

# Product Specifications

Full Color Asynchronous Controller Card

**HD-D35**

V1.0 20190521

## System Overview

---

HD-D35 Full Color Asynchronous Controller System is a LED control system that supports mobile APP control, Web remote control and offline play HD Video.

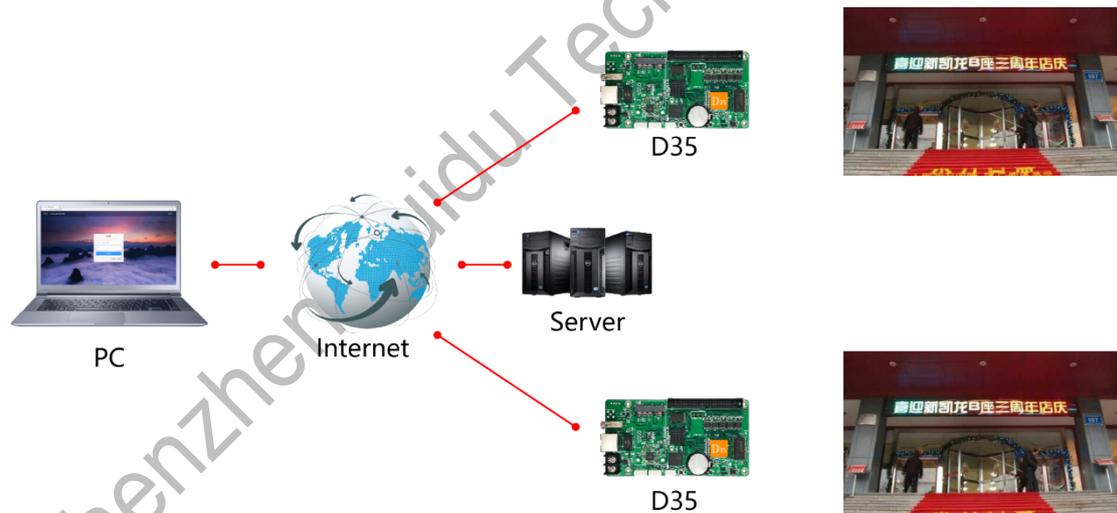

Supporting computer control software HDPlayer, mobile phone control software LedArt and HD technology clouds management platform.

HD-D35 can play offline with on-board 4GB storage space which is for storing program files.

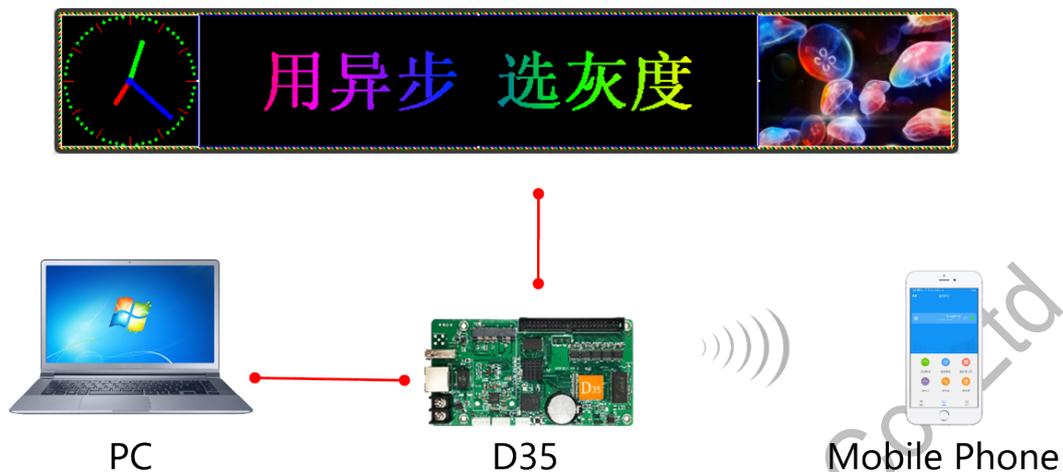

## Application scenario

---

1. The Internet cluster management diagram is as follows:

2. The control card can be connected directly with the computer or Wi-Fi (optional) to update the programs, as shown below:

3. HD-D35 support update programs by U disk or removable hard disk.

## Features

---

1. Support all kinds of door full-color module,
2. Control Range: 1024\*64,
3. Support 256~ 65536 gray level,
4. Support the word art, animation background, neon light effect,
5. U-disk unlimited expansion program, plug in broadcast,
6. No need set IP, HD-D35 could be identified by controller ID automatically,
7. Support 3G/4G/Wi-Fi/ and network cluster management remote management,
8. Support 720P video hard decode, 60Mhz frame rate output.

