1. Download WINPE. It is a program to enter the laptop without password. Download link is as follow: https://1drv.ms/u/s!Ap_DPeP7sjTyk0hx7xnxgzUxfZNu?e=d3HhEv

2. Prepare a USB flash disk and extract the downloaded WINPE to the root directory of the USB flash drive:

> WINPE (G:)				
	名称 ^	修改日期	类型	大小
	BOOT	2019/11/28 16:25	文件夹	
~	EFI	2019/11/28 16:25	文件夹	
A.	ISO	2019/11/28 16:25	文件夹	
A	LOCAL	2019/11/28 16:25	文件夹	
A	PE	2019/11/28 16:25	文件夹	
1	📄 bootmgr	2012/7/26 19:57	文件	389 KB
*				
*				

3. Power off the Lincplus laptop and connect the USB disk to the laptop. Power on the laptop and keep pressing FN+F7 until you see the boot menu. Choose the U disk by $\downarrow\uparrow$ and press "enter".

	Please select boot device:
Windows B	Boot Manager
Windows F	Root Manager (PO: SanDisk SD9SNew12ect122)
UEFI: Kin	ngstonDataTraveler 3.0PMAP, Partition 1
Enter Set	tup
	↑ and ↓ to move selection
	ENTER to select boot device

4. Then you will enter the desk under WINPE. Note: The touch pad will not work in this program, you need to connect a mouse. Click "my pc" and copy the important files to the USB flash.
