We can provide a strong after-sales service guarantee and reasonable advice and guide for your business.**

**The principle of WRAPMASTER™ is "Premium product and Friendly service make multi-win." WRAPMASTER™ will make more and more dealers get more value as usual**

## TPU Paint Protection Film

WM21 Series

## TPU Paint Protection Film

When you have a new car, you want to make sure that any damage is kept away from the paint—the TPU self-healing paint protection film helps you realize this. Minor damage will not be visible. Paint protection film made of TPU that self-heals may be mended automatically. Scratches go away, and chips form in the gaps. Improve the paint surface's brightness by 40%, precisely cover scratches, no-yellowing and isolate damage from UV rays and acid rain, effectively keep the paint surface from aging, and come with a lengthy guarantee. TPU ensures that your product's finish is clean and appealing for years to come.

They allow you to flaunt your car's original paint job's inherent attractiveness. There are no foggy hues or tints in the film, allowing the natural color to come through. Your car can also be washed and waxed as usual.

Model	TPUT01,TPUH02,TPUP03,TPUM04
Brand	Wrapmaster
Size:	1.52x15M/5x49FT
Color	TPU transparent gloss/matte
Adhesives	Henkle solvent-based, repositionable, removable,permanent
Film Thickness	6.5MIL/7.5MIL
Glue thickness	1.2mil
Repair coating	10µm Japanese Cashew coating
Release paper	Transparent PET
Installation method	wet
Gram Weight of Release Paper	160gsm embossing paper
Expected durability	5-10years
Characteristic	Heat Self-Healing,Pressure-sensitive Glue,Super Stretchable,Recoverable,Super toughness & Anti-scratched,Resistance high and low temperature,Anti-UV resistant, No-yellowing,Swirl Resistance,Anti-fouling,Anti-corrosion
Applications	car, truck or SUV. Heck,Boat,motorcycle,architectural decoration
Storing period	3 years if stored in +10°C to +25°C, relative humidity 50%, in original package, away from direct sunlight, clean and dry place
Temperature resistance	From -50°C to +130°C

## PET Liner Cast Car Wrap

WM21 Series

### PET Liner Cast Car Wrap

If you are looking for a high performance car wrap, consider purchasing premium vinyl wrap with PET liner. This car wrap uses high quality polymeric vinyl release liner, technological innovation and a revolutionary PET double layer lamination method (super exhaust effect) to give your car a strong and shiny finish. To create a stunning mirror finish, make the car surface smooth and free of orange peel. Easy and quick installation thanks to the super exhaust effect release. The PET material is elastic and does not change color when stretched. Every edge can be wrapped effortlessly. When removing Henkel's solvent-based acrylic adhesive, no glue is left behind, effectively protecting your car paint and keeping your car more valuable.

Model	PET Liner Super Gloss metallic and crystal
Face Only Thickness	3.7-4.1mil
Adhesive Thickness	1.6mil
Type of film	Premium Cast Vinyl Film
Adhesives	Henkel solvent-based, repositionable, removable, permanent
Release liner	High Shrinkage PET Liner, 3mil
Heat Resistance	-61°F to 225°F (-60°C to 107°C)
Film Stretch Rate	20+pascal
Dimensional stability	shrinkage less than 2%
Glue Weight	30g/m <sup>2</sup> ±2gm <sup>2</sup>
Chemical Resistance	water, dirt, grease, salt, weak acids oil resist
Expected durability	3-5years
Applications	Full Vehicle Wraps & Graphics, Architectural Signage, Buses, Cars, Trucks & Vans, Mirrors, Bumpers, Hoods, Roofs, Door handles, Vehicle lettering, Interior trim, Watercraft, Decals & Stripes, Accents & Trim, Dash panels, Electronics, Skins & More.

WM20 Series

Wrapmaster Colorflow Shifting Vinyl Wrap is a Premium Wrapping Cast Film, it is a premium, high-gloss vinyl and satin with a color shift effect. Depending on your viewing angle, you'll see a vibrant, gem-like display of different color cycling through to lighter hues and back again. And, since the vehicle wraps is a full mil thicker than formed Flip films, it's easier to work with and stretch. There are fresh spring green (green to gold) and auroral color (purple shift to blue),

Colorflow Shifting Vinyl Wrap auroral color is a high-gloss, shade-shifting effect that slides from cyan to purple and back again then this film is for you. Made from cast, dual layer film, this Supreme Wrapping film comes to you on a double-rhonbus liner that impresses air-release channels into the adhesives.

Model	MD SD series 1025-1028
Name	Colorflow Shifting Vinyl Wrap
Thickness	3mil
Heat Resistance	-61°F to 225°F (-60°C to 107°C)

# Stretchable Chrome Car Wrap

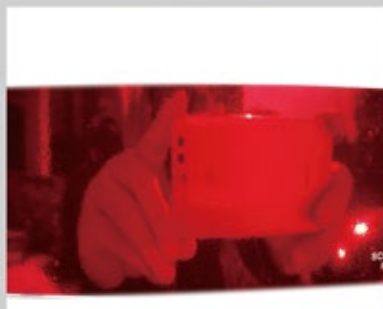

**TS19 Series**

As you know, the classic chrome car wrap is difficult to install for its thickness and stretchability. But now you don't worry about this problem. TSAUTOP High Stretchability Chrome Car Wrap is new and improved so much. When you want an ultra-realistic Chrome Wrap that you can stretch at over 130% without failure and a true, smooth mirror finish. And, since it features air-channel technology and removable adhesives for easy snap up and repositionability, you get a truly hassle-free wrapping experience.
