- 6 Rear knob

— Technical Details —

Item Weight	4.3lb
Product Dimensions	Front Lever – Ø60mm*H80.5mm Back Lever – Ø60mm*H60.5mm
Access Modes	Fingerprint, Password, Bluetooth, NFC Devices, NFC Card, Keys, Remote In-app management, Voice Control
Storage	100 Pcs of NFC Cards, fingerprints and passwords
Batteries	3 AAA Alkaline Batteries (not included)
Battery Life	12 Months+
Color	Matte Black
Material	Front Lever – Zinc Alloy Back Lever – Aluminum Alloy
Waterproof Rate	IP55
Working Temperature	-4 °F ~ 158 °F (-20°C ~ 70°C)
Working Humidity	40%RH ~ 80%RH

— Installation Guide —

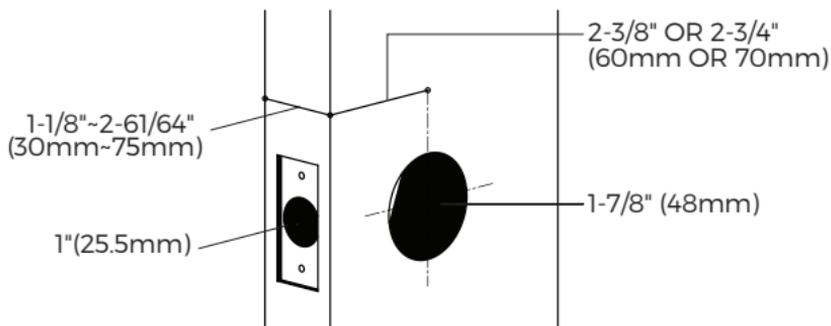

Please scan the QR Code above to watch our easy step by step installation video, these steps will help with installation of S170 Smart Lock.

Or you can also visit: www.yeeuu.com/pages/s1-support -page.

1.1 Preparing the Door

Confirm the following dimensions.

- The thickness of the door is between $1\text{-}1/8\text{"}$ ~ $2\text{-}61/64\text{"}$ (30-75mm).
- The diameter of the hole is $1\text{-}7/8\text{"}$ (48mm).
- The backset is either $2\text{-}3/8\text{"}$ or $2\text{-}3/4\text{"}$ (60mm or 70mm).
- The diameter of the hole in the door edge is 1" (25.5mm).

1.2 Installing latch and strike

Step 1. Optional: Remove your current lock.

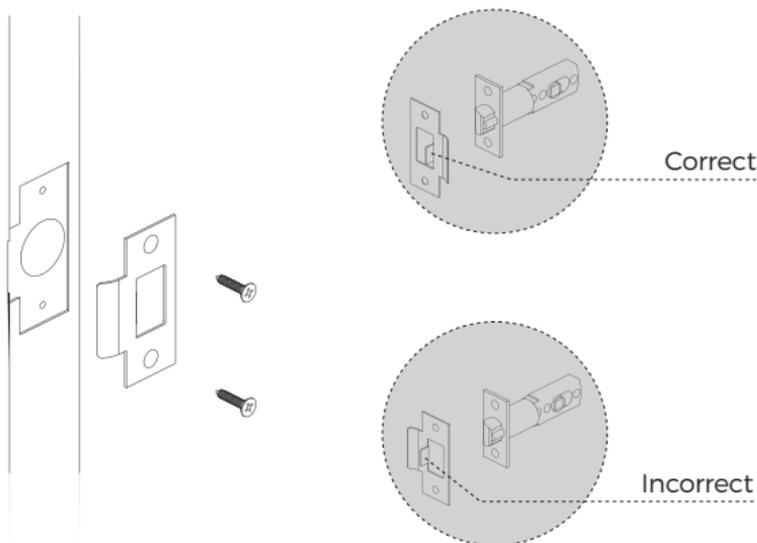

If you are installing your Yeeuu S170 Smart Lock on a door with an existing lock, please remove the current strike and latch.

