Q.1

What should you do if your keyboard is not working?

To ensure your keyboard works properly with your computer, connect it to your devices through Bluetooth properly. If your device has already connected, but the keyboard still doesn't work, the connection may have been lost. Here are some possible reasons for this:

1. Low battery – Charging your keyboard.
2. Wrong channel – Ensure the keyboard is in the correct connection channel (BT1/BT2/BT3).
3. Use on a metal surface – Move the keyboard away from metal surfaces.
4. Radio Frequency (RF) interference – Move away from devices such as wireless speakers, computer power supplies, mobile phones, displays, and garage door remote control switches.

Wireless speaker

Computer power supplies

Mobile phone

Display

Garage door remote control switch

*Troubleshoot the problem by checking these factors and other potential issues.

Q.2

How can you fix frequent disconnections of your keyboard?

If your keyboard keeps losing connection and you have to keep reconnecting it, here are some solutions you can try:

1. Keep other electrical equipment at least 20 cm (8 inches) away from your keyboard.
2. Move your keyboard closer to your device.
3. Disconnect the Bluetooth connection and try to reconnect.

Move the product closer to the computer or tablet

Q.3

Does the keyboard have a sleep mode?

The Nulea RT06 keyboard has an intelligent sleep mode that helps conserve battery life. The keyboard enters sleep mode 30 minutes after you last used it. To wake it up, simply press any key.

Q.4

Are the halves able to separate?

This keyboard is not meant to be used separately. The keyboard is a single unit, and unauthorized separation of the keyboard will result in damage and render it unusable.

Work with your favorite

At Nulea, we believe you should choose the work you love and work in an environment that makes you comfortable and happy.

Nulea RT06 is designed with both aesthetics and functionality in mind. The sleek, modern and portable design will complement any setup.

We hope RT06 will become your favorite foldable keyboard and first choice, OR DO NOT HESITATE to contact support@nulea.com for money back. Your suggestion to help us improve is also highly appreciated.

Hardware Basics

- ① Power indicator/Charging indicator/Low battery indicator
- ② Caps Lock indicator
- ③ Bluetooth indicator
- ④ Charging port

Indicators & Definition

No.	Indicator	Color	Definition
①	Power indicator	Green for 3s	Turns green for 3 seconds.
①	Charging indicator	Red-Green	Red while charging.Green when fully charged.
①	Low battery indicator	Flash Red	Flashes red when battery is low.
②	Caps Lock indicator	Green	Green light is on.
③	Bluetooth indicator (BT1)	Flash Green Slowly	Press Fn+Q to BT1, green indicator flashes slowly.
③	Bluetooth indicator (BT2)	Flash Blue Slowly	Press Fn+W to BT2, blue indicator flashes slowly.

③	Bluetooth indicator	Flash Blue	Long press Fn+Q/W/E for 3s to enter into pairing mode.

Power ON/OFF

Power On: Unfold the keyboard, green indicators will flash 3s then off.
Power Off: Fold the keyboard.

Sleep Mode

When the keyboard is in the unfolded state, it will enter sleep mode after being idle for 30 minutes. If you want to enter sleep mode immediately, simply fold the keyboard.

Charging

When indicator light ① is flashing red, it indicates low battery on the keyboard. Please recharge the keyboard.

Step 1. Connect one end of the included type-c cable to a USB charger, and connect the opposite end to the charging slot on the keyboard.

(Note: Output: DC 5 V / 500mA; USB charger is not included)

Step 2. The charging indicator will glow red while the keyboard is charging. When the charging indicator light changes from red to green, it indicates that the charging is complete. A full charge takes approximately 2 hours.

Pair with 2nd device

Step 1. Press "Fn+W" to enter channel 2 mode.

Step 2. Long press "Fn+W" for 3 seconds to enter pairing mode, BT2 indicator will flash BLUE and start to search the available Bluetooth device. Find Bluetooth "Nulea RT06" on your device and click to connect it. The status indicator will be off after successfully paired.

Pair with 3rd device

Step 1. Press "Fn+E" to enter channel 3 mode.

Step 2. Long press "Fn+E" for 3 seconds to enter pairing mode, BT3 indicator will flash RED and start to search the available Bluetooth device. Find Bluetooth "Nulea RT06" on your device and click to connect it. The status indicator will be off after successfully paired.
