# HeimVision

**A80S Smart Wake-Up Light**
# User Manual

Please read this important information booklet carefully before you use the appliance and save it for further future reference.

# WARNING

To reduce the risk of Fire, Electric Shock, or Injury to Persons:

1. This appliance is only intended for household use, including similar use in hotels.

2. Place this appliance on a stable, level and non-slippery surface.

3. Do not use this appliance in wet surroundings (e.g. in the bathroom or near a shower or swimming pool.)

4. Make sure the adapter does not get wet.

5. Do not let water run into the appliance or spill water onto the appliance.

6. Only use the original adapter. Do not use the other adapter if they are damaged.

7. This appliance has no on/off switch. To disconnect the appliance from the power source, remove the the plug from the wall outlet.

8. Do not use this appliance as a means to reduce your hours of sleep. The purpose of this appliance is to help you wake up more easily. It does not diminish your need for sleep.

# STORAGE

1.Clean the appliance with a soft cloth.

2. Do not use abrasive cleaning agents, pads or cleaning solvents like alcohol, acetone, etc., as this might damage the surface of the appliance.

3. If the appliance will not be used for an extended period of time, remove the power cord from the wall outlet and store the appliance in a safe, dry surroundings where it will not be crushed, banged, or subject to damage.

# OPERATION GUIDE

**First use- setting the clock time:**

You have to set the clock time when you plug in the appliance for the first time.
## Set the time

Plug in the power and start setting.

Hold 🌀 for 3 seconds until the hour time begins to blink.

Use ➕ ➖ to adjust the hour.

Press the 🌀 again to confirm the hour time and move to the minutes.

Use ➕ ➖ to adjust the minutes.

Press the 🌀 once more to confirm the minutes and move to choose the time format.

**Note：** When the 12-hour time format is selected, PM or AM will be displayed.

# Setting Alarm Clock

You can set four alarm clocks for this wake-up light. (Note: clock 3 & clock 4 can only be set on APP)
Take clock 1 setting as an example:

1. In time state, press 🕐 to turn on alarm, the alarm symbol appears on the display when you turn on it, and disappears when you turn off the alarm.

2. Hold 🕐 for 3 seconds until the hour time begins to blink, and use ➕ ➖ to adjust the hour time.

3. Press 🕐 second time to confirm the hour time and move to the minutes, and use ➕ ➖ to adjust the minutes.
4. Press 🕐 third time to confirm the minutes and move to choose the alarm sound, and use ➕ ➖ to adjust your choices. (You can choose between 7 pre-set sounds or FM radio as a wake-up sound.)

5. Press 🕐 fourth time to confirm the alarm sound and move to set the wake-up sound volume, and press ➕ ➖ to adjust the volume.

6. Press 🕐 fifth time to confirm the volume and move to set the wake-up light. and press ➕ ➖ to adjust the light intensity. (OFF, L-01~L-20)

**Note:** When the set light time arrives, the light will slowly turn from dark to the preset brightness level. OFF means turning off the light. Set the light state to OFF when you do not need a light to wake up

7. Press 🕐 sixth time to confirm the light brightness and move to set the simulated sunrise time. and press ⊕▪ ▭⊖ to adjust from 10-60 MIN, then press the 🕐 to confirm, finish setting.

(You can set the light to turn on 10-60 minutes before the alarm sounds. In the set sunrise simulation time the light intensity of the lamp gradually increases to the set level and the light color changes from deep morning red to bright daylight.)

**Leave for about 15 seconds to confirm selected option.**

## SNOOZING

extra 9 minutes

When the alarm goes off, press 😌 to enter snooze state, you can get an extra 9 minutes of sleep time.

(Note: snooze up to 5 times.)

* When the alarm goes off (or snooze state), press the corresponding alarm clock button to turn off light and sound.
* When the alarm goes off, if there aren't any operations within 15 minutes, it will trun off light and sound automatically.

2. Login your "Smart Life" account, then **Authorize** and close the **Accounts now linked** page after it is connected successfully to enter **Choose Device** page. Then you can control the wake-up light via Google Home after complete setting.
# TROUBLE SHOOTING

This part summarizes the most common problems you could encounter with the **Wake-Up Light**. If you are unable to solve the problem with the information below, please feel free to contact **support@heimvision.com** for assistance.

Q1. The appliance does not work at all.
   * Perhaps the adapter is not inserted properly in the wall outlet. Plug the adapter properly in the wall outlet.
   * Perhaps there is a power failure. Check if the power supply works by connecting another appliance.

Q2. What should I do when I cannot link the **Wake-Up Light** with the **Smart Life App**?
   * Check if the **Wake-Up Light** is powered on;
   * Make sure your mobile device is connected to the **2.4GHz** Wi-Fi Network;
   * Make sure the password of your Wi-Fi network entered in **Smart Life App** is correct when linking **Wake-Up Light**;
   * Make sure the **Wake-Up Light** is ready for linking: the Wi-Fi indicator flashes quickly. If not, please press the Snooze button (about 10 seconds) until the Wi-Fi indicator begins to flashes rapidly.

Q3. Why did I fail to set the alarm clock to ring only on weekdays?
   * Please turn on the **Network auto-time** in the setting interface of **Smart Life App**, then you can set the alarm clock according to your needs.

Q4. The radio produces a crackling sound.
   * Perhaps the broadcast signal is weak, please fully unwind antenna and move it around until you receive the best reception.

Q5. How can I set the alarm 3 and alarm 4?
   * Alarm 3 & Alarm 4 can only be set on **Smart Life App**.

Q6. Could I completely turn off the time display?
  * Yes, you could turn it off in the setting interface on **Smart Life App**.

Q7. The light wakes up me too early.
  * Perhaps the light intensity level you set is not appropriate for you. You can try a lower light level.
  * Move the **Wake-Up Light** further away from the bed.

Q8. The light wakes up me too late.
  * You can try to set at a higher light intensity level.
  * Make sure the **Wake-Up Light** is located at a height at which the light is not blocked by your bed, comforter, pillow or any other things.

Q9. The light reboots or flashes abnormally.
  * Please make sure your power adapter's output voltage is 5V and current is greater than or equal to 2A. We recommend using our original power adapter.

# WARRANTY

## 30-Day Money-Back Guarantee for Any Reason

You may return your product within 30 days of purchase to receive a FULL REFUND for any reason. But if the reason for return isn't quality-related, the customer must pay for the return shipping.

## 24-Month Warranty for Quality-Related Issues

HeimVision warrants its products to be free from defects in material and workmanship, under normal use, during the warranty period. Within 24 months, HeimVision will provide a replacement and cover any return shipping costs for products that fail in normal use.

## FCC CAUTION

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

Note:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

— Reorient or relocate the receiving antenna.

— Increase the separation between the equipment and receiver.

— Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

— Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator& your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

## ISEDC WARNING

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:

(1) this device may not cause interference, and

(2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

(1) l'appareil ne doit pas produire de brouillage, et

(2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

The device is compliance with RF exposure guidelines, users can obtain Canadian information on RF exposure and compliance. The minimum distance from body to use the device is 20cm.

L'appareil est conforme aux directives d'exposition aux RF, les utilisateurs peuvent obtenir des informations canadiennes sur l'exposition aux RF et la conformité.La distance minimale du corps pour utiliser l'appareil est de 20 cm.

## CAUTION

RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE.
DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS
