

MISSOURI'S ELECTRIC BICYCLE LAW

MISSOURI'S ELECTRIC BICYCLE LAW FOR THE ROAD

- » Electric bicycles are regulated like bicycles. The same rules of the road apply to both electric bicycles and human-powered bicycles.
- » Electric bicycles are not subject to the registration, licensing, or insurance requirements that apply to motor vehicles.
- » Missouri designates three classes of electric bicycles:
 - » Class 1: Bicycle equipped with a motor that provides assistance only when the rider is pedaling, and that ceases to provide assistance when the electric bicycle reaches 20 mph.
 - » Class 2: Bicycle equipped with a throttle-actuated motor, that ceases to provide assistance when the electric bicycle reaches 20 mph.

* The following Missouri laws are referenced: Mo Rev. Stat. §§ 300.010, 301.010, 307.194.

- » Class 3: Bicycle equipped with a motor that provides assistance only when the rider is pedaling, and that ceases to provide assistance when the electric bicycle reaches 28 mph.
- » All classes of electric bicycles may be ride on bicycle or multi-use paths where bicycles are permitted.
- » No person under sixteen years of age shall operate a class 3 electric bicycle but they may ride as a passenger.
- » Local governments have the authority to restrict the use of electric bicycles on a bicycle path or multi-use path. When in doubt, check with your town, city, or county for local rules and regulations.

eMTB GUIDELINES

- » On federal, state, county and local trails, e-mountain bike (eMTB) access varies significantly.
- » Generally, any natural surface trail that is designated as open to both motorized and non-motorized uses is also open to eMTBs.
- » eMTBs may not be allowed on trails managed for non-motorized activities.
- » Do not ride your eMTB in areas where the local rules are unclear. Ride legally and only on authorized trails to show that mountain bikers are responsible trail users.
- » When in doubt, ask your local land manager about access to specific trails. Local land rules change frequently.

CHECK OUT

- » Haoqi Leopard belongs to the Class 2.
- » eMTB Haoqi Leopard at <https://haoqiebike.com/>

MISSOURI'S ELECTRIC BICYCLE LAW FOR TRAILS

- » LOCAL: Consult your local land management agency.
- » STATE: In Missouri State Parks allows Class 1 and 2 electric bicycles allowed for individuals who need accessibility assistance. Contact the department for the most up to date information. PeopleForBikes is monitoring this policy and will update this document as needed.
- » FEDERAL: The majority of public lands managed for recreation in Missouri are under the jurisdiction of the U.S. Forest Service, where eMTBs are considered motorized vehicles and have access to motorized trails. Contact the U.S. Forest Service Eastern Regional Office for more information.

GREAT eMTB RIDES IN MISSOURI

- » **Finger Lakes SP ORV Trail**
Columbia | 4 miles
- » **Devil's Elbow Gravel Route**
Rolla | 25 miles

With an e-bike, bicyclists can ride more often, farther, and for more trips.

Electric bicycles are designed to be as safe as traditional bicycles, do not compromise consumer safety, and benefit bicyclists who may be discouraged from riding a traditional bicycle due to limited physical fitness, age, disability or convenience.

In many states, e-bikes are regulated under antiquated laws primarily aimed at combustion engine vehicles such as mopeds or scooters. HaoqiEBikes is clarifying state laws governing the use of e-bikes in the U.S. Every state's law is different, but the objective is to ensure that low-speed e-bikes are regulated similarly to traditional, human-powered bicycles.

Fat tire all terrain electric bike.
