### Golden Wing Service Bulletin

**Subject:** vehicle cannot start

**Bulletin No. :** GW14-05-01

**Model Concerned:** Rex110/Bull

**Date:** 2021/11/11

125/Fun 125

**Page:** 1

#### **Description:**

The atv doesn't work I just put it together it won't start.

#### **Solution:**

The reason for ATV can't start:

No electricity or no gas.

there is inspection method:

1. Whether the wire end of the combination switch falls off
2. Hold the brake firmly, the brake light turns on, and press the start switch. Whether the starting motor has a starting sound.
3. Check whether there is fire in the high-pressure cap. If there is no fire, check whether the igniter and magneto plugs are disconnected.
4. Whether the emergency flame out of the combination switch is pressed.
5. Whether the remote flame out is not turned on.
