### Preparation before use

1. Check whether the products and accessories are in good condition. Do not use them if they are damaged.
2. Check whether the battery is sufficient. If the battery is low, please charge it before using.

### Button control panel

- Power button**  
 Press the power button to turn on the device and press again to turn off the device. The default mode is Refresh, low intensity, and no heating.
- Timer button**  
 The default timer is 15 minutes to automatically turn off. Press to set the timer for 5/10/15 minutes. Press again to switch massaging time.
- Heating button**  
 Press to turn on/off the heating function.

- Intensity button**  
 Press to set the massage intensity at Low, Medium, or High Level. The intensity indicator will light on.

- Mode button**  
 Press to change the massage mode, and the mode indicator will light on.  
 Refresh Mode: massage the hand back and wrist in equally.  
 Health Care Mode: mainly massage the hand back  
 Relax Mode: mainly massage the wrist

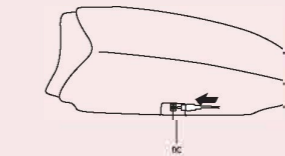

### Start to massage

1. Take off jewelry from your hands and place your palm facing down into the machine;
  2. Touch the power button and hold for 2s. The machine will start to massage automatically.
- Attention:** To ensure security, you had better not use the massager when it is in charging.

### Note: Air Release Valve Instructions

1. The air release valve default mode is OFF to ensure that the air bags can be inflated and offer air compression.
2. Air release valve is only for emergency use. If your hand is stuck in the machine resulting from the air release valve malfunction, turn to "ON" to quickly deflate the air bags.
3. If the air bags fail to inflate, please check the valve and make sure it's OFF.

### Battery Charging

1. **Low battery:** When the product power is low, all indicator lights on control panel blink except charging indicator, and the machine will shut down automatically.
  2. Insert the power cord into the machine DC interface.
  3. **In charging:** Connect the power cord, and the charging indicator lights up red.
  4. **Fully charged:** When the battery is fully charged, the power indicator will switch to green.
- × It is normal for the machine and the power adapter to heat up a bit during charging.

### Charging time

1. Fully charged time is 3-4 hours.
  2. After fully charged, it can offer the use of 6 times, 15 minutes each time. (There will be differences due to the different massage strength)
- Note:** Unplug the charging cable from the machine as soon as the charging is finished.

### Cleaning

1. Always unplug the charging cable before cleaning.
2. Wait for the product to cool down before cleaning.
3. Dampen a cloth in water or a 3%-5% mild detergent solution.
4. Wipe the dirty areas with the wet cloth. Do not use sharp brush, sharp tool, gasoline and diesel to clean it.
5. Do not use wet cloth to clean the control panel to avoid machine failure.
6. Never immerse any part of the unit in liquid.
7. Wait for the unit fully dry before using.

### Maintenance

1. Please store in a box and keep in a safe, dry and cool place.
2. Do not keep it at any place with high temperature, near fire or direct sunlight, or it may be damaged.
3. Keep it away from benzene, diluent or any other corrosive liquid.
4. Service life: 300 hours.

### Warranty

This product includes a 1-year warranty after the date of original purchase, against defects due to faulty manufacturing or materials. The warranty does not cover appearance abrasion caused by wear and tear or damage caused by accident, misuse, or negligence or theft. Please note, any attempt to open or take apart the device will void the warranty.
