Warm Caution ⚠

1. For INDOOR use only and avoid electric shock.
2. Do not expose to liquid, humidified mist, rain or fire flame.
3. Avoid overheating the light bar when power is on.
4. Avoid rough mounting surface and make sure the surface is clean and dry.
5. Avoid tearing back glue quickly in a time but tearing slowly and stick step by step.
6. Avoid pressing the light beads vigorously or touch light beads directly when power is on.

Disclaimer

Dear customer, these instructions are suggested installation procedures only, they do not constitute professional installation and may not necessarily meet all electrical requirements in your state. Please be reminded that Shine Decor assumes no liabilities occur from improper installation. All of our products are warranted against defects in materials and workmanship for a period of one year from the date of original purchase. We provide 1 month hassle-free full refund, 6 month money back or free replacement and 12 month limited warranty.

Strip Connection

1. Connect controller's female DC power end with adapter's male connector.
2. Recognize controller's 4 pin connection and light strip's 4 pin connection and connect them together in Arrow to Arrow.

3. Unroll the light strip and plug the power plug into a well-performed outlet and test the light strip's function.

Test Method;
Test the light strip before installation.

Incorrect
Will lead to overheating if test the light strip when they are bundled together.
Correct
Unroll and scatter the light strip for testing and checking if the light strip works well or not.

(The light strip can be controlled by Remote or Bluetooth APP)

1. Scan the APP RQR code to download 'duoCo Strip' APP

2. Open the Bluetooth and APP to control the color and modes.

3. Choose wanted color and modes, music sync style or schedule the time, then enjoy!
