7 Ringtone

8 Micro USB Port

PAIR THE CHIME WITH THE DOORBELL

Step 1:

Install 3 pieces of AA batteries into the battery

compartment of the chime, or connect the chime with a socket via a micro USB cable.

OR

Step 2:

Press the **Reset Button** on the chime **ONLY ONCE** and the **Paring Indicator** will start to flash red.

Step 3:

Press the **Doorbell Button** once to start pairing.

Step 4:

You will hear two times of "ding-dong" from the chime, and the **Working Indicator** will flash blue quickly, then be off, which indicates a successful pairing.

Tips:

- * The **Pairing Indicator** will be off if there is no doorbell paired within 30s; press the **Reset** button on the chime once to be ready for pairing again.
- * Press the **Ringtone** button to select a tone for your chime.
- * Press the **Volume** \pm button to adjust the volume levels of the ring.
- * To unpair the chime with the doorbell, please press and hold the **Reset** button on the chime for 5s to reset it. The **Pairing Indicator** will flash red for three times, then be ready for pairing again.
