## Specification

Item NO.	LGHB01-100	LGHB01-150	LGHB01-200
Power	100W	150W	200W
LED Qty	120PCS	180PCS	240PCS
Color Temperature	5000K		
System Efficacy	140Lm/W		
Beam Angle	120°		
CRI	> 80Ra		
System Power Consumption	±5W		
Waterproof Grade	IP65		
Input Voltage	AC 100-277V		
Life span	> 50,000 Hours		
Operating Temperature	-50 °F - 140 °F		

## WARNING

Only qualified personnel should install the lamp and ensure they follow the instruction manual. Any improper installation might cause falling, electric shock, fire, or other injury, damage or hazard.

## Important Safety Information

1. To avoid damage, electric shock or fire, please do not modify the lamp without confirming with the supplier first.
2. If the external flexible cable or cord of the lamp is damaged, it should only be replaced by the supplier, a service agent or qualified person.
3. Any improper installation might cause falling, electric shock, fire, or other injury, damage or hazard.
4. Please disconnect power before installation or any maintenance of the lamp.
5. Please disconnect power if it begins to smoke or emit odors, since fire or electric shock may occur.
6. Ask qualified electrician to inspect and maintain the light.
7. Please do not touch the power supply when the lamp is operating.
8. Avoid looking directly into the lamp when illuminated.
9. Pay attention to fire, electricity and shock.
10. Be aware that sulfides, corrosive and soluble chemicals can damage the lampshade and even cause the bulb to die.
11. The normal use environment temperature is -30°C ~ 50°C . Exceeding this range will adversely affect product life.
