SAFETY INFORMATION

IMPORTANT:

Please read and comply with all of the instructions and warnings provided in this manual before using the unit. Failure to comply with the instructions and warnings provided herein may result in inaccurate results and/or damage to the product itself.

1. Disassembly, repair or remodeling by an unauthorized person may result in serious harm and will void the manufactures warranty.
2. Always place the humidifier on a flat surface. This humidifier may not work properly on an uneven surface.
3. Do not place this product on cloth, carpet or an soft and fluffy surface. This may block the air inlet.
4. Do not use if the plug is damaged or loose.
5. Make sure it is unplugged before filling or cleaning the unit.
6. Do not tilt or move the unit once the humidifier is plugged in.
7. Do not remove the water tank from the unit while it is on.
8. Do not handle the plug with wet hands.
9. Do not excessively bend, twist, pull or damage the power cord.
10. Do not fill the water tank with hot or boiling water.
11. Do not use the product in direct sunlight or near a heat source such as a stove, heater or radiator.
12. Do not use if the water tank becomes cracked or damaged.
13. Unplug the cord when unit is not in use for an extended period of time and/or when no one is at home.
14. Do not keep water in the tank when not in use for an extended period of time.

15. Do not clean the unit, water tank or water reservoir with detergents or chemicals of any kind.
16. Do not cover the spray spout at any time during use. Do not put anything on or in the tank.
17. Do not get water in or on the power cord or where it connects to the product.
18. Do not touch the water tank during operation.
19. Do not submerge the unit in water or pour water on the unit from the mist nozzle.
20. When emptying water from water tank, pour on drain side.
21. Use clean or distilled water if necessary. Hard water areas will require more frequent cleaning.

Product Name	Cool Mist Humidifier
Model	TR-4501
Power	AC100-110V 50/60Hz
Tank Capacity	4.5L(1.2 Gallon)
Running Time	15 hours (High mist), 40 hours (Low mist)
Noise	≤32dB
Dimension	8 X 8 X 10 inches (204 X 204 X 255 mm)
Weight	Approx 2.16lbs/0.98kg

GETTING TO KNOW YOUR DREAMEGG

Handle

Take out the mist nozzle and use the handle for easier refilling.

Mist Nozzle

Water Tank

Base

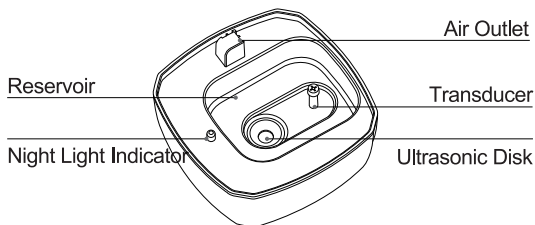

Power Button

Mist Level

Night Light Control

Timer

Sleep Mode

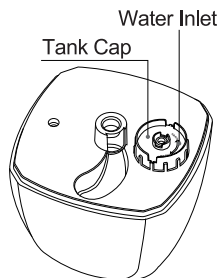

Reservoir

Air Outlet

Transducer

Night Light Indicator

Ultrasonic Disk

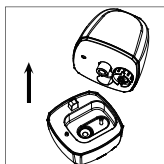

Water Inlet

Tank Cap

 (Don't let water go in the air outlet to avoid leakage. Drain water as "Drainage direction" shows.)

GETTING STARTED

■Unplug the unit before operations as below.

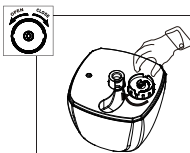

1. Separate the tank from the base.

2. Open the tank lid counterclockwise.

3. Pour cool, clean water directly into the tank. (Purified/ Distilled water is best)

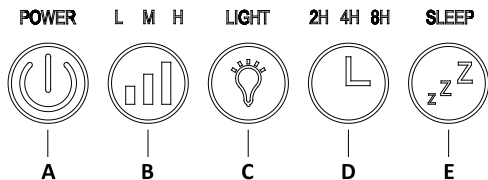

4. Close the tank lid clockwise. (Secure the cap tightly)

Warm Tips:

1. Don't add water through mist tube.
2. Do not add any water in the reservoir of the unit. Pour in water through water inlet ONLY.
3. No towel or carpet under the unit to avoid inadequate airflow and malfunction.
4. Make sure the water tank sits well on the base of the humidifier for proper air flow.

USING YOUR DREAMEGG

A ON/OFF and Low Water Level Indicator

Touch button A to turn the humidifier ON or OFF.

When water level runs low, the Power Button turns red to remind you for refilling. Meanwhile, the unit shuts off automatically for safety guarantee. Simply add more water for continuous use.

B Mist Levels

Touch the button B to set the low, medium and high mist level.

C Night Light

Touch button C to turn light ON/OFF.

D Timer Setting

Touch button D to choose the operating time. It can be set 2, 4, and 8 hours or for continuously operation.

Run Continuously

The unit could run continuously if you don't set the timer. Toggle through TIMER button until the corresponding LED goes off. It means it is in continuous operation.

E Sleep Mode

Touch button E, and the LED light flashes 3 seconds, which means the humidifier is in SLEEP MODE. At sleep mode, it will turn all the lights (indicators) off and the mist level remains the last setting you set. Simply touch sleep button to cancel the sleep mode.

