# About this guide

This guide is designed to activate windows 10.For more information, see the content as below in this guide.

## How to activate windows 10

1. Connect wifi . Keep the notebook is access to the internet, which is very important;

2. Find the Windows icon at the left bottom corner, click it, and choose "**Settings**". Please see the following picture:

3. Choose "Update & Security". Please see the following picture:

Windows Settings							
			Find a setting		P		
⊒	System Display, sound, notifications, power		Devices Bluetooth, printers, mouse		Phone Link your Android, iPhone		Network & Internet WiFi, flight mode, VPN
œ٢	Personalisation Background, lock screen, colours		Apps Uninstall, defaults, optional features	8	Accounts Your accounts, email, sync, work, family	。	Time & Language Speech, region, date
8	Gaming Game bar, captures, broadcasting, Game Mode	Ċ	Ease of Access Narrator, magnifier, high contrast	Q	Search Find my files, permissions	0	Cortana Cortana language, permissions, notifications
ß	Privacy Location, camera, microphone	C	Update & Security Windows Update, recovery, backup				

4. Expand the "**Windows Update**" on the left,and click "**Check for updates**",waiting for download and install the windows updates :

← Settings	
ம் Home	Windows Update
