

Scan QR code to install Nothing X app.  
Android / iOS

**Replacing ear tips:**  
Choose ear tips in appropriate size to enjoy optimal comfort and sound quality experience. Check the buds accessories for ear tips in different sizes.

\*All device customisations are already integrated into the Settings of the latest Nothing OS.

**Use with your Android devices (Fast Pairing)**  
**New device connection**  
While the buds are inside the charging case, open Ear (2) case and hold near the Android device for on-screen setup.

**Connect to other devices**  
With Ear (2) buds in the open case, press the setup button until light blinks. Then choose them in Bluetooth settings.

OPERATIONS

**Music/standby**  
Press to play or pause.  
Double-press to skip forward.  
Triple-press to skip back.

Press and hold the force sensor to switch between Active Noise Cancellation and Transparency mode.

Force Sensor Force Sensor

**Call**  
Press to answer or hang up a call.  
Double-press to reject a call.

More options in Nothing X app.  
\*Optional functions: play/pause, skip back, skip forward, switch noise cancellation mode, volume up/down, and wake up voice assistant.

**Wearing detection**  
Wear the buds. During music playback, take them off to pause music automatically. Put the buds back in within 3 minutes, music will resume automatically. If 3 minutes pass, you must play the music manually on the device.

**Charge**  
**Ear buds**  
Put the buds in the charging case and close the case to charge.

**Ear case**  
Close the case and connect the case to a power supply through the power cable delivered with the buds to charge it.

**Power level indication**  
White: The battery level is higher than 30%.  
Red: The battery level is lower than 30%.  
• If the buds are placed in the case, the indicator will show the battery level of the buds, and ignore the battery level of the case.  
• Take the left and right bud out. The indicator will show the battery level of the case.  
• For users of Nothing Phone, you can set the widget on the desktop or check the power status of the device in the quick settings of the drop-down notification bar.
