READ AND SAVE THESE INSTRUCTIONS

SAFETY INSTRUCTIONS

Failure to comply with the warnings listed below may result in electric shock or serious injury.

This product should only be used in accordance with the specifications outlined in this manual. Usage other than what has been specified here may result in serious injury.

When using electrical appliances, the following basic precautions should always be taken to reduce the risk of fire, electric shock and injury to persons.

- Read all instructions before using appliance.
- To avoid fire or shock hazard, plug the appliance directly into a correct electrical outlet.
- Keep the cord out of heavy traffic areas. To avoid fire hazard, NEVER put the cord under rugs, or near radiators, stoves or heaters.
- To protect against electrical hazards, DO NOT immerse in water or other liquids, and do not use near water.
- As children are not able to recognize the hazards associated with the usage of electrical appliances, always supervise children when they are near the unit.
- Always unplug the air purifier before moving it, opening the grill, changing filters, cleaning, or whenever the air purifier is not in use. Be sure to unplug it by pulling on the plug not the cord.
- **NEVER** drop or insert any object into any openings.

- **DO NOT** run cord under carpeting.
- **DO NOT** cover cord with throw rugs, runners, or similar coverings.
- **DO NOT** route cord under furniture or appliances. Arrange cord away from traffic areas where it will not present a tripping hazard.
- **DO NOT** operate any appliance with a damaged cord or plug, if the motor fails to rotate, after the appliance malfunctions, or if it has been dropped or damaged in any manner. Get support from Customer Service for maintenance and repairs.
- Use appliance only for intended household use as described in this manual. Any other use not recommended by the manufacturer may cause fire, electric shock or injury to persons.
- **DO NOT** use outdoors.
- **DO NOT** place anything on top of the unit.
- **DO NOT** attempt to repair or adjust any electrical or mechanical functions on this unit. Doing so will void your warranty. The inside of the unit contains no user serviceable parts. All servicing should be performed by qualified personnel only.

AIR CLEANING SYSTEM

Improve your indoor air quality with the new Air Cleaning System. Multiple levels of cleaning include a combination HEPA filter that captures allergens, and an Activated Carbon filter to remove odors. UV-C light technology enhances the killing of germs.

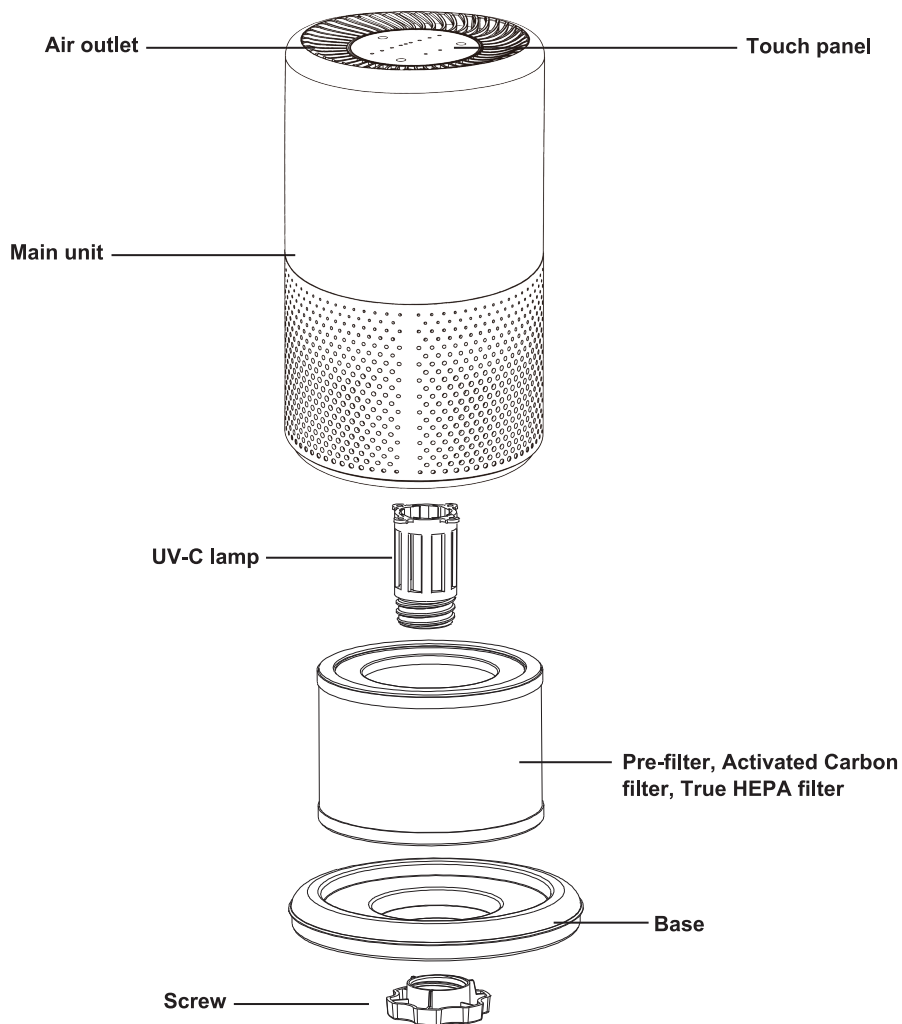

- **PRE-FILTER** : Captures initial dust and allergen particles.
- **ACTIVATED CARBON FILTER** : Absorbs formaldehyde, benzene and other noxious gases.
- **HEPA FILTER** : Captures dust, smoke, pollen and other allergens.
- **UV-C LIGHT** : Destroys micro-organisms such as germs, viruses, bacteria and fungi (such as mold toxins).

