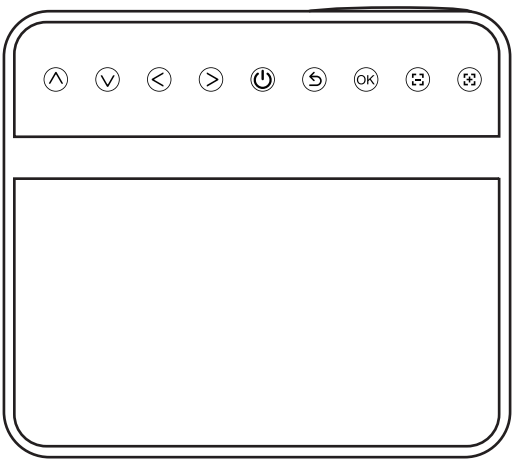
VIDEO PROJECTOR



INSTRUCTION MANUAL

INSPIRE BRIGHTER LIVING

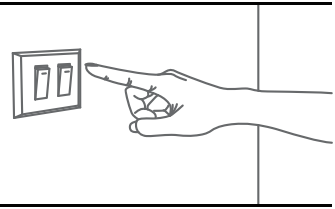
Follow these safety instructions and read these helpful tips before setting up and using the projector.

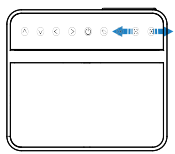
IMPORTANT SAFETY INSTRUCTIONS

	Do not disassemble the projector. If needed, please contact your dealer for repair/replacement.
	Do not use the different power source, it may result in fire or electric shock. Please use the indicated type of power source.
	Do not look into the lens when the projector is operating. The bright light may damage your eyes.
	Do not use the projector near water or sources of heat.
	Place the projector on an even surface or stable or stable stand. If the projector is mounted on a ceiling, it should be installed by qualified mounting hardware which designed for use with this projector.
	Unplug the projector after powering down.
	In order to maintain the performance and reliability of the projector, please leave at least 30CM between the projector and the wall.

2 HELPFUL TIPS

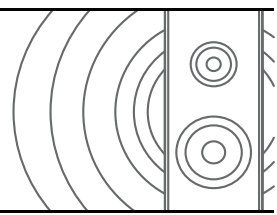
For incredible clarity and optimum results. Operating the projector in a dark environment is recommended.

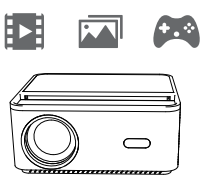




You can slide the focus wheel left and right until you get a clear image.

Please understand that the projector makes noise for heat dissipation during working. Nevertheless, it will not affect watching experiences when connected to an audio device.





Projector is ideal for home entertainment, such as videos watching, photos viewing and games playing etc. Please be advised that the projector is not for business data presentation.

Projector includes these special and outstanding features:

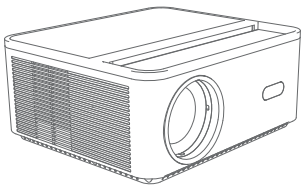
24 PROJECTOR CLEANING AND MAINTENANCE

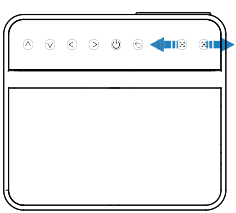
	For optimum watching experiences and longer lifetime, please clean the projector periodically.
	For projector maintenance, please seek help from or under the guidance of specified persons.
	If it is necessary to replace any parts of the projector, please feel free to contact the dealer or qualified customer service team.
	Before cleaning and maintaining the projector, please turn off the projector and unplug the power cord.



Always keep the projector clean to avoid affecting images quality and ventilation system during working caused by dust, dirt and smudge.

CLEANING THE PROJECTOR CASE

Use a piece of dry, soft and lint-free cloth to remove dust or dirt;

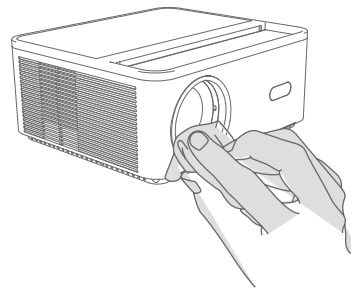


use a piece of moistened and soft cloth with a little water and mild soap to remove stubborn dirt.

26 CLEANING THE LENS

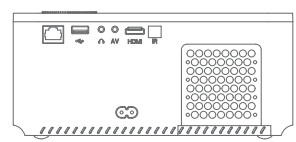
Gently wipe the lens with a piece of dry and non-abrasive cloth or paper to remove dust or dirt.

Gently wipe the lens by a piece of moistened (with a little water), non-abrasive and lint-free cloth to remove stubborn dirt.



CLEANING THE VENTS

Use a soft brush or a special designed small vacuum to remove the dust.



Note:
For cleaning process do Not spray any liquid(included water) directly on any parts of the projector. Do not use the chemical liquid to clean the projector which will damage the projector.

		1. Open battery cover of the remote control;	2. Insert batteries with the + and - ends as the indicators on the battery box showed;	3. Close battery cover of the remote control properly;

PROJECTOR MAINTENANCE

For this part, we only offer the basic maintaining suggestions. If you have any further requirements (replacement or repair), please contact the dealer or qualified customer service team.

28 TECHNICAL SPECIFICATIONS

To know product better and use projector properly, please read the table below:

Native Resolution	1920 x 1080 pixels
Light	LED
Keystone	Auto Keystone
Screen Size	22-230inch
Projection Distance	0.69-6.3m
Display Ratio Screen Scale	4:3 / 16:9
Interface	1 x RJ45 Port
	1 x Audio Out
	1 x HDMI
	1 x USB
	1 x AV
	1 x Power port
Consumption	100W ± 10W
Power Supply	AC90~260V
Operating Temperature	-10℃~45℃
Supported Languages	Multi-lingual
Product Size	201*101*223mm

As a high-tech product, the projector combined with optical, mechanical and electronic componts and complicated circuit inside. To quickly solve your problems and to prevent improper using and settings, please follow operations below. If your problems or enquiries cannot be eliminated after reading the table, please do not hesitate to contact us.

Problem description	Troubleshooting
The projector won't turn on	Check if the power source is the indicated one and the power cord is connected correctly. Make sure the power cord is not defective.
Lamp does not work after turning on the projector	Ensure power cord and power source are connected correctly. If the lamp gets damages, please contact us to replace the lamp
No images	Check whether the format and resolution of images are supported by the projector.
No response from remote control	Check whether batteries of the remote control run out are installed correctly. Make sure there is no obstacle between the remote control and IR receiver. Always use the remote control within its effective distance(4m)
Obscure/blurred images	Please rotate the focus ring, adjust the keystone and throw distance until the projected image is clear. Ensure the lens is clean.
Abnormal sound	Ensure the audio device is connected correctly and function well. Check if the mute or minimum volume mode is set.
