

“Zero Pressure” S-curved Backrest

This patented backrest design gives you a strong sense of being cradled. You will feel “zero pressure” as it equally distributes the pressure around your back and reduces the intensity of surface contact.

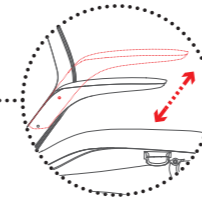

Anti-varicosity Cushion

Sitting for a long time often causes discomfort and possibly varicose veins. Follow’s innovative anti-varicosity cushion has a unique elastic edge, which perfectly accommodates leg curves, allowing smooth blood flow while maintaining freshness and coolness. Even if you sit down for a long time, Follow can always keep you healthy and comfortable.

“Comfortable Tilting” Double-adjustment Design

/// The patented technology, unique in Follow. The backrest and cushion automatically and simultaneously adjust to your body’s movements, attaining utmost reclining comfort and ensuring an accurate sitting posture.

No-button Lifting Armrest

No-button, lift-and-lock design allows users to effortlessly lift the armrest and stop it at any height. The surface of the armrest is made of soft and elastic materials with the texture of human skin.

“Smart Touch” Tilt-by-wire Mechanism

/// A new generation of high sensitivity intelligent wire system allows you to go up and down, lean back and forth, lock and unlock with just one control.
