### Installation

#### Multi-Functional Portable Voice Play Spot Alarm

Fix magnetic iron part on the wall:

1. Fix magnetic iron part on the flat and clean wall
2. The device is magnetically attracted to the iron plate.

The alarm device is magnetically attracted to the refrigerator door or carried in your pocket.

When you need to replace the battery, slide the battery back cover to replace the battery.

## PIR detector

1. Install on the wall, about 1.8-2m above the floor.

Installation way 1:

Use 3M super double-sided tape to fix the PIR detector on the wall. This way is suitable for the wall which is smooth and hard;

Installation way 2:

Use the screws to fix the stand of the PIR. This way is suitable for most of the walls, we recommend to use this way.

Loose the stand you can adjust the angle of the PIR.

2. Installation Suggestions:

Note: This PIR detector detection angle (detection distance  $\approx 7\text{m}$  / detection angle  $\approx 90^\circ$ )

3. Notifications:

Away from heat;

Away from the  
straight sunshine;

Don't install it  
outdoor;

Don't install near  
the waving curtain.

## Door Sensor

Use double side tape to fix the door sensor on door or window.

If need replace the battery:

Pls use the screw driver to take off the back cover, and then change the battery.

## Doorbell coding

Press and hold 5s until the indicator light is on. Enter the doorbell coding mode. After pressing [Multi-function key] to choose the favorite music, trigger doorbell, one "beep" sound, indicates that the coding is successful, two "beep" sound, indicates repeated coding.

Clear the code: In the doorbell coding mode, long press till one long "beep" sound, indicates that the code has been cleared.

## Zone coding

Press and hold 5s to one "beep" sound and the indicator light is on, enter [zone coding mode],

At this moment, trigger the PIR detector, the door magnetic sensor, the emergency button or the remote controller, one "beep" sound, indicates that the coding is successful, two "beep" sound, indicates repeated coding.

Note: Support continuous coding; if the indicator is always on, press it shortly, the indicator light will be off, exit the coding mode;

Clear the code: in the zone coding mode, long press till one long "beep" sound, indicates that the code has been cleared.

## Voice recording

[Zone 1], [Zone 2], and [Zone 3] support voice recording. Take [Zone 1] recording as an example, [Zone 2] and [Zone 3] are similar.

Press and hold [Multi-Function Key] until [Indicator light6] flashes slowly, indicates that the device enters voice recording mode. Press and hold [Zone 1] till one "beep" sound and [Indicator light1] flashes slowly. At this time, recording starts, and after 10s, the indicator light is on. When the light is off,

the recording is finished and the system automatically saves the recording. In the recording mode, press [Zone 1] to play the recording, and press [Multi-function key] to exit [Recording mode].

## Low battery reminder

The indicator 1, 2, 3, and 4 are always on, means the device lack of power, need to change the battery.

## System disarm
