The Ultimate UWB Follow Golf Cart

A wide-angle photograph of a golf course. In the foreground, a vibrant green fairway leads to a circular sand trap. The background is a dense forest of tall, thin pine trees under a bright blue sky with scattered white clouds. A semi-transparent dark grey banner is overlaid across the middle of the image, containing white text.

**Enjoy the walk and simply focus on the game you love.**

A real sports car powered by imagination.

## The World's ONLY UWB Follow Golf Cart

Ultra-wideband(UWB) is a radio technology that can use a very low energy level for short-range, high-bandwidth communications over a large portion of the radio spectrum.

UWB has traditional applications in non-cooperative radar imaging. Most recent applications target sensor data collection, precision locating and tracking applications.

The precise real-time location system that locates real time applications with accuracy of 10~30cm position and orientation.

**4** modes of operation:  
auto follow, remote control,  
power assist and freewheel
