

# MARYLAND'S E-BIKE LAW

## MARYLAND'S E-BIKE LAW FOR THE ROAD

- » E-bikes are regulated like bicycles. The same rules of the road apply to both e-bikes and human-powered bicycles.
- » E-bikes are not subject to the registration, licensing or insurance requirements that apply to motor vehicles.
- » Maryland designates three classes of e-bikes:
  - Class 1: Bicycle equipped with a motor that provides assistance only when the rider is pedaling, and that ceases to provide assistance when the e-bike reaches 20 mph.
  - Class 2: Bicycle equipped with a throttle-actuated motor, and that ceases to provide assistance when the e-bike reaches 20 mph.
  - Class 3: Bicycle equipped with a motor that provides assistance only when the rider is pedaling, and that ceases to provide assistance when the e-bike reaches 28 mph.
- » Class 3 e-bikes are not allowed on a bicycle path unless it is adjacent to a highway or right-of-way, or they are specifically allowed by the local authority or state agency with jurisdiction.
- » E-bikes are not permitted on sidewalks unless expressly allowed.
- » The local authority or state agency with jurisdiction can restrict where e-bikes are allowed to ride. When in doubt, check locally for local rules and regulations.
- » You must be 16 or older to operate a class 3 e-bike, although a person under 16 may ride a class 3 e-bike as a passenger.

\* The following Maryland laws are referenced: Md. Code Trans. Law § 11-117.1, 11-104, 21-1205.1, 21-1205.2, 22-420.

## eMTB GUIDELINES

- » On federal, state, county and local trails, e-mountain bike (eMTB) access varies significantly.
- » Generally, any natural surface trail that is designated as open to both motorized and non-motorized uses is also open to eMTBs.
- » eMTBs may not be allowed on trails managed for non-motorized activities.
- » Do not ride your eMTB in areas where the local rules are unclear. Ride legally and only on authorized trails to show that mountain bikers are responsible trail users.
- » When in doubt, ask your local land manager about access to specific trails. Local land rules change frequently.

## CHECK OUT

- » Haoqi Leopard belongs to the Class 2.
- » eMTB Haoqi Leopard at <https://haoqiebike.com/>

## With an e-bike, bicyclists can ride more often, farther, and for more trips.

Electric bicycles are designed to be as safe as traditional bicycles, do not compromise consumer safety, and benefit bicyclists who may be discouraged from riding a traditional bicycle due to limited physical fitness, age, disability or convenience.

In many states, e-bikes are regulated under antiquated laws primarily aimed at combustion engine vehicles such as mopeds or scooters. HaoqiEBikes is clarifying state laws governing the use of e-bikes in the U.S. Every state's law is different, but the objective is to ensure that low-speed e-bikes are regulated similarly to traditional, human-powered bicycles.

## MARYLAND'S E-BIKE LAW FOR TRAILS

- » LOCAL: Consult your local land management agency.
- » STATE: The Maryland Park Service's current position is that e-bikes are motorized bicycles, and for access purposes, managed alongside dirtbikes, quads, etc. on Maryland state lands. Contact the department for the most up to date information. PeopleForBikes is monitoring this policy and will update this document as needed.
- » FEDERAL: There is little federal land managed for recreation in Maryland. However, for reference, eMTBs are considered motorized vehicles and have access to motorized trails on federal lands.

## GREAT eMTB RIDES IN MARYLAND

- » **Sugarloaf/Braddock Heights**  
Frederick | 61 miles
- » **Frederick Gravel Route**  
Frederick | 46 miles