PACKAGE CONTENTS

- 1x Dreamegg Air Purifier
- 1x Dreamegg filter (Pre-Installed)
- 1x AC Power Adapter
- 1x User's Manual

Note: Please take out the filter and remove the plastic bag for the first usage.

GETTING TO KNOW YOUR DREAMEGG

BEFORE OPERATING THE AIR PURIFIER

1. Carefully remove your air purifier from the box and plastic bag.
2. Place the air purifier on a firm, level and flat surface.
3. For proper air flow, locate the unit at least 1 foot from any wall or furniture.
4. Make sure none of the grills are blocked.
5. Before using for the first time, remove the filters and discard the bags. Then reinstall the filters.
6. Plug the power cord into a right voltage outlet.

Note: Be sure to remove the plastic bag of the filter when you start using the air purifier for the first time. Please refer to page 16 to check how to remove and re-install the filter.

OPERATING INSTRUCTIONS

1. POWER ON/OFF:

Press this button to turn on or switch off the unit.

2. FAN SPEED

The fan speed of the unit can be adjusted when the unit is in operation (L/I-M/II- H/III-Turbo). Each time that you press on the (SPEED) button, the speed is adjusted from L (low) to M (medium) to H (high) and to Turbo.

3. UV lamp/Night light

- First press this button to turn on UV lamp.
- Second press this button to turn on Night light.
- Third press this button to turn off the UV lamp.
- Forth press this button to turn off the Night light.

Sleep mode

Hold and Press this button for 3 seconds, sleep mode turns on and all lights will be turned off.

Note: 1.Once turning on the sleep mode, all nights turn off and the fan speed turns to the lowest level to ensure a better sleep.

2.Sleep mode setting will not be remembered after re-plugging the unit.

4. TIMER

- By pressing this button, the purifier can be timed to operate for intervals of 2 hours, 4 hours and 8 hours, stopping automatically when the selected operating time has elapsed.
- Press this button to select the required operating time. An indicator light automatically indicates the selected operating time.
- To select the continuous operating mode, press the button repeatedly until there are no more indicator lights lit up.

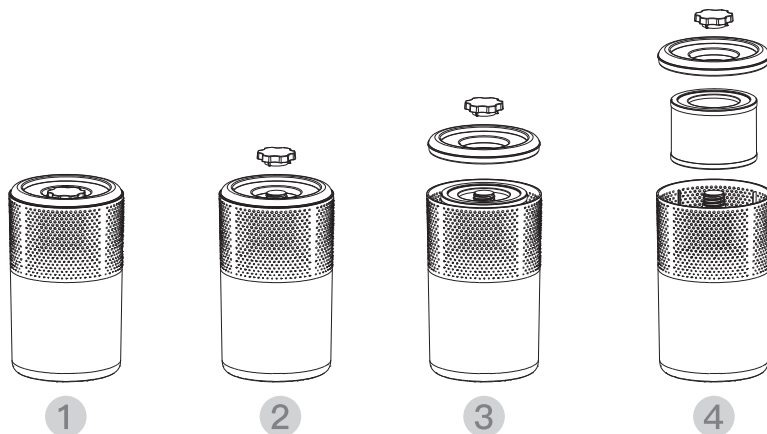

Important note: When the unit is not in use, please switch it off and unplug it.

INSTALLING & REMOVING FILTERS

リセット ● FILTER REPLACE INDICATOR

When this indicator lights up red, it means the filter needs to be replaced. Long press Power Button for 5S, the indicator will go off. Please replace the filter according to the directions below. After replacing the filter, remember to hold Power Button for 5 seconds to restart the system.

※ Combination Filters will last approximately 6 months.

1. Upside down the machine.
2. Remove the screw at the bottom of the unit anti-clockwise.
3. Lift the base cover and take out the dirty filter.
4. Insert the new filter and reattach the cover to the unit, then screw clockwise.
5. Press and hold POWER button for 5 seconds to reset program

CLEANING & MAINTAINING THE AIR PURIFIER

FILTERS

1. The filter should be cleaned once every month by vacuum cleaner as cleaning routine especially you notice low performance of the purifier.

2. The filter is NOT washable. Please DO NOT wash.

3. We recommend replacing the filter every 6 months for better performance. Refer to page 16 to learn how to remove the install and filter.

Note: The frequency of filter replacement deeply depends on the air situation in the specific area. We recommend replacing the filter every 6 month, but it may require a short window due to different air quality.

MAINTENANCE

1. Use a clean, dry, soft cloth to wipe the external surface of the unit.

2. **NOTE:** Do NOT stick any foreign objects or your fingers inside the unit.

CAUTION: Do NOT use gasoline, benzene, thinner, or harsh cleaners when cleaning the unit, as these will damage the product.

3. **NEVER** use alcohol or other solvents.