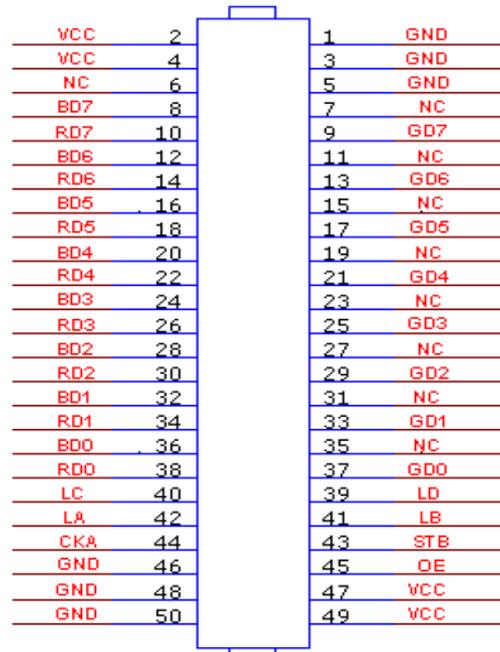

## System function list

---

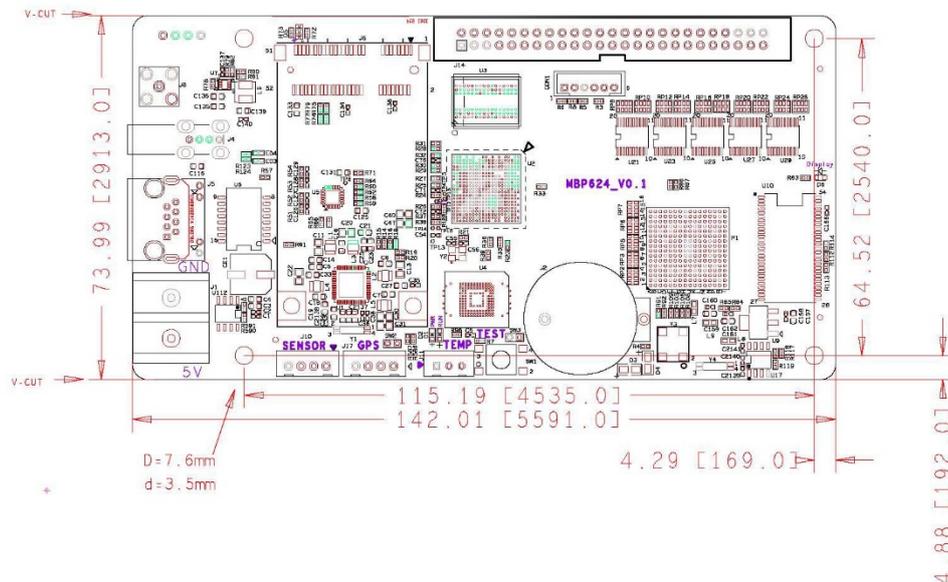

Module type	Static to 1/64 scan mode
Control Range	1024*64, Widest:1024, highest:128
Gray Scale	256~65536
Video Formats	60Hz frame rate output, support 720P video hardware decoding, direct transmission, no trans-coding waiting. AVI, WMV, MP4, 3GP, ASF, MPG, FLV, F4V, MKV, MOV, DAT, VOB, TRP, TS, WEBM, etc.
Animation Formats	SWF、FLV、GIF
Image Formats	BMP、JPG、JPEG、PNG etc.
Text	Support text message editing, inserting picture;
Time	analog clock, digital clock and a variety of dial clock functions
Other function	Neon, animations function; Clockwise/counter-clockwise count; support temperature and humidity; Adaptive brightness adjustment function
Memory	4GB memory, more than 4 hours' program support. Indefinitely expanding memory by U-disk;
Communication	U-disk; Wi-Fi; LAN/3G/4G/Wi-Fi.
Port	5V Power *1, 100M RJ45 *1, USB 2.0 *1, 50PIN HUB *1
Software	HDPlayer

