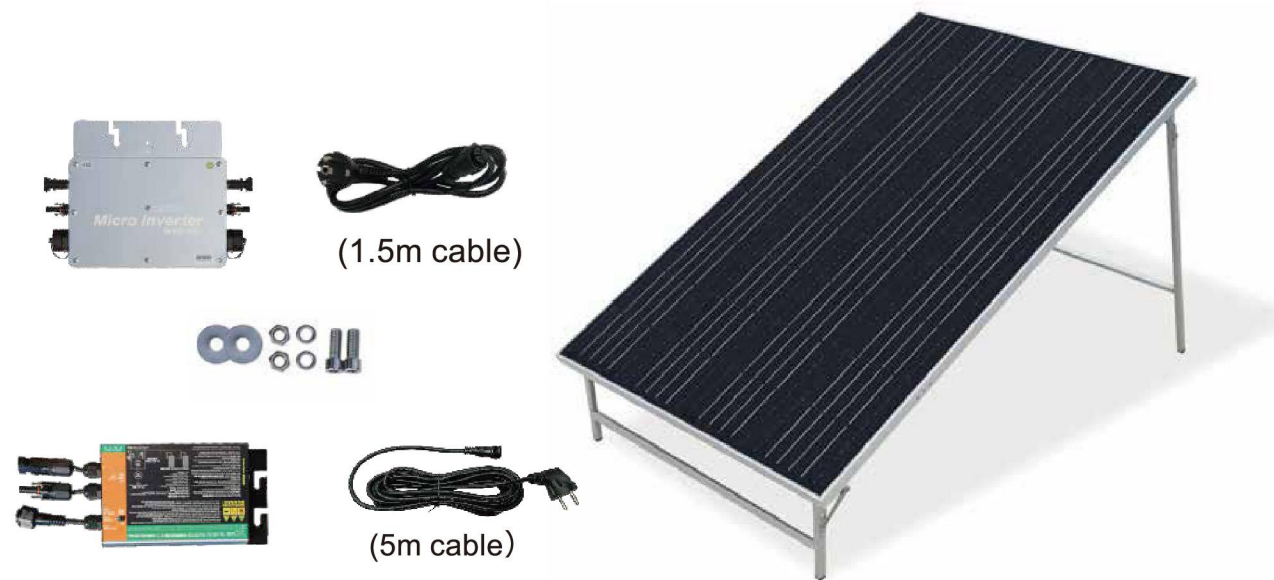

Easy to carry

Three-dimensional design can be applied to various scenarios

✓ Customizable

Foldable balcony micro grid-connected system

Is it easy to install?

The system is very easy to install. No need to call a professional. Simply connect the solar panels in series and parallel to the micro-inverter. Then connect it to your home outlet and you're ready to go. Plug and Play!

Off-Gird PV Systems

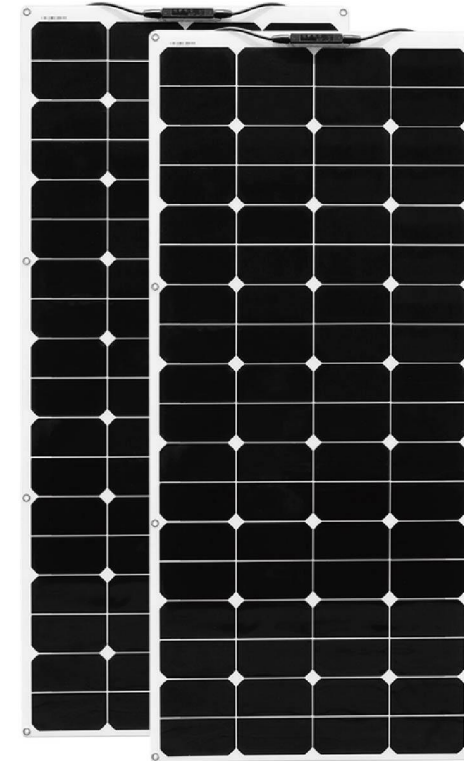

Boguang@_F Series

High photoelectric conversion efficiency

Good bend ability, Well waterproof

Light-weight & Easy to clean

✓ Customizable

Flexible solar panel

Boguang@_F Series solar panel is a kind of new and creative solar panel in the solar industry. It uses high-efficiency Monocrystalline solar cells that offer higher efficiency up to 21% or more than traditional solar in sunny weather conditions. This bendable solar panel is thin and light weight, easy to transport and remove.

