USB Cable

Specifications

1. Polar Pattern: Cardioid

2. Performance Parameter

| Transducer	Electret Condenser
Frequency Response	20Hz-20KHz
Impedance	≤2.2KΩ
Sensitivity	-45dB+3dB re 1 Volt/Pascal
Sampling Rate	48KHz
Power Supply	5V/1A
Dimensions	47mm x 47mm x 156mm
Output	USB
Net Weight	294.5g

Computer Setup

1. Connect EM1 Microphone to your computer with USB cable provided. Make sure the indicating light is on. Driver may take a few seconds to install automatically.

2. In case the EM1 Microphone isn't chosen as priority audio input, you would need to set it by yourself. Click "System Preference".

3. Click "Sound " to display the Sound preference panel.
4. Click the Input tab, select USB MIC AUDIO (or Moman EM1 Microphone) as the device for sound input.

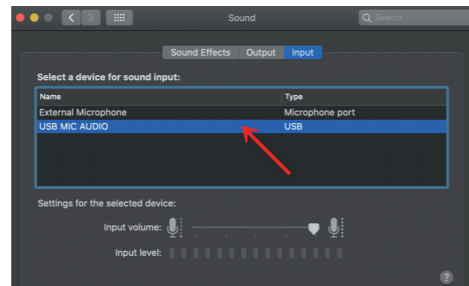

NOTICE:

1. If the USB device couldn't be identified, please restart your computer and replug the mic into other USB port.

2. The driver might install again if you plug into a different USB port.

Windows (i.e. Windows 10)

1.Connect EM1 Microphone to your computer with USB cable provided. Make sure the indicating light is on. Driver may take a few seconds to install automatically.

2.In case the EM1 Microphone isn't chosen as priority audio input, you would need to set it by yourself. Click "System Preference- Privacy-Microphone" and allow access to the microphone.

3. Select USB MIC AUDIO (or Moman EM1 Microphone) as the Input device. When you speak to the mic, the bar-type icon will turn blue and bounce. If it is still unchanged, please reboot your computer and replug the mic in to other USB port.

4. Choose your speaker as your output device. If you want to listen to the computer sound through the 3.5mm port in the USB microphone, select USB MIC AUDIO (or Moman EM1 Microphone).

## Use EM1 Microphone for Video Conferencing (i.e. Skype)

1.Connect EM1 Microphone to your computer with USB cable provided. Make sure the indicating light is on. Driver may take a few seconds to install automatically.

2.In case the EM1 Microphone isn't chosen as priority audio input, you would need to set it by yourself. Click "System Preference- Privacy-Microphone" and allow access to the microphone.

3. Select USB MIC AUDIO (or Moman EM1 Microphone) as the Input device. When you speak to the mic, the bar-type icon will turn blue and bounce. If it is still unchanged, please reboot your computer and replug the mic in to other USB port.