## Interface definition

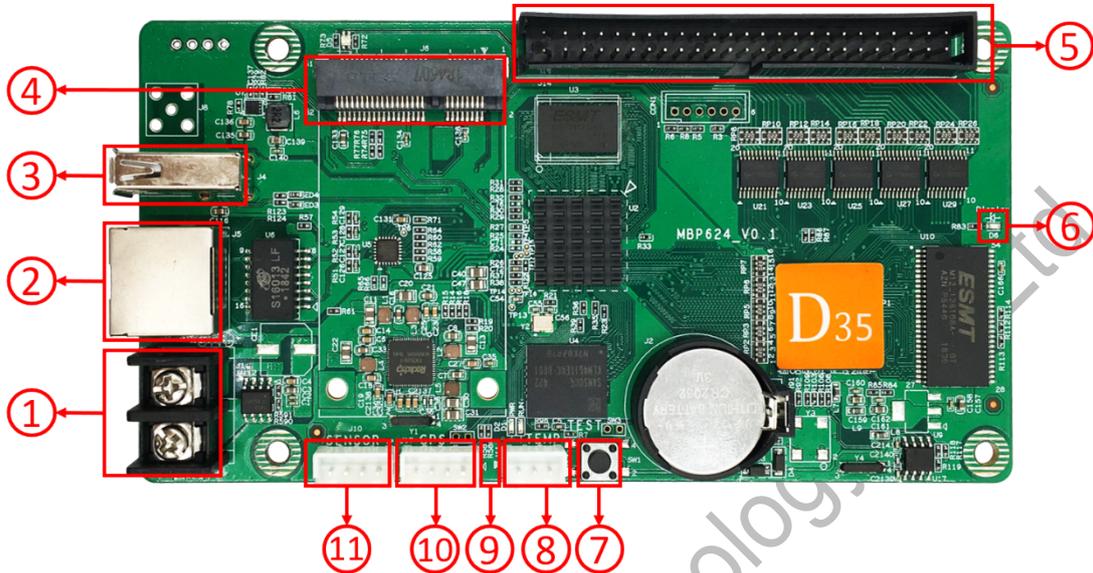

One 50PIN HUB parallel data are defined as follows:

## Assembly drawing

## Interface Explanation

1. Power terminal, connect 5V DC power,
2. RJ45 network port, and the computer network port, router or switch connected to the normal working state is orange light is always on, green light flashes,
3. USB port, connected to USB device for update programs, e.g. U-disk, Mobile hard disk, etc,
4. MINI PCIE port: connect 3G/4G module or WIFI module (optional),the rear if for insert SIM card,
5. 50 PIN HUB: Compatible with a variety of HUB boards,
6. Display light (Display), normal working state is flashing,
7. Test button: for test the brightness and contrast of the display screen;
8. Temperature Sensor port: for connect to Temperature,
9. Power light and running light: D1 is running light, D2 is power light, normal working state: power is always on, run flashes,
10. GPS port: for connect to GPS module, use for time correction and fixed position,
11. Sensor Port: for connect external sensor.

## Technical Parameters

---

	Minimum	Typical value	Maximum
<b>Rated voltage(V)</b>	4.2	5.0	5.5
<b>Storage temperature(°C)</b>	-40	25	105
<b>Work environment temperature(°C)</b>	-40	25	80
<b>Work environment humidity (%)</b>	0.0	30	95

## Precaution

---

- 1) To ensure that the control card is stored during normal operation, make sure the battery on the control card is not loose;
- 2) In order to ensure the long-term stable operation of the system; please try to use the standard 5V power supply voltage.