CLEAN AND MAINTAIN YOUR DREAMEGG

Note:

1. Always unplug before cleaning or moving the unit.
2. Always empty the water tank and pour any left water in the base on a daily basis.
3. Clean the humidifier once or twice a week as maintenance routine.

1. Water Tank.

Empty water tank first and add white vinegar with fresh cool water to the tank. Soak it for 5 minutes then rinse. (vinegar:water=1:10)

2. Reservoir.

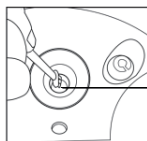

Wash out the unit with fresh water and white vinegar (steps as above). Please clean the ultrasonic disc with a soft brush or cloth if needed.

Note: Do NOT submerge the base of the unit into water, or allow water to flow inside the dry air inlet.

3. Ultrasonic Disk.

Use a soft brush to gently clean disk and remove buildups and deposits.

Do NOT scrub the ultrasonic disk, or it may cause malfunction.

Ultrasonic Disk

4. Mist Tube.

Take out the mist nozzle and the cap. Clean the mist tube with fresh running water. Bottle cleaning brush is also recommended if necessary.

5. DESCALING

Cleaning and descaling (if necessary) may be required weekly or every other week to optimize its performance and maintain your health. If the tap water or scale becomes difficult to remove with brush, refer to the following method:

1. Add 1 tsp white vinegar and 1 tsp water to the tank.
2. Shake the tank for 1 minute.
3. Soak them for 20 minutes.
4. Pour the mixture to the base and clean the reservoir with a soft brush or piece of cloth. Clean the mist nozzle and tube if needed.
5. Rinse all the parts with fresh water to remove scale and the remaining vinegar.

Noted: Please DO NOT let water go into the air inlet (near the reservoir) to avoid leakage.

6. STORAGE

- Follow the Cleaning and Descaling instructions when the humidifier will be not in use for a long period.
- Dry the humidifier completely before storing. DO NOT store with water inside the Base/Tank.
- Pack the unit properly and store it in a cool, dry place.

Noted: If you have problem with the unit, DO NOT attempt to open the motor housing yourself. Doing so may void your warranty and cause damage to the humidifier or personal injury.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Mist doesn't come out.	Power cable is not plugged correctly.	Ensure the power cord is plugged tightly into the outlet or change another outlet to check.
	Power button has not been turned on.	Please lightly tap the button with your finger instead of pressing it.
	Water level is low.	Add more water for continuous use.
	Ultrasonic disk is dirty.	Clean the ultrasonic disk. See CLEAN AND MAINTAIN YOUR DREAMEGG. (page 8)

Mist doesn't come out.	Hard tap water is used.	Replace with softer water or distilled water instead.
	Transducer is stuck.	Please check the reservoir to adjust the transducer if it is stuck.
	Timer setting is on.	Cancel the timer. See Timer Setting. (page 7)
	Unit is defective or malfunction.	Immediately discontinue use and contact Customer Service. (page 13)
Mist output is not thick as supposed.	Ultrasonic disk is dirty.	Clean the ultrasonic disk. See CLEAN AND MAINTAIN YOUR DREAMEGG. (page 8)
	Water tank doesn't sit well on the base.	Make sure the water tank and the base connect well.
	Towel or carpet is placed under the unit.	Take them away for proper airflow.
	Water temperature is too cold.	Replace with cool(not cold) water and soft water.
Water leaks from the unit.	Unit is placed in a slant or soft surface.	Place the unit on a hard, flat surface.
	Water tank doesn't sit well on the base.	Make sure the water tank and the base connect well.
	Tank cap doesn't switch well.	Check and make sure the tank cap is switched tightly.
	Towel or carpet is placed under the unit.	Take them away for proper airflow.
	Tank cap/ tank/ base has cracks.	Immediately discontinue use and contact Customer Service. (page 13)

Water leaks from the unit.	Water goes in air inlet accidentally when adding or draining water.	Avoid water going in air inlet.
	Humidifier is defective or malfunction.	Immediately discontinue use and contact Customer Service. (page 13)
Power indicator turns red.	Water level runs low.	Add more water and restart for continuous use.
Unit doesn't respond to button controls.	Humidifier is defective or malfunction.	Discontinue use, contact Customer Service. (page 13)
White dust is forming on nearby furniture.	Hard water is used.	Hard water contains a certain kind of dust. Dust in the air settled. Use distilled water if necessary.
Water dripping when refilling water.	Water remaining on the bottom of the tank.	Wipe the water tank/tilt to drain the water before refilling water.
Noise turns loud.	Towel/ carpet or anything soft is placed under the unit.	Take them away if any.
Mist comes out with a bad smell.	Poor maintenance or dirty water.	Clean the product thoroughly and fill with fresh water.

For other issues you might have with the unit, contact us at supportjp@mydreamegg.com, we will reply in 24 hours and offer a satisfactory solution for you.

WARRANTY

Dreamegg cool mist humidifiers come with 365 days replacement warranty and 60 days money back guarantee, which starts from the purchase date of the order. A defect arises or a valid claim is received within the warranty period at its option. Dreamegg will replace the product with a new item.

Obtaining Service: To obtain warranty service , please email to supportip@mydreamegg.com with your order ID to register.

Note: The use of water additives including ethereal/essential oils, fragrances, eucalyptus, water conditioners, etc. will damage the appliance materials and as a consequence the whole unit. Any use of such additives will void the manufactures warranty.
