

DELAWARE'S E-BIKE LAW

DELAWARE'S E-BIKE LAW FOR THE ROAD

- » In Delaware, an e-bike is defined as a "bicycle," so long as the e-bike's motor is under 750w, has a maximum speed of 20mph and has operable pedals. The same rules of the road apply to both e-bikes and human-powered bicycles.
- » E-bikes are not subject to the registration, licensing or insurance requirements that apply to motor vehicles.

- » As with regular bicycles, helmets are required for riders and passengers under 18 year of age. There is no age minimum for e-bike use. E-bikes are allowed on sidewalks and bike paths.

* The following Delaware laws are referenced: Del. Code tit. 21 § 1-101(2); tit. 21 § 41.

eMTB GUIDELINES

- » On federal, state, county and local trails, e-mountain bike (eMTB) access varies significantly.
- » Generally, any natural surface trail that is designated as open to both motorized and non-motorized uses is also open to eMTBs.
- » eMTBs may not be allowed on trails managed for non-motorized activities.
- » Do not ride your eMTB in areas where the local rules are unclear. Ride legally and only on authorized trails to show that mountain bikers are responsible trail users.
- » When in doubt, ask your local land manager about access to specific trails. Local land rules change frequently.

DELAWARE'S E-BIKE LAW FOR TRAILS

- » LOCAL: Consult your local land management agency.
- » STATE: Delaware State Parks does not allow e-bikes on trails. Contact the department for the most up to date information. PeopleForBikes is monitoring this policy and will update this document as needed.
- » FEDERAL: On federal lands, eMTBs are considered motorized vehicles and have access to motorized trails. However, Delaware has minimal federal lands and fewer, if any, where mountain biking is allowed.

CHECK OUT

- » Haoqi Leopard belongs to the Class 2.

With an e-bike, bicyclists can ride more often, farther, and for more trips.

Electric bicycles are designed to be as safe as traditional bicycles, do not compromise consumer safety, and benefit bicyclists who may be discouraged from riding a traditional bicycle due to limited physical fitness, age, disability or convenience.

In many states, e-bikes are regulated under antiquated laws primarily aimed at combustion engine vehicles such as mopeds or scooters. HaoqiEBikes is clarifying state laws governing the use of e-bikes in the U.S. Every state's law is different, but the objective is to ensure that low-speed e-bikes are regulated similarly to traditional, human-powered bicycles.

GREAT eMTB RIDES IN DELAWARE

- » **Lap of the Bays**
Rehoboth Beach | 52.5 miles
- » **Amish Country Gravel Route**
Dover | 62 miles

Fat tire all terrain electric bike.
