INTRODUCTION YXPCARS

YXPCARS was established in 2016 in response to the growing demand for auto parts. Over the past 6 years, YXPCARS Brakes has become the market leader in the high-performance road and mid-track markets and the brand of choice for automotive enthusiasts worldwide, earning rave reviews from every existing customer looking to upgrade their car's brakes. Offers high-quality components at affordable prices. We use our braking science experience and high-quality material ratio to engineer the most precise braking products to deliver unmatched levels of performance. As modern vehicles become heavier and heavier, coupled with ever-increasing power output, the demands on the braking system are higher than ever, especially on the road. Many ordinary braking systems are simply not suitable for high-performance driving and track use, especially if the vehicle is tuned. To cater to fast road cars, our products are precisely engineered and rigorously tested to ensure they meet our exacting standards and can reliably withstand the stress of the most extreme driving situations. Includes a state-of-the-art production line with new machinery for the manufacture and assembly of our new line. Until now, customers have faced a choice: choose a high-performance product and pay a premium; or choose a low-cost product and compromise on quality, performance, and longevity. We've started reforming the brake market to suit our customers' real budgets, but won't accept compromised performance. YXPCARS provides automotive enthusiasts around the world with high-quality manufactured components at affordable prices, while maintaining our credo in developing braking products to deliver unrivaled braking performance.

- Advanced Formulation
- Exquisite Workmanship
- Benchmarking OE Standard

IT GIVES YOU PROTECTION EVERY TIME YOU BRAKE

High-quality production, through lab and vehicle testing, to ensure they fit the vehicle. Brake pads maintain consistent performance in wet, low-speed, and high-speed conditions. Testing and recording are carried out to the strictest testing standards. The same product every time - guaranteed by in-house quality control and testing to the highest standards. All vehicles recommended for a specific brake pad compound must be tested based on kinetic energy calculations to find the worst vehicle. In this way, all compounds and vehicles are checked and the most severe compounds are tested on the track so that consumers get a very safe product. In short: Guarantee your reliable OEM replacement quality.

DRIVING BRAKE TECHNOLOGY

YXPCARS brake pads are designed to provide overall excellent friction stability and disc compatibility. The friction formulations and techniques in our products are carefully selected to meet the specific requirements of each vehicle.

THE BRAND TRADEMARK

Scientific ratio, environmental protection materials, brake pads using one-time molding technology.

CHAMFER DESIGN

Chamfering design - make brake pad and brake disc fit better

THE BACK PLATE

Multi-layer ESE muffler is adopted to greatly reduce vibration and noise.

OE QUALITYUSING

Advanced equipment, high quality environmental protection materials, continuous research and testing, to provide high quality braking.

HIGH TEMPERATURE ABLATION

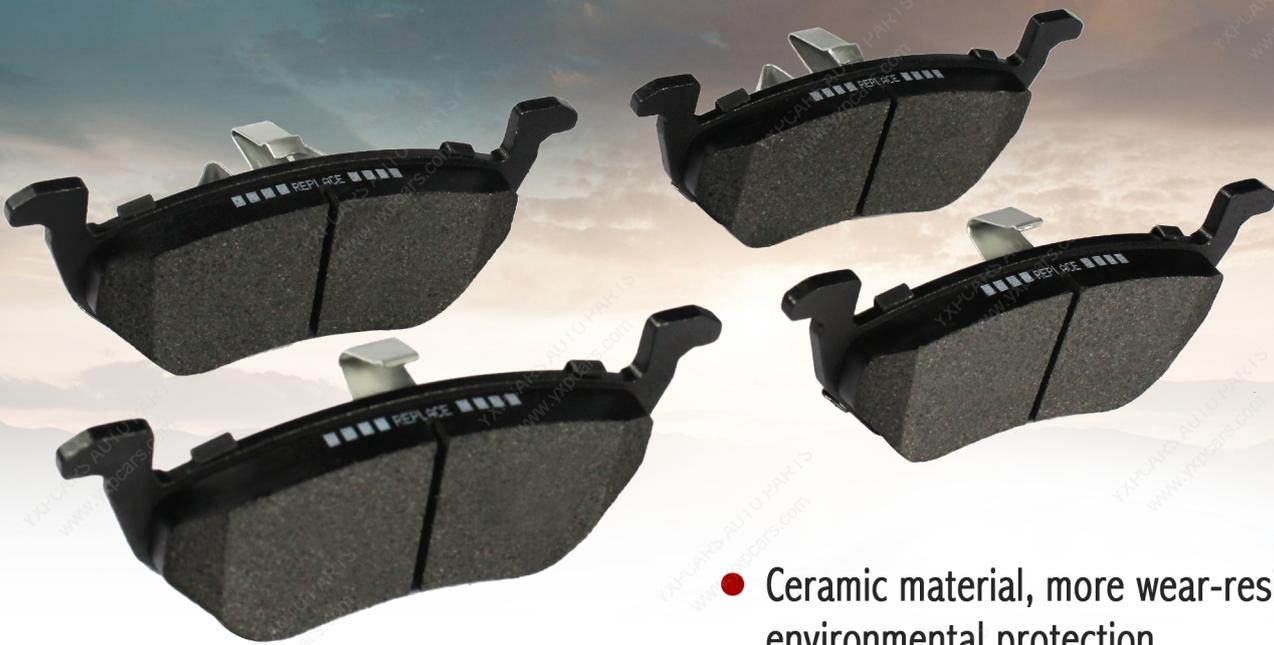

All brake pads are subjected to high temperature ablation according to the original factory standards to reduce run-in and decline.

SLOTTED HEAT DISSIPATION DESIGN

Chamfering design - make brake pad and brake disc fit better

Our brake pads are manufactured according to ECE standards of the highest quality in terms of materials and performance. Come on, we've introduced you to braking technology.

- Ceramic material, more wear-resistant environmental protection
- Slotted design, conducive to heat dissipation and sewage
- Chamfer design, eliminate abnormal sound

Product performance - covers most products

Durability (high temperature)	✓

DRIVING BRAKE

YXPCARS brake pads are specially designed for your car. We have over 90% of our models to choose from, all brake pads are ECE compliant. It delivers the performance, durability and comfort you need to go further.

Although the ECE R90 requirements ensure good quality standards. But our brake friction products have been developed to exceed these standards. Brake pads enter the market only if they pass the manufacturer's exacting standards.

PREMIUM QUALITY - UNCOMPROMISING BRAKING.
