3. Download & Install App：

Download ZUMIMALL App from Google Play™ or App Store™.

Or scan the QR codes as below, with QR code scanner in your smart phone.

NOTE: Google Play™ is a trademark of Google Inc.
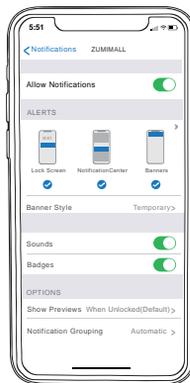

App Store™ is a service mark of Apple Inc.

iOS   ZUMIMALL   Android

＊Tips: Please turn on both of the following permissions.

1. Allow ZUMIMALL to access mobile cellular data and wireless LAN. Otherwise, it will fail to connect the camera.

2. Allow ZUMIMALL to receive pushed messages. Otherwise, the phone will not receive alarms when motion is detected.

ZUMIMALL®

4. Account Registration：

New user needs to sign up 'ZUMIMALL' App with email. Click 'Sign up' to create a New Account and follow the steps to complete registration.

Step 1 — Sign Up

Step 2

Step 3
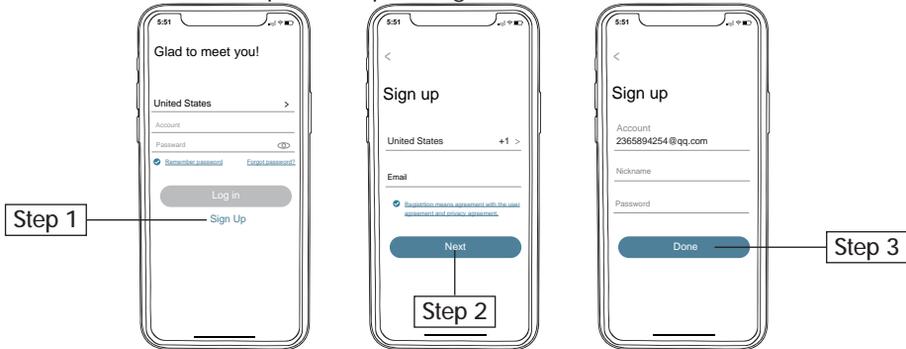

5. Camera Setup：

5.1 Preparations for connection

5.1.1 Insert a Mirco SD Card into the camera to save video clips (Card not included; Up to 128G) or you can start the 7-day free cloud service. Without an SD Card or cloud service, no video will be saved.

5.1.2 Fully charge the camera before first use.

5.1.3 Connect your phone with the same 2.4 G Wi-Fi network you are to connect your camera to. The camera only works with 2.4G Wi-Fi, does not support 5G.

2.4G ONLY

Tap '+' to Add Device

Select 'Battery Camera'
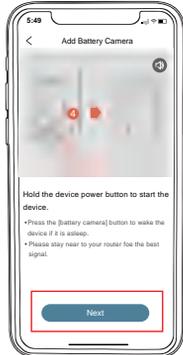

Tap 'Next'

Reset it and Tap 'Next'

Input Wi-Fi Password

Prepare the Scanning

Scan QR Code When Mode Indicator Flashing Slowly in Red

Finished Installation When Reaches 100%

ZUMIMALL®

6. Camera Installation：

6.1 For wooden wall, it's recommended to screw the bracket on.

6.2 For cement or ceramic tile wall, it's recommended to drill holes in the wall and fasten with provided explosion screws; Rotate the button counterclockwise to take off the camera.

6.3 It's suggested to test Wifi signal strength (at least 80-85%) before you choose the place to install the camera to ensure camera functions normally.
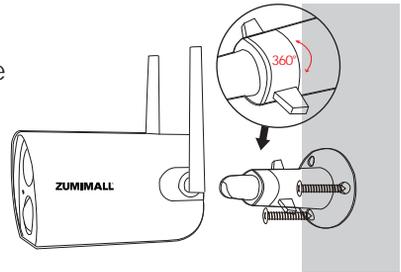

7. Monitoring Area：

Adjust an angle greater than 10 degrees between the camera PIR lens and the moving objects

It's not suggested to make the PIR sensor vertically towards the moving objects

8. Important Notes for Reducing False Alarms:

⚠️ To reduce false alarms, please note that:

• Do not install the camera in a position facing strong lights/mirror/window/swimming pool.
• Do not place the camera too close to any angel with busy traffic.
• Recommended distance between the camera and motion objects is within10M (32ft).
• Stay away from the outlets, including air conditioner vents, humidifier outlets, the heat transfer vents of the projectors, etc.
• Keep the camera at least 1 meter away from any wireless devices to avoid interference, such as microwave stove, Wi-Fi routers and etc.

11. PIR Body Detection：

11.1 Body Detection Alarm Setting

PIR 'Body Detection' is default to be on 'High' level. But it is adjustable.
Please refer to the pictures below.

Tap on '...'

Select 'Alarm Setting'

Set it up

9

Sensitivity	Detecting Distance (For moving and living objects)
Low	Up to 5 meters (16ft)
High	Up to 10 meters (32ft)

*Tips: Higher sensitivity offers longer detection distance and more alarms.

