

RING SHAPE REPAIR PROFECT MATRICE

Patented product

- Easy to fix
- Dry isolation
- Adjustable wrist strap

PATENTED PRODUCT

Matrix-Profecto wristband can grasp and be fixed on the teeth in limited support, and makes excellent sealing effect on the neck position of the teeth. This helps keep the pharmacy clean and dry. These disposable pre-set wristbands are excellent choice for challenging repair situations.

Easy repair, one step faster MAKE REPAIR EASIER AND RELAXED

Our disposable forming system can simplify the repair process by increasing operable space and visibility that through easier placement. It can greatly increase repair speed, and the smooth edges and small design make patients more comfortable. The size of the ring shape can be adjusted by the stainless steel ring band, which is easier to place and fits better with the teeth, adapts to different tooth shapes, and suitable for all second-class hole repairs. Make repair easier.

Engineering curve fits operating inertia
One-handed fixation improves efficiency

The tapered neck makes them easier to place, and provide better visibility and reduce congestion.

Pre-contoured belt, in close contact with pre-contoured belt, the sliding belt deflector can form a belt angle, Make the teeth fit more closely.

Smooth edges can improve patient's comfort, and single use can prevent cross-infection.

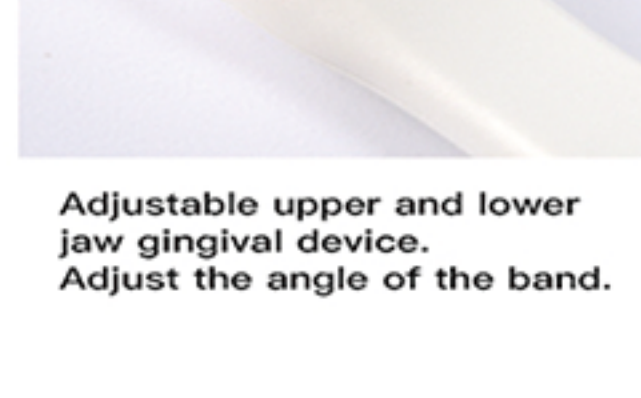

It is flexible enough to obtain good contact points (even for composite restorations) and is particularly useful when the section cannot be used (such as large gaps between teeth, adjacent teeth missing, pump alloy restorations, etc.).

RECOMMENDED METHOD OF USE

Tighten to the right and become smaller, Left twist and becomes larger.

Adjustable upper and lower jaw gingival device. Adjust the angle of the band.

Two teeth can be repaired at a time, Wedges can be used to assist fixing and forming.

DOCTORS USING CASES

(Thanks to Dr Yang Dr QIU Dr Zhang)

Case 1

1. Caries removal

2. Exposed edge

3. 3.6.0mm Standard Collar band

4. Circling band Recover "false wall"

5. Complete false wall

Case 2

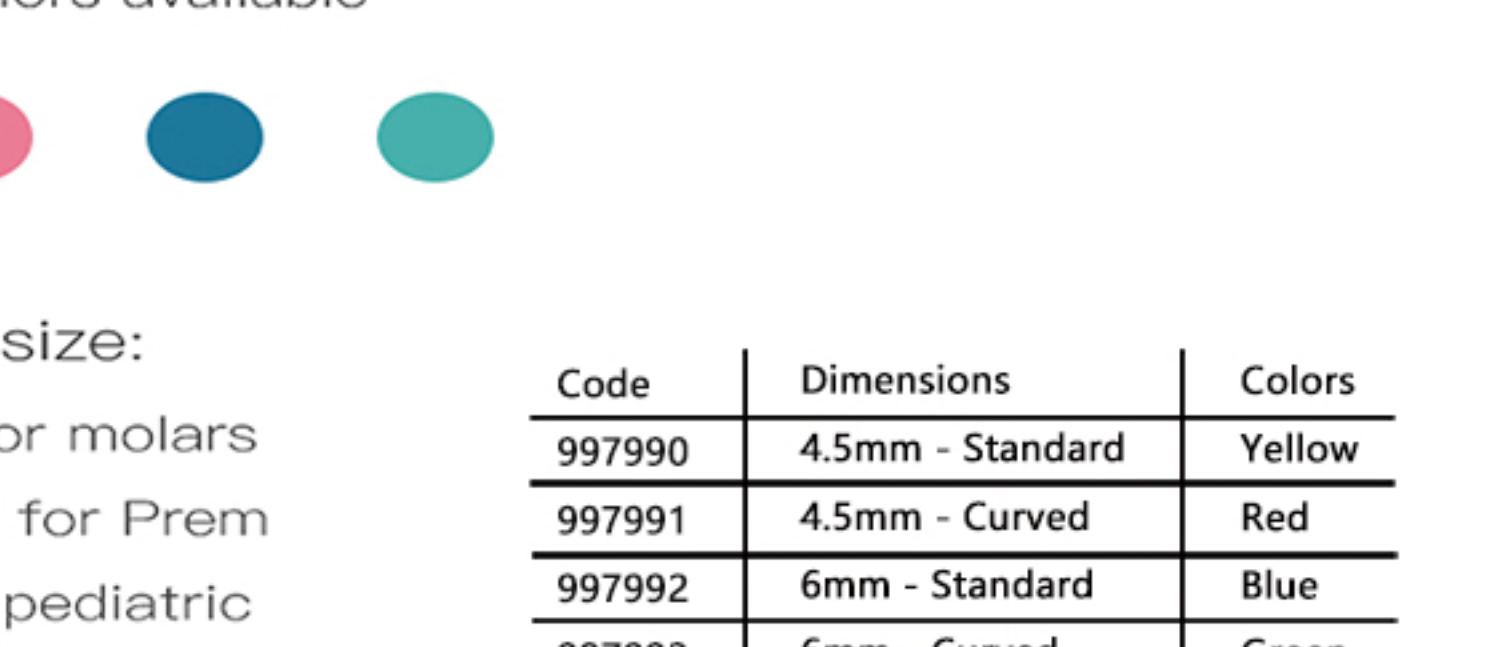

Case 3
