IV. FAQ

4.1 Question: The Lights can not link to SmartLife App

Answer: Please try to closer your lights , smart phone with router. Make sure the Wi-Fi is 2.4 G not 5G. Allow your smart phone Wi-Fi and Bluetooth permission.

4.2 Question: The lights system blinking suddenly after the setting.

Answer: You may switch the lights system to reset mode, please wait for 3 minutes or set the lights again with Smart Life App

4.3 Question: The lights can not activated by Alexa or Google.

Answer: If you have more than 2 BarSmart Lights system, please rename the lights systems. Alexa or Google may not detect the devices with similar names. Please make sure login your Alexa or Google account as the App instruction stated.

4.4 Question: Some lights bar do not synch with other light bars

Answer: The problem may caused by one of the defective light bars, please link the lights bar one by one to the control box directly, and find out the defective one . Contact the seller or manufacture for free replacement lights bar.

4.5 Question: I need more extension.

Answer: Please purchase it from the seller Amazon store or LAMPAOUS official website. We do not including extension cord in package.

4.6 Question: Can I add more lights bars to the 3 lights kit or 6 lights kit?

That is not recommended, as extra lights bar may reduce the brightness of other lights bars. The total brightness will not change as the transformer output is the same.

4.7 Question: Does the lights work with Apple Homekit?

Answer: No

4.8 Question : My BarSmart is offline.

Answer: First , you need to turn on the power of the BarSmart Lighting system. Second you can't link the lights by more than one App users. The BarSmart only works with the last App user. If other family members need to control the lights by their smart phone, you can share it to them.

App Path for share: Home_BarSmart_Top right corner icon  _share device