11.2 Alarm Notification
This camera is not designed for7x24 full day recording. It is only triggered when body motion is detected. Here are system's reactions:
11.2.1 Alarm notifications with sounds from App.
11.2.2 Pictures/videos automatically stored in SD Card or Cloud.

11.3 Records/Playback/Delete
11.3.1 On 'MESSAGES' page, click 'Alarm Messages', you can view all the records listed.
11.3.2 Click the following buttons to playback or delete.

Click to Delete History

Click to Playback Alarm Video

Click to Preview the Snapshot

Message--> Alarm Message

ZUMIMALL®

12. Two - Way Audio：

Step 1: Activate the audio option.

Step 2: Press and hold the intercom button to speak.

Step 3: Release the button to listen.

13. Battery Management：

13.1 The camera comes with built-in Large Capacity battery. Assuming the camera wakes up 15 times/day, the battery can last 3-6 months after fully charged.
13.2 Charger Standard: DC 5V 1/2A (not included). Camera will be fully charged after **8-16 hours**.
13.3 When the battery level is less than 20%, the App will send you prompt message to charge in time.

Light in Red:Charging

Light in Blue: 100% Charged

11

14. Multi Device Management：

14.1 Multi Camera Management

Add a Camera

14.2 Multi-User Sharing

Notice: One App account (A) can't login on multiple devices at the same time.

One camera can't be connected to multiple App accounts either.

But camera can be shared form A to B account.

Step 1: Create another new App account (B) and login on another Phone.

Step 2: Click 'share' on the main phone (A account phone)

Step 3: Use A to scan QR code or Input account ID of B.

Step 4: Accept sharing on B account and refresh page to check

Refer to the Video

15. Reset：

Step 1: Keep pressing to remove device

Step 2: Press the reset button for 5-10s until hear the 'Boogu' sound

Step 3: Reconnect as a new camera

16. Storage Methods：

16.1 Micro SD Card
If you choose a Micro SD Card to save videos, please kindly check:
A, It must be Micro SD Card, reaching at least 10MB/S to transfer. (class 10)
B, The camera can support up to a 128G Micro SD Card.
C, It needs to be inserted when the camera is off, otherwise the camera can't detect the SD Card.
D, It can be recycling used, meaning the newest video will be saved automatically to replace the oldest one when it is full.

16.2 Cloud Storage
A, Each camera has 7 days' free trail for Cloud service, then you can decide to whether to continue using it or not. If yes, you need to pay for the subscription. Attached table for subscription fee.
B,The subscription is based on camera ID, not refers to App account. If you have multiple cameras, it requests to subscribe for each one separately .

Cloud Storage Subscription Fee		
	For One Month	For One Year
3 Days Loop Recording	$2.99	$30
7 Days Loop Recording	$4.99	$50
30 Days Loop Recording	$15.99	$160

17. Trouble Shooting:

NO.	Description	Solution
1	Cannot Turn on Camera	Is camera fully charged? Did you press the POWER button without release long enough or have you tried several times more?
2	Cannot Reset	Did you press the RESET button without release long enough or tried several times more? Is the camera mode indicator flashing red slowly? Did you hear a noise (boogu sound) after you reset?
3	Cannot Connect	Have you connected your phone to the same 2.4 gHz wifi network as your camera do? Did you double check if your wifi password is correct? Is your network steady enough or close to your router?
4	No Notifications	Is Motion Detection turned on? Is mode indicator showing blue when motion is detected? Did you get alarm messages for motion detection? Did you allow notifications on App and phone notification settings? Or contact Tech Support by email.
5	No Detection	Ensure Motion Detection turned on. Camera mode indicator shows blue when motion is detected. Signal strength is high. Set detection sensitivity to HIGH. Install camera max.32ft from moving object. No alarm interval or alarm plan set.
6	Change to a New Network	Remove the camera in ZUMIMALL App Press the reset button to factory setting Re-conenction.
7	No person on Alarm Videos	Adjust camera sensitivity to'HIGH'. The moving objects may appear from the corner of camera coverage, please adjust the lens angle.
8	Frequent Alarm	Adjust the camera alarm sensitivity to 'Low' Check whether camera's monitoring range is in large traffic areas, and set alarm plan to reduce false alarms.
9	No Alarm when someone passes by	Make sure motion detection is turned on. Ensure motion happends beyond the range of PIR monitoring area.

尺寸 宽度140MM*高度140MM　　128G 铜版纸 双铜

10	No Alarm Video	Make sure insert an SD Card or activate Cloud Service. Click triangle button to play videos.
11	Device Offline	Charge the camera and reconnect it. Ensure the Wifi signal strength is good as above 75%.
12	Battery Durability	Reduce frequency of Motion Detection, Two-way talk, and frequency of viewing Live Feeds.
13	ZUMIMALL App Flashback	Phone system version is too low or too high.
14	Unable to Charge	Charge at least 8-16 hours with a 5V 1A/2A phone charger. LED turns to be red means your camera is charging correctly. Make sure USB power cable and the phone charger both work well.
15	Unable to Register Account	Make sure to select correct country.
16	Unable to Add Friend	Your account and friend's account must be in the same country. For example, accounts in Europe and America cannot share with each other.
17	App Crash	Uninstall, reinstall the App and reconnect camera; Contact Tech support.
