

OPENCOMM

User Guide

How to Set Up OpenComm

1. Charge

Use the included magnetic induction cable to charge the headset. The LED indicator will change from red to blue when charging is complete.

2. Pair

Start with your headset powered off. Enter pairing mode by pressing and holding the volume+ button until OpenComm says "pairing" and the LED indicator flashes red and blue.

3. Connect

Open your device's Bluetooth® menu and select "OpenComm by AfterShokz." OpenComm will say "connected" and the LED indicator will flash blue one time when a connection has been established.

Flashes red and blue	Pairing mode		

06

NFC Function (Near Field Communication)

Headset support NFC pairing.

1. Power on the headphones or set to pairing mode.
2. Position the NFC sign area of the headset close to the NFC detection area of mobile device.
3. Blue light will flash one time when headset is paired successfully, and OpenComm will say "connected".

Moisture Detection Alarm

Headset has a moisture detecting function. If moisture is present on the charging port while being charged, the headset will vibrate with an audible "beep" warning.

Restore Factory Settings

Start with the headset powered off. Set the headset to pairing mode. To do this, hold the Multifunction button, volume+, and volume- button at the same time for 3 seconds, until you hear the notification tone and feel the vibration. Power the headset off.

Storage and Maintenance

1. Headset should be kept in cool and dry place, with a temperature from 0°C to 45°C. Working in an extremely cold, extremely hot, or high humidity environment may limit the working time and shorten the battery life of the headset.
2. Please charge the headset when it has not been in use for an extended period of time.
3. Listening at a high volume may damage your hearing and distort the audio quality.
4. Please only clean headset with a soft dry cloth.
5. Please do not charge headset immediately after exercising in order to prevent damage to the headset circuitry that can be caused by liquid residue exposure.
6. Keeping the charging port dry will reduce the possibility of damaging the headset.

Services

AfterShokz promises that under normal use, operation and maintenance conditions, we will offer a free two-year warranty. Please contact local retailer for more help.

07

Discarding Product Guidelines

Please do not discard the electronic headset parts in the same receptacle as your daily garbage. Reference your country or region's guidelines on appropriate measures for collecting discarded electronic products. Please consult local authorities for more details.
