# GETTING STARTED

## Power On/Off

Press and hold  for 2~3s to turn on or turn off the wake-up light, and there is a notification sound when you successfully turn on or turn off the device.

### Note:

You may not turn on the wake-up light if the battery is low. Please plug the adapter into a socket to charge the wake-up light and try again.

## Charge

### Notes:

1. An adapter with DC 5V/1A (not included) is recommended.
2. It's recommended that you keep the wake-up light plugged in when using it.
3. The wake-up light will send an intermittent sound and the charging indicator will keep flashing blue when the battery is low. Charge the device in time to prevent it from automatically turning off.

# GETTING STARTED

## Power On/Off

Press and hold  for 2~3s to turn on or turn off the wake-up light, and there is a notification sound when you successfully turn on or turn off the device.

### Note:

You may not turn on the wake-up light if the battery is low. Please plug the adapter into a socket to charge the wake-up light and try again.

## Charge

### Notes:

1. An adapter with DC 5V/1A (not included) is recommended.
2. It's recommended that you keep the wake-up light plugged in when using it.
3. The wake-up light will send an intermittent sound and the charging indicator will keep flashing blue when the battery is low. Charge the device in time to prevent it from automatically turning off.

- 1 Press the  $\oplus$  /  $\ominus$  button to adjust the value of **Hour**, then press the  $\odot$  button to confirm.
- 2 Press the  $\oplus$  /  $\ominus$  button to adjust the value of **Minute** when it keeps blinking, then press the  $\odot$  button to confirm.

### Step 3:

After the setting is completed, please press and hold the  $\odot$  button or just wait for 5s, the wake-up light will exit time setting.

## Set Alarm Clock

### Step 1:

Press and hold the  $\odot$  button to start setting an alarm clock. The numeric value of **Hour** keeps blinking, which indicates you can start setting time.

- 1 Press the  $\oplus$  /  $\ominus$  button to adjust the value of **Hour**, then press the  $\odot$  button to confirm.
- 2 Press the  $\oplus$  /  $\ominus$  button to adjust the value of **Minute** when it keeps blinking, then press the  $\odot$  button to confirm.

**Step 2:**

After the setting is completed, please press and hold the  button or just wait for 5s, the wake-up light will exit alarm setting. An alarm clock indicator  on the display stands for the successful setup.

**Tips:****1. Ringing time**

\* The  indicator keeps flashing when the alarm is ringing. The alarm will last for 4mins and repeat 3 times at an interval of 9mins. It will be automatically turned off if no operation is performed.

**2. Snooze setting**

\* Press any button on the wake-up light to get 9mins snooze time when the alarm is ringing.  
The  indicator keeps flashing in snooze mode.

**3. Wake-up mode**

\* The wake-up light starts to enter **Wake-up Mode** 10mins before the alarm time. The light will be on and gradually get brighter, and the alarm will ring on time.

\* Please note that an exclusive sound has been preloaded for the alarm and can't not be changed.

**4. Turn off the alarm clock**

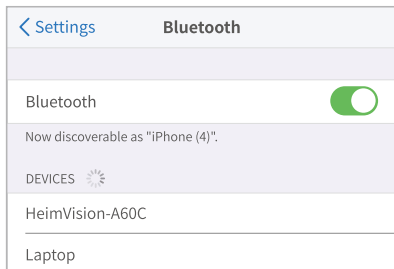

\* Press and hold any button on the wake-up light to turn off the alarm for the day when it's ringing.

\* Press the  button to turn off the alarm permanently.

## Play Music through the Wireless Connection

### Step 1:

Turn on bluetooth on your device and select **HeimVision-A60C** from the list to pair with. A sound from the wake-up light stands for the successful pairing, and the wireless connection indicator will turn to solid on.

### Tip:

When you turn on the wake-up light, the wireless connection is enabled with its indicator flashing. The indicator will disappear after 3mins if the wake-up light isn't paired with any device. However, the wireless connection function is still enabled. If you'd like to pair it with your device, please directly go to bluetooth setting of your device, search the wake-up light and pair with it.

### Step 2:

Select a song on your device to play.

- \* Press and hold the  /  button to adjust the volume.
- \* Press the  /  button to play the next/previous song.
- \* Press the  button to pause or play.

### Step 3:

Tap "Disconnect" or "Forget this device" on your device or press **(M)** on the wake-up light to unpair the wake-up light with your device.

## Set Light Pattern

### Turn on the light

Tap the **Speaker Grille** of the wake-up light to turn on the light and tap again to start choosing the light pattern you prefer.

9 light patterns are provided:

CL01-CL07, light with pure color

CL08, colorful light which gradually changes

CL09, the light color will change according to music rhythm

### Adjust light brightness

Press and hold the **(M)** button to adjust the bright levels of the light based on your needs.

## Turn off the light

Tap and hold the **Speaker Grille** for 2s to turn off the light.

### Tips:

1. Light will automatically go off after 8 hours if you keep the wake-up light plugged in.
2. Avoid touching the **Speaker Grille** for more than 5s, otherwise "Err-" prompt will be displayed on the screen.
3. Light pattern can't be set when the alarm is ringing.

## Set Sleep Aid

**Sleep Aid** function aims to help you fall asleep easily. When **Sleep Aid** is enabled, the colon (:) between **Hour** and **Minute** will stop blinking, the light will automatically turn on and the wake-up light starts to play white noise.

### Step 1:

Tap  to enable **Sleep Aid** function. Tap to choose the sleep aid time from **15min**, **30min** and **60min**.

**Step 2:**

Press the  button to select the one you prefer out of six preloaded white noise. Press and hold the  button to adjust the volume.

**Notes:**

- \* The wake-up light will stop playing the white noise immediately after you pair it with your device. You could play the music from your device directly.
- \* Unpair the two devices and press the  button to resume playing white noise.

**Step 3:**

Tap the speaker grille to set the light pattern.

**Tips:**

- \* The wake-up light will stop playing white noise and the light will be turned off after the scheduled time, and the colon (:) starts to blink again.
- \* Tap to choose OFF or long press  for around 2s to disable Sleep Aid function.

## SPECIFICATION

\* An exclusive sound has been preloaded for the alarm and can't not be changed.

**Q3. Can I set the light dimming gradually for Sleep Aid?**

\* The wake-up light doesn't support gradual dimming.

**Q4. Can my alarm work when I turn on wireless connection and play music?**

\* Yes, the alarm will ring on time.

**Q5. Can my alarm work if I turn off the wake-up light?**

\* No, the alarm will not ring when the wake-up light is off.

**Q6. Can I set multiple alarms?**

\* No, you can only set one alarm for your wake-up light.

## FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

### NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

### WARNING:

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

## IC statement

This device complies with RSS247 of Industry Canada. Cet appareil se conforme à RSS247 de Canada d'Industrie. This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions:

- (1) this device may not cause interference, and
- (2) this device must accept any interference, including interference that may cause undesired operation of the device. appareils radio exempts de licence. Son fonctionnement est sujet aux deux conditions suivantes:
  - ① le dispositif ne doit pas produire de brouillage préjudiciable, et
  - ② ce dispositif doit accepter tout brouillage reçu, y compris un brouillage susceptible de provoquer un fonctionnement indésirable.

The device must not be co-located or operating in conjunction with any other antenna or transmitter.

## CAUTION

RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE.  
DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS
