GETTING TO KNOW YOUR DREAMEGG

① Night Light

② Power

③ Volume Up

④ White Noise

⑤ Nature Sound

⑥ Fan Sound

⑦ Volume Down

⑧ Timer

⑨ Timer Indicator

⑩ Headphone Jack

⑪ AC Adapter Jack

GETTING STARTED

Power On

1. Plug the unit into the power source.
2. Short press power button to turn on/off the unit.
3. By default, you will hear bird sound at medium volume, the night light is on and the timer is set to 60 minutes.

Note: Make sure to insert the cord to “DC 5V” port in the rear of the unit instead of “headphone” port.

Over-voltage Protection

When DC power supply is over 5V, over-voltage protection will automatically turn the machine off to protect it from burn-out. It is highly recommended to use qualified 5V / 1.0A charger for safety and proper use.

USING YOUR DREAMEGG

Pick a Sound

10 Nature Sounds: Short press this button to choose a nature sound. In sequence they are bird, sea wave, brook, lullaby, music box, cricket, campfire, rain, fetal tone, and train sound. You will hear an indicator sound when you press the button 10 times.

7 Fan Sounds: Short press this button to choose a fan sound. You will hear an indicator sound when you press the button 7 times.

7 White Noise Sounds: Short press this button to choose a white noise. In sequence they are 3 pink noises, 3 white noises and 1 brown noise. You will hear an indicator sound when you press the button 7 times.

Night light

Note: By using the night light feature, you must turn on the sound machine first. Night light can be turned on/off per your demand.

1. **Short press** the night light button, it turns in steady mode.
2. **Short press** the second time, it turns in breathing mode.
3. **Short press** the third time, the night light turns off.

Set a Timer

Toggle through the TIMER button until the corresponding LED illuminates next to the time of your choice 30, 60 or 90 minutes. The unit will automatically shut off after the selected time. If you want to restart, press Power button again.

Run Continuously

The unit could run continuously if you don't set the timer. Toggle through TIMER button until the corresponding LED goes off, it means you are in continuous mode.

Volume Adjustment

Volume Up: Short press to turn up the volume and you will hear a “ding” sound when volume reaches it's maximum.

Volume Down: Short press to turn down the volume until it's mute.

Headphone Jack

Insert a headphone to enjoy your sounds on the high fidelity speaker without disturbing others.

Memory Function

It will remember the lasting setting of sound, volume and timer, so you don't bother to push buttons all the time!

FCC DISCLAIMER

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: **(1)** this device may not cause harmful interference, and **(2)** this device must accept any interference received, including interference that may cause undesired operation.

The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the users authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