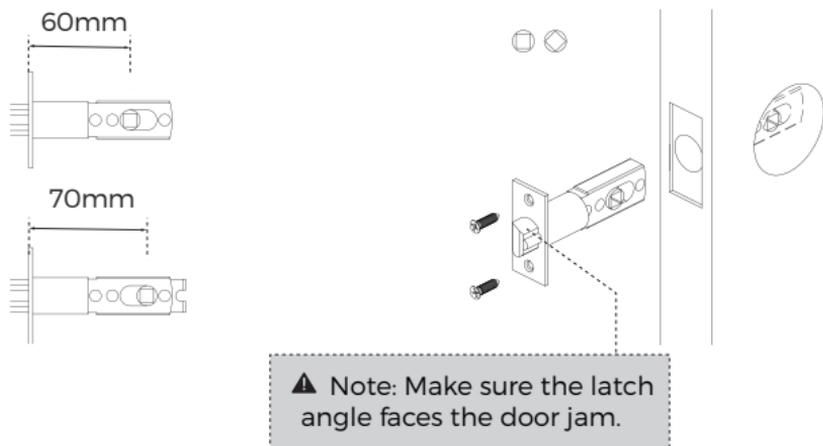

Step 2. Install the lock body.

Install the single latch lock body on the door, make sure the latch angle faces the door jam.

Step 3. Install the strike.

Install the strike on the door frame, ensuring the strike will match the latch.

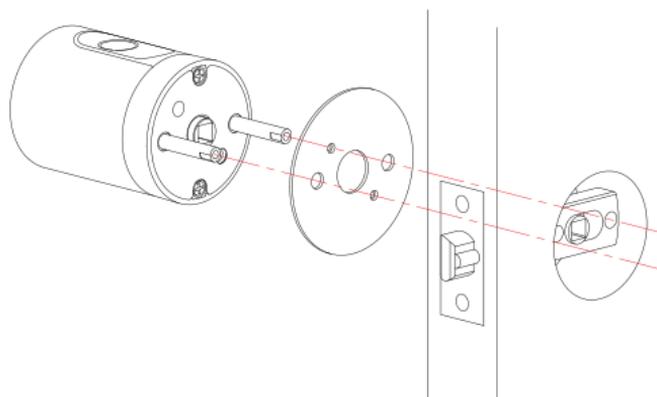

1.3 Installing the Lock

Step 1. Install the front lever.

1. Place the 2 connecting rod bolts on the front lever, assemble the front lever on the door, make sure the fingerprint area is facing upwards.

2. *Optional: Affix the included front cover plate behind the front lever if there is a gap due to a large bore hole.*

Step 2. Align the front and back lever.

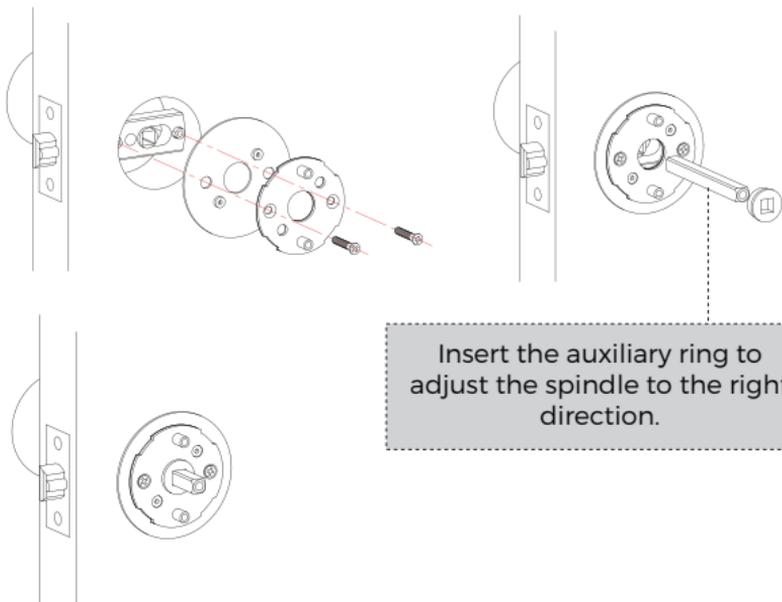

1. Align the spindle with the slot in the latch , slide it into the front lever.
2. Secure the rear cover with 2 screws, choose the A/B/C screws according to the thickness of your door, do not tighten the screws yet.