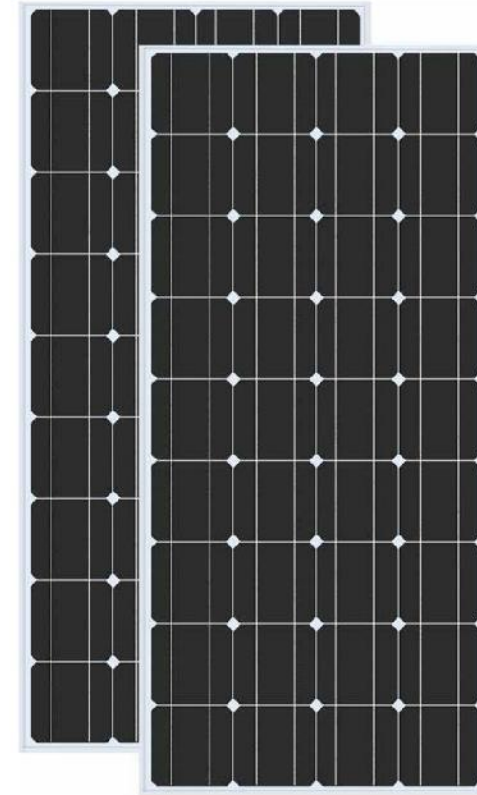

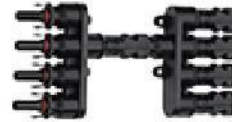

Boguang@_R Series

High photoelectric conversion efficiency

Easy to clean

80% lighter than glass solar panels

✓ Customizable

Boguang@_Rigid Series

Boguang@_Rigid Series solar panel is a kind of new and creative solar panel in the solar industry. It uses high-efficiency Monocrystalline solar cells that offer higher efficiency up to 21% or more than traditional solar in sunny weather conditions. This bendable solar panel is thin and lightweight, easy to transport and remove.

Lixin@Off-Grid Home Solar Systems

*High photoelectric conversion
efficiency.*

*Ideal to lighten a home even in a
far off location.*

Light-weight & Easy to Clean

✓ Customizable

What is an off-grid photovoltaic power generation system?

Solar panels can convert light energy into electricity, which can effectively deal with the difficult problems caused by power shortages and power outages. Off-grid photovoltaic power generation systems are widely used in remote mountainous areas, power-free areas, islands, communication base stations and street lamps.

Solar and Wind Hybrid Generation Systems

Solar power generation has the function of environmental protection, no noise and no vibration.

It is a kind of sustainable energy

✓ Customizable

Solar Panel Wind Turbine Kit

The system is a composite renewable energy power generation system integrating wind energy, solar energy, battery and other energy powergeneration technologies and system intelligent control technology.

Photovoltaic solar heating system

Simple DIY installation; for in ground or above ground pools
Installs on roof, rack, ground or fence
Patented web design for maximum exposure to sun's rays

✓ Customizable

Solar Water Heater Control System

Once installed, these panels are cost effective, produce no greenhouse gases, and need low to no maintenance.

