

The beauty of solemnness, capability and uniqueness! It is the spirit of German design, as well as the essence of ARCO. Design, without a single redundancy, expresses the beauty of order, and a noble demeanor of rationality.

ARCO  
The spirit of German design

# ARCO

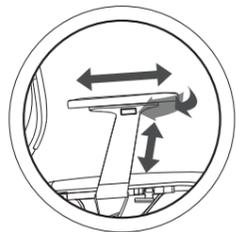

**"Smart Touch" tilt-by-wire system**

A light touch can not only give you smooth lifting experience, but also allow you to choose the sitting posture with any tilting angle as you like through unrestricted lock.

The "Master Reset" function:

Press only one button to let your backrest return to its original position, which helps restore your environment in order easily.

**Three-way adjustable armrest**

Provides up and down, left and right, forward and backward adjustment functions, with flexible and free control.

3-position back and forth adjustment with a range of 30mm; 3-position left and right adjustment with a range up to 21 degree; 6-position up and down adjustment with a range of 60mm

**Hollowed elastic seat frame**

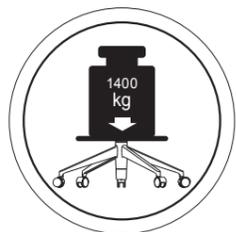

Provides a better way of releasing heat and buffering.

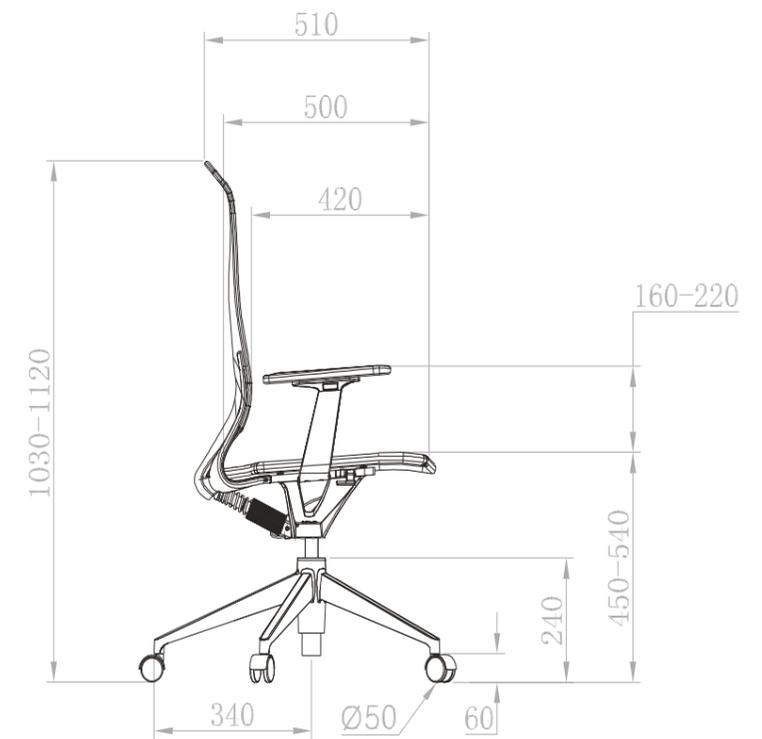

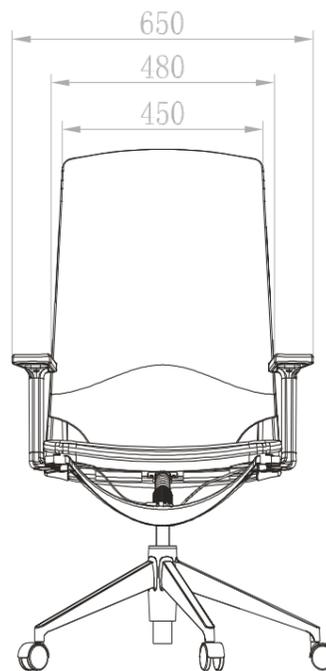

**Superior load-bearing aluminum alloy 5-star base**

It is sturdy and durable, in line with international standards.

The average load-bearing of normal 5-star base is 1250kg, but ARCO's 5-star base can hold weight up to 1400kg.

**MEDIUM BACK**

**HIGH BACK**
