- A screenshot of an iPhone home screen. At the top, the status bar shows the time '4:28', signal strength bars, '4G' network, and a battery icon. Below the status bar is a dock containing three icons: a red circular icon with a white 'TV' logo, a blue circular icon with a white plus sign, and a white icon with a red 'X'. The main area of the screen is a light gray background. In the center, there is a white rounded rectangle containing a small icon of a white cylindrical device with a black dot at the bottom, and the text 'LV- PWL2' to its right.

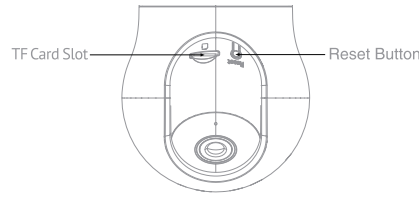

-
- A cross-sectional diagram of the sensor assembly. It shows a central circular component labeled 'Microphone' surrounded by a ring labeled 'Photoreistor'. This assembly is housed within a larger structure with a 'Lens' on the front. An 'IR LED' is also indicated on the side of the housing.

- A diagram illustrating the recommended distance for sound therapy. On the left is a line drawing of a speaker. On the right is a line drawing of a smartphone. A light blue cone of sound originates from the speaker and points towards the smartphone. Below the speaker and smartphone, a horizontal double-headed arrow is labeled "6-8 inches", indicating the distance between them.

- If the pairing is not successful, press the Reset button for 5 seconds until you hear a beep and start again. Or check the FAQ section in the User Manual for more troubleshooting steps.