How to choose your screw:

Door Thickness	Screw
1-3/16"-1-45/69"(30-45mm)	A-Screw (M4 *25) 
1-13/16"-2-23/64"(46-60mm)	B-Screw (M4 *40) 
2-13/32"-2-61/64"61-75mm	C-Screw (M4 *55) 

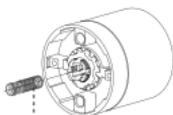

3. *Optional: Affix the included **back cover plate** behind the **rear cover** if there is a gap due to a large bore hole.*

4. Insert the auxiliary ring into the hole, adjust the spindle to the right direction.
5. Tighten the screws, take out the auxiliary ring.

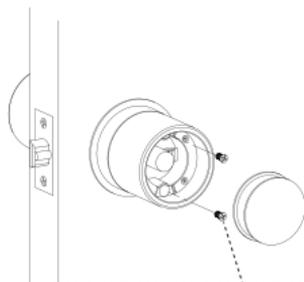

Step 3. Install the back lever.

1. Put the spring in the back cover, align the spindle and insert it in.
2. Pull out the rear konb in the back lever, secure the back lever with 2 lever screws.
3. Insert the the rear konb into the front lever. Twist the back lever, see if can rotate neatly.

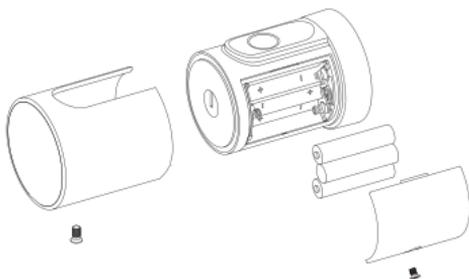

Place the spring into the center hole of the back lever.

Pull out the rear konb to tighten the screws.

Step 4. Install the batteries.

1. Take off the cover on the front lever and the battery cover, install 3 AAA alkaline batteries.
2. Wait for the LED light to turn on, put the battery cover and the front cover back.

1.4 Testing the Lock

PLEASE NOTE: Please test the lock in DEFAULT MODE.

- ▶ Twist the front lever, the latch should retract smoothly, if it doesn't, please follow the instructions carefully and repeat the installation.
- ▶ Input any fingerprints, the LED light should blink green, the lock can be opened.
- ▶ Input the default password 123456 , the LED light should blink green, the lock can be opened.

— Use the Lock —

2.1 Connect app

Step 1

Make sure the lock is in Factory Default Mode. Search and download “Yeeuu” in App Store (iOS) and Google Play (Android).

Step 2

Sign in to your existing Yeeuu account, or create an account by choosing “**Register**”.

Step 3

Turn on the Bluetooth on your smart phone, stay near the lock (within 10 feet / 3 meters) and search the lock in the App.

Step 4

Pair the New Device by tapping the “**Add Device**” or the “+” button on the top right-hand corner.

Step 5

Choose “Add Manually” or “**Auto Scan**”, choose “**Yeeuu S1 Smart Lock**”, the lock will blink blue light and buzz when paired.

2.2 In-app set up

PLEASE NOTE: Make sure the Bluetooth on your smart phone is on, and stay near the lock (within 10 feet / 3 meters).

2.2.1 Fingerprint Setting

Step 1. Select the device on the “**Home**” page and go to “**Set**” page.

Step 2. Tap “**Fingerprint Management**” on the top left-hand corner, and choose “**Add fingerprint**”.

Step 3. Select the user you would like to add fingerprint, and tap “**Start Collecting**”.

Step 4. Put your finger on the identification area to capture your fingerprints for 8 times.

2.2.2 Password Setting

Password Touch board: 0-9,  . ( is the confirm key.)

Permanent password: 6-10 numbers, valid until you delete.

Step 1. Select the device on the “**Home**” page and go to “**Set**” page.

Step 2. Tap “**Password Management**” on the top right-hand corner, and choose “**Add password**”.

Step 3. Select the user you would like to add permanent password, and set the password.

Time-code password:

– One-time password

6-10 numbers, set the start and end time for one-time use.

– Periodic password

6-10 numbers, set a schedule time for routine visit.

Dynamic password

10 numbers, can be generated offline, valid within 5 minutes.
