

Biotin-conjugated Donkey Anti-Rabbit IgG

Cat. No.	D110055
Package	100 µl / 1 ml
Storage	-20°C, pH 7.4 PBS, 0.05% Sodium Azide, 40% Glycerol

Product overview

Product Description	Biotin-conjugated Donkey Anti-Rabbit IgG
Applications	1/10000-200000 for ELISA 1/200-2000 for enzyme immunohisto/cytochemistry 1/100-500 for Flow Cytometer and fluorescence immunohisto/cytochemistry
Conjugate	Biotin
Concentration	0.3 mg/ml
Fluorophore/Peroxidase/Biotin-SP	Biotin-SP:d-Biotinyl-ε-aminocaproic acid-NHS ester
Stabilizer	15 mg/ml Bovine Serum Albumin (IgG-Free, Protease-Free)
Purity	The antibody was purified from antisera by immunoaffinity chromatography using antigens coupled to agarose beads

Background

Antibody Specificity: Based on immunoelectrophoresis and/or ELISA, the antibody reacts with whole molecule rabbit IgG. It also reacts with the light chains of other rabbit immunoglobulins. No antibody was detected against non-immunoglobulin serum proteins. The antibody has been tested by ELISA and/or solid-phase adsorbed to ensure minimal cross-reaction with bovine, chicken, goat, guinea pig, Syrian hamster, horse, human, mouse, rat, and sheep serum proteins, but it may cross-react with immunoglobulins from other species.

Note

Note: For in vitro research use only, not for diagnostic or therapeutic use. This product is not a medical device.