Off-grid solar system in RV,
Yacht and Refrigerated
Vehicles

*Clean energy and reduce carbon
emissions*

*Make rational use of the roof
space*

✔ Customizable

Grid-Connected EPC System

Off-grid solar system in RV,
Yacht and Refrigerated
Vehicles

Photovoltaic power generation project is a green energy project. Its principle is to convert solar energy into electric energy and then transmit it to thousands of house holds through the grid

✓ Customizable

Scheme design

Provide the most professional distributed grid connected power generation solution combining different sites and business types of the project and ensure the effective implementation of the design scheme through the professional process control system

Rigid Solar Panel

Solarparts@_Rigid Series

Enhanced stiffness and impact resistance Compatible with different mounting systems such as Z-brackets Pole Mounts and Tilt Mounts.

✔ Customizable

Xinpuguang@_Rigid Series

Monocrystalline modules are the perfect addition to any off-grid application. Easy to install with pre-drilled holes on the back of panel for fast mounting and securing.

✔ Customizable

SolarParts

Xinpuguang

Flexible Solar Panel

Solarparts@_Flexible Series

*High light transmittance
High charging efficiency
Good weather-resistant*

✔ Customizable

Xinpuguang@_Flexible Series

solar cells that offer higher efficiency up to 21% or more than traditional solar in sunny weather conditions. This bendable solar panel is thin and lightweight, easy to transport and remove.

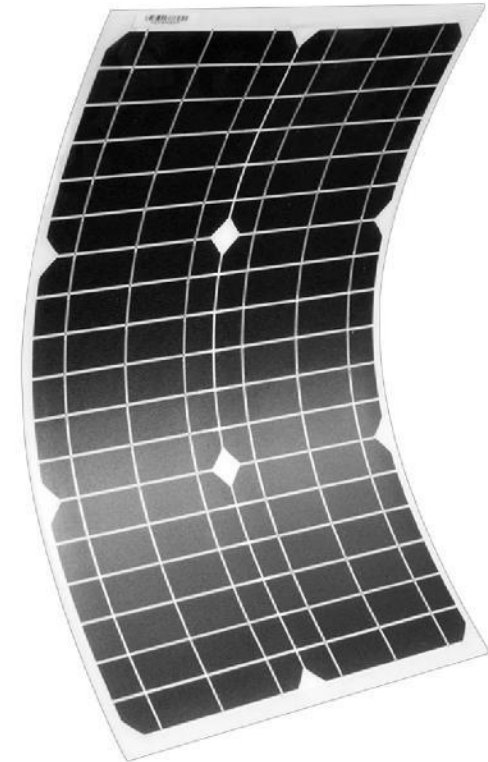

✔ Customizable

SolarParts

Xinpuguang

Solarparts@_Sandwich series

High-efficiency High-efficiency monocrystalline silicon, using A-grade PERC 6BB monocrystalline silicon cells. Conversion rate up to 23%.

✓ Customizable

Durable glass fiber board on the back. It is thinner and easier to carry. It can be fixed by adhesive, grommets, zip ties, or velcro.

Portable Solar Panel

Roicht@_IN Series

Reliability, high quality, energy-saving, and environmental protection.

✔ Customizable

Roicht@_BA Series

*Easy to unfold and portable Good
Waterproof & Durable.
High - Efficiency & Stabilizing.*

✔ Customizable

Roicht@_CA Series

*Compatibility and wide availability.
Good weather-resistant
High Conversion
Efficiency.*

✔ Customizable

Roicht@_GL Series

*Durable & Waterproof
-High-transparency
low-iron tempered glass
-Corrosion-resistant
aluminum frame
Good weather-resistant*

