Important Notes :

Read these safety instructions before using your device and store them for possible future reference.

- If the cord is damaged, have it repaired by the manufacturer, its service or a similarly qualified person in order to avoid any hazard.
- The cord should always be readily accessible.
- The apparatus shall not be exposed to dripping or splashing of water or liquids and that no objects filled with liquids such as flowers vases shall be placed on the product.
- The normal ventilation of the product shall not be impeded for intended use.
- Always leave a minimum distance of 10 cm around the unit to ensure sufficient ventilation.
- Open flame sources, such as candles, should not be placed on top of the device.
- The device is intended for use only in a temperate climate.
- The ventilation should not be impeded by covering the ventilation openings with items, such as newspapers, table-cloths, curtains, etc.
- **CAUTION:** to avoid accident, this appliance must be fixed properly on the floor or on the wall according to instructions for installation.
- **CAUTION:** Danger of explosion if batteries are incorrectly replaced or not replaced by the same type or equivalent
- Batteries should not be exposed to excessive heat such as sunshine, fire or similar.
- Different types of batteries, new and used batteries should not be mixed.
- Batteries must be installed according to the polarity.
- If batteries are worn, they must be removed from the product.
- Batteries must be disposed of safely. Always use the collection bins provided (check with your dealer) to protect the environment.
- If there is not following pictogram on the product  , then it is class I apparatus. It must be connected to an electrical power supply base connected to protective earth.

The lightning flash is intended to alert the user to the presence of dangerous voltages within the product's enclosure, and touching the inner parts may result electric shock and personal injury.

The exclamation mark is intended to alert the user to the presence of important operating instructions.

To prevent the risk of electric shock or fire, do not open the cover.
Refer servicing and repairs to qualified service personnel.

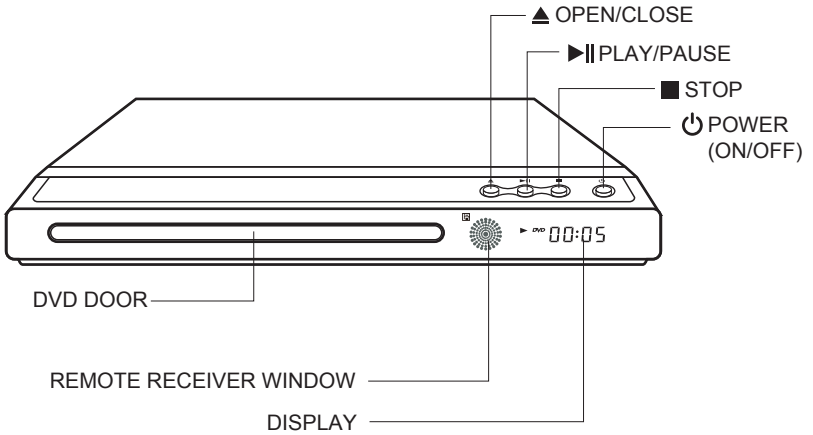

This mark indicates that this unit contains a class 1 laser product. The laser beam may produce harmful radiation if it directly touches the human body.

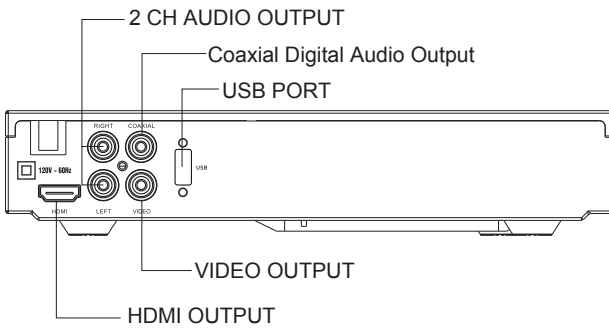

General Safety Instructions :

- Please read this Instruction Manual carefully before connecting and operating.
- Do not expose this DVD Home Theatre System to rain, moisture or direct sunlight
- Do not install near any heat sources, such as Radiators, heat registers, stoves or other apparatus that produces heat, including amplifiers.
- Place the DVD Home Theatre System on a Horizontal, level surface.
 - Do not obstruct the heat ventilations. Overheating may cause malfunctions.
- Clean the cabinet with a soft cloth. Detergents or alcohol should not be used.
- Do not remove any covers or attempt to gain access to the inside of the DVD Home Theatre System.
- Refer all servicing and repairs to qualified service. Servicing is required when the DVD Home Theatre System has been damaged in anyway, such as power supply cord or the power plug is damaged, the DVD Home Theatre System has been exposed to rain or moisture and does not operate normally or has been dropped.
- Unplug this DVD Home Theatre System during lightning storms or when not used for long periods of time.