✔ Customizable

OEM&ODM Solar Panel

Keruft_Mini G Series

Well waterproof
Corrosion resistant
High output

✓ Customizable

Keruft_Mini P Series

Top-grade material
Quality warranty
Easy application

✓ Customizable

Keruft_Mini E Series

Well waterproof
Corrosion resistant
High output

✓ Customizable

Why SolarParts

Your Trust Partner

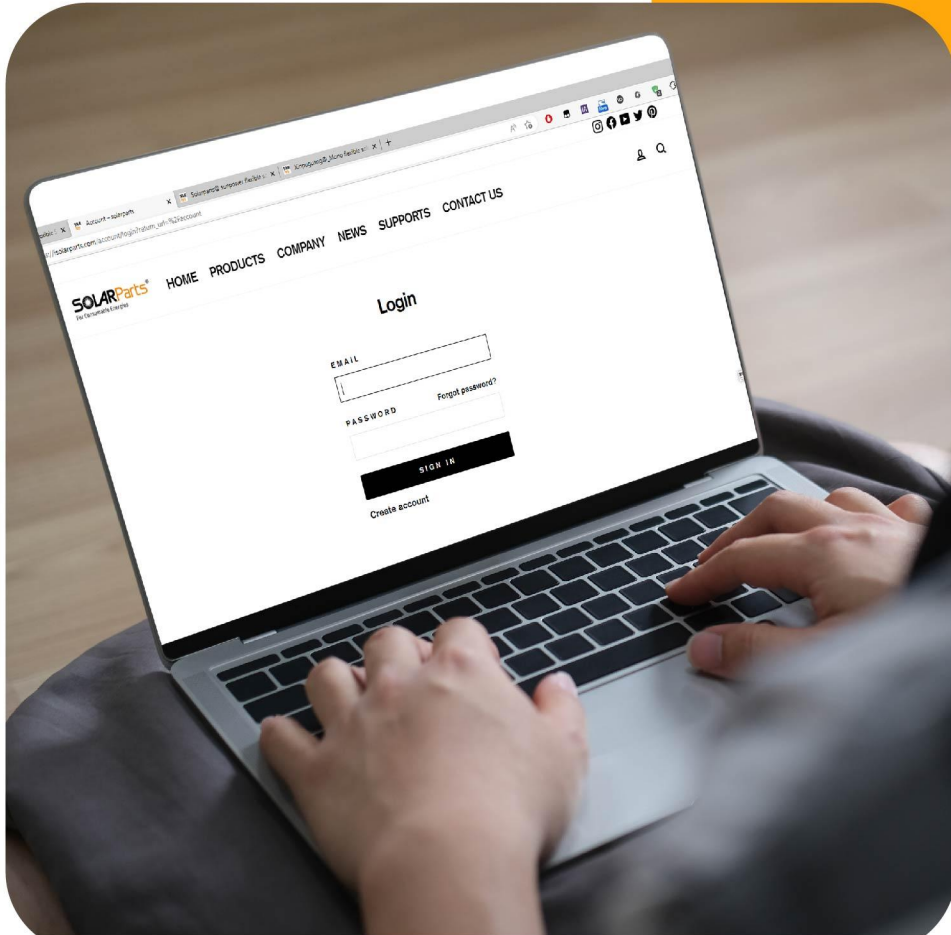

SolarParts Accelerate Partner Program

As a SolarParts Partner, you will be able to create new opportunities, get sales enablement, and maximize your profitability.

- ☀ SolarParts Accelerate Partner Program
- ☀ Access to the SolarParts Partners portal for exclusive
- ☀ Expert training on products and sales pitches for free
- ☀ Partner-ready sales and marketing materials
- ☀ Direct free technical support from SolarParts
- ☀ Dedicated Market Account Manager
- ☀ Overseas warehouse support in European and American markets
- ☀ Highly competitive margin and a recurring revenue model

Service for You

Marketing Support

SolarParts provides certified partners with exclusive partner resources for marketing, sales and training.

- 01 Provide assistance in delivery of marketing plan
- 02 Access to SolarParts marketing materials, press release template, email templates, brochures and ebooks to kick off the conversions
- 03 Gain great visibility in market with dedicated MDF support
- 04 Fast to promote your business and increase your bottom line

Our Sales Support

More Profits.

Highly-competitive margin to maximize your profitability

More Efficient

Sales incentive programs to boost your growth

More Professional

Exclusive sales engineering and sales support

Better Service

Project planning, project development, solutions building for your success
